# Instructions To Bidders · Please Read Before Bidding

## TERMS OF SALE

1. All bids are to be per Lot; no Lots will be broken. In the event of identical bids on the same Lot, the Lot will be awarded to the first bid received. In the event of a dispute during floor bidding the auctioneer may at his discretion immediately put the Lot up for sale again.

2. All sales are strictly for cash in U.S. funds. Invoices must be paid within 5 days of receipt. Lots delivered in California are subject to state sales tax unless a resale permit is on file with us. Shipping, handling, and insurance charges will be added for Lots delivered by mail. A 2½% service charge will be added to all Master Charge sales, 3% for Visa, and 3.25% for American Express charges.

3. Bidders not known to us must furnish satisfactory references and/or a deposit equal to 25% of the bids submitted (which will be applied to purchases; any difference will be billed; any overage will be refunded.) We reserve the right to obtain payment in full before delivery of the Lots. Title does not pass until Lots are paid for in full.

4. No "buy" or unlimited bids will be accepted. No bids will be accepted from minors. The auctioneer and/or the cataloguer reserves the right to refuse any bid which, in our opinion, is not made in good faith or does not qualify credit-wise.

5. All items are guaranteed genuine.

6. We cannot be responsible for your errors in bidding, so check your bid sheet carefully. Please bid in even dollar amounts. All bids not in whole dollar figures will be rounded off to the lower whole dollar amount.

7. Auction sales are not approval sales. Any Lot may be examined before bidding. No Lot may be returned by a mail bidder without our permission in writing. Requests to return coins must be made in writing within 3 days of receipt of the coins.

8. No Lots may be returned for any reason by floor buyers (including those acting as agents for others). All floor sales are final.

9. Any claims involving errors in the catalogue or for other reasons must be made within 3 days of receipt of the coins. Bowers and Ruddy Galleries acts as agent for the various consignors. For this reason, no claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the bidder and the consignor, without involvement or responsibility of Bowers and Ruddy Galleries and/or the cataloguers. Bowers and Ruddy Galleries reserves the right to include its own material in any auction. In the event of a typographical error or attribution error or other error, the cataloguer reserves the right to withdraw any item from sale, or if the error is discovered at a later date, to refund the buyer's money without further obligation.

10. Printed prices, catalogue values, etc. are only estimates. Higher or lower valuations may prevail. In the United States series estimates are given only on particularly expensive and/or unusual Lots. We will gladly answer any other questions you might have.

11. Your submitting of bids in our sale constitutes your acceptance of the foregoing terms.

## INSTRUCTIONS FOR MAIL BIDDERS

*Deadline for receipt of mail bids: Noon, Wednesday – February 8, 1978. We recommend that you mail your bid sheet 10 days prior to the sale date.*

Be sure to read the TERMS OF SALE as they apply to mail bidders as well as floor bidders.

A bid sheet has been provided with this catalogue. Double check your bids before sending them, for we cannot be responsible for any errors on your part. Please submit your bids in U.S. dollars. Be sure to sign your bid sheet. Mail your bids early! Deadline for receipt of mail bids is Wednesday, February 8th, 1978.

If you bid by mail we will act as your agent and will buy for you under your bid if the next highest bid permits. No commission will be charged for handling your mail bids. Example: If you bid $120 on a Lot and the next highest bid is $100, then we will buy the Lot for you at a nominal advance—approximately $105 in this example. If you bid $120 and the next highest bid is $115, then you will be charged $120, the amount of your bid.

In the case of tie bids, the earliest bid received is awarded the Lot. Please check our catalogue carefully. This outstanding auction sale offers you a truly significant opportunity to acquire some choice and lovely pieces.

# INTRODUCTION to the Charles M. Johnson and Dr. Ivan H. Meyer Collections

**With great pleasure** we present one of the finest auction sales it has ever been our privilege to catalogue. To be held in conjunction with the Numismatic Association of Southern California convention, the sale offers a broad panorama of coins and currency in virtually every series.

**Charles M. Johnson,** one of California's most prominent numismatists, has won virtually every award and distinction possible in our hobby, including the Farran Zerbe Award, the American Numismatic Association's highest honor. It was Mr. Johnson who spearheaded the A.N.A. Home and Headquarters Building conception and construction in Colorado Springs.

**Beginning his collecting interest in 1948,** Mr. Johnson was from the outset a numismatic connoisseur. Some of the finest pieces of currency we've ever auctioned are in the pages to follow; the result of many years of careful collecting.

**Dr. Ivan H. Meyer,** a distinguished surgeon, scholar, and connoisseur, for many years assembled a collection which was to ultimately include the "rarest of the rare." For example, most collectors would consider themselves fortunate to own a single specimen of the celebrated 1839 British *Una and the Lion* five-pound gold piece. Dr. Meyer acquired *three*. The gold Charles II crown, the 50-shilling gold piece of Cromwell, Hawaiian rarities, rare American gold coins, an incomparable 1916-C Canadian sovereign, and other treasures were carefully acquired from many sources.

**The properties of Charles M. Johnson and Dr. Ivan H. Meyer,** plus other important consignments, add up to an action sale that will be remembered for all-time. Then, too, we'll mention that there are many pieces from the Fairfield Collection, the $3,700,000 grouping (consignor's original cost; the largest collection ever to be sold at unrestricted public auction sale) we began selling last October. All in all, you're in for a treat!

**United States coins** include the formidable Maryland denarium or penny, Lot 1. As our description notes, "its importance cannot be overestimated." Then comes a Maryland sixpence followed by some Fugio cents, large cents, Indian cents, and 2¢ pieces. Three-cent pieces, nickel and silver, are highlighted by many Uncirculated and Proof pieces. Shield, Liberty, and buffalo nickels will delight the specialists in those series.

**Silver coins of the U.S.A.** include a nice selection of top-grade half dimes, and, beginning with Lot 269, a real treat:

**The Donald F. Herdman Collection of Dimes,** commencing with a superb 1796, the first year of issue, is offered for your bidding consideration. Mr. Herdman, who began collecting in the 1930s, consigned the major portion of his holdings to our December 1977 sale and was so pleased with our presentation that he consigned his dime collection to the present catalogue. The group is simply dazzling!

**Twenty-cent pieces,** quarters, and half dollars are there, too, in quality and quantity.

**The silver dollar specialist** will be pleased, but perhaps a bit saddened, to know that the catalogue contains more Fairfield Collection pieces, but, sadly, once they are sold only a handful of additional dollars remain for future sale. Early dollars, Gobrecht dollars, outstanding Liberty seated dollars, and a lot of Morgan dollars await your bidding. On the last note we mention that you'll probably never again see such listings as those which begin with Lot 1001 and 1040! And, of course, Lot 1033 and 1034, two 1895 Proofs, are likewise exciting. If you're interested in Morgan dollars, attend the sale, send a representative, or mail in your bid sheet!

**Trade dollars** are also quite select and include many fine Proofs. Gold coins include a number of rarities such as the 1854-D $3, the classic 1879 $4 gold Stella, several landmark half eagles (especially in the Indian series), some breathtaking $10 pieces (Proofs plus several stellar 20th century issues), and a fine group of double eagles and territorials. Then come commemorative coins following by patterns, mint errors, and medals—including among the latter the renown C.C. Wright Independence Medal, a superb rarity. Then come Hawaiian issues, including Proofs and issues in *gold*.

**United States currency,** which begins on page 84, speaks for itself. Many scarcities and rarities as well as "type" notes are presented for your consideration. Lot 1817, to cite just one example, should make numismatic history!

**Ancient coins** include a nice selection of gold issues of the Roman and Byzantine emperors, including aurei of Julius Caesar, Domitian, and others. Greek silver and bronze pieces include many issues of interest.

**Coins of the world,** including the previously-mentioned highlights from the Dr. Ivan H. Meyer Collection, are stunning. Canadian coins include a complete set of sovereigns and several sets of $5 and $10 gold as well as gold issues of Newfoundland. Swiss pieces include many shooting festival talers. Issues of Germany feature high-grade (mostly Uncirculated and Proof) pieces of the states, Empire, and the Weimar Republic. From Israel come many commemoratives and medals in gold. Indian pieces include a zodiac *Pisces* mohur as well as state and regal issues.

**Roy Harte,** whose superb collection was featured in our November 1977 auction catalogue, has consigned his wonderful display of Philippine Islands currency, including many used to illustrate standard reference books.

**The collector or dealer** in the field of world coins will find many, many buying opportunities—ranging from "store stock" to great rarities. Plan to attend!

**This great sale** will be held in conjunction with the Numismatic Association of Southern California convention at the Hilton Hotel in Los Angeles. A gala event, complete with dealer bourse exhibits, educational displays, and other features, is planned. We invite you to attend in person.

**Bidding by mail** is a popular way to participate. In fact, most of our clients will bid this way. Have any questions concerning estimates, bidding procedures, catalogue descriptions, or anything else? Write or telephone Bob Korver (manager of our Auction Department), Phil Starr, or Marti Day. They'll take care of your every need. See also our notes, "Helpful Mail Bidding Suggestions," at the end of the catalogue.

**Our N.A.S.C. Convention Sale** is about to begin. We wish you the best of luck and success. Each of the 37 people on the Bowers and Ruddy Galleries staff thanks you for your interest and participation.

Sincerely,

Dave

Charles M. Johnson

# About

# Charles M. Johnson...

*Charles M. Johnson is a numismatists' numismatist. Over the years his participation in numismatic organizations and the awards he has received have been matched by few others.*

*He was born in 1908 in Butte, Montana, and spent his boyhood in the nearby rural community of Whitehall. In 1931 he met and married Irene Dodds, also from Montana. Now, in 1978, they have two sons, Larry and Dennis, and four grandchildren.*

*Charles M. Johnson graduated from the University of Montana in 1935 with a degree in law, a field he then practiced for many years. For over a decade he headed the legal department of a California oil company. Following his retirement from law, Johnson entered the building business and constructed many apartment houses, homes, and other structures in California.*

*His interest in numismatics began in 1948 as a father-and-son project. When his son tired of coins, Johnson's interest continued. Soon he developed a fascination for United States paper money covering the issues from colonial days to the present. For nearly thirty years his collection grew. The result, as presented in our auction now, is a superb display which reflects the fastidiousness, scholarship, and tireless pursuit of rarities characteristic of Mr. Johnson's expertise and enthusiasm.*

*In 1954 he was one of the organizers of the Numismatic Association of Southern California and was given charter membership No. 8. He has served on N.A.S.C.'s board and on many committees. He started and initially conducted the club speakers' program which has brought many fine numismatic personalities to Southern California. He was the first recipient of the Richard Goodson N.A.S.C. Outstanding Numismatist Award.*

*Mr. Johnson has also been active in the California State Numismatic Association and has served on its board and with many committees and projects. He incorporated that group in 1961 and worked with "Calcoin News," the organization's quarterly publication. He has received the C.S.N.A.'s Medal of Merit for Outstanding Service.*

*At the national level Charles M. Johnson holds life membership No. 439 in the American Numismatic Association. He served on the A.N.A. Board of Governors for eight years and has played a vital part in many A.N.A. committees.*

*As the chairman of the A.N.A. Home and Headquarters Committee he supervised site selection, fund raising, planning, and building. His leadership produced the American Numismatic Association's present Colorado Springs home, completely furnished, debt-free, and ready to serve as the worldwide headquarters for the largest non-profit collectors' organization. All of this was done in the face of considerable opposition to the location and much skepticism that the necessary funds could be raised.*

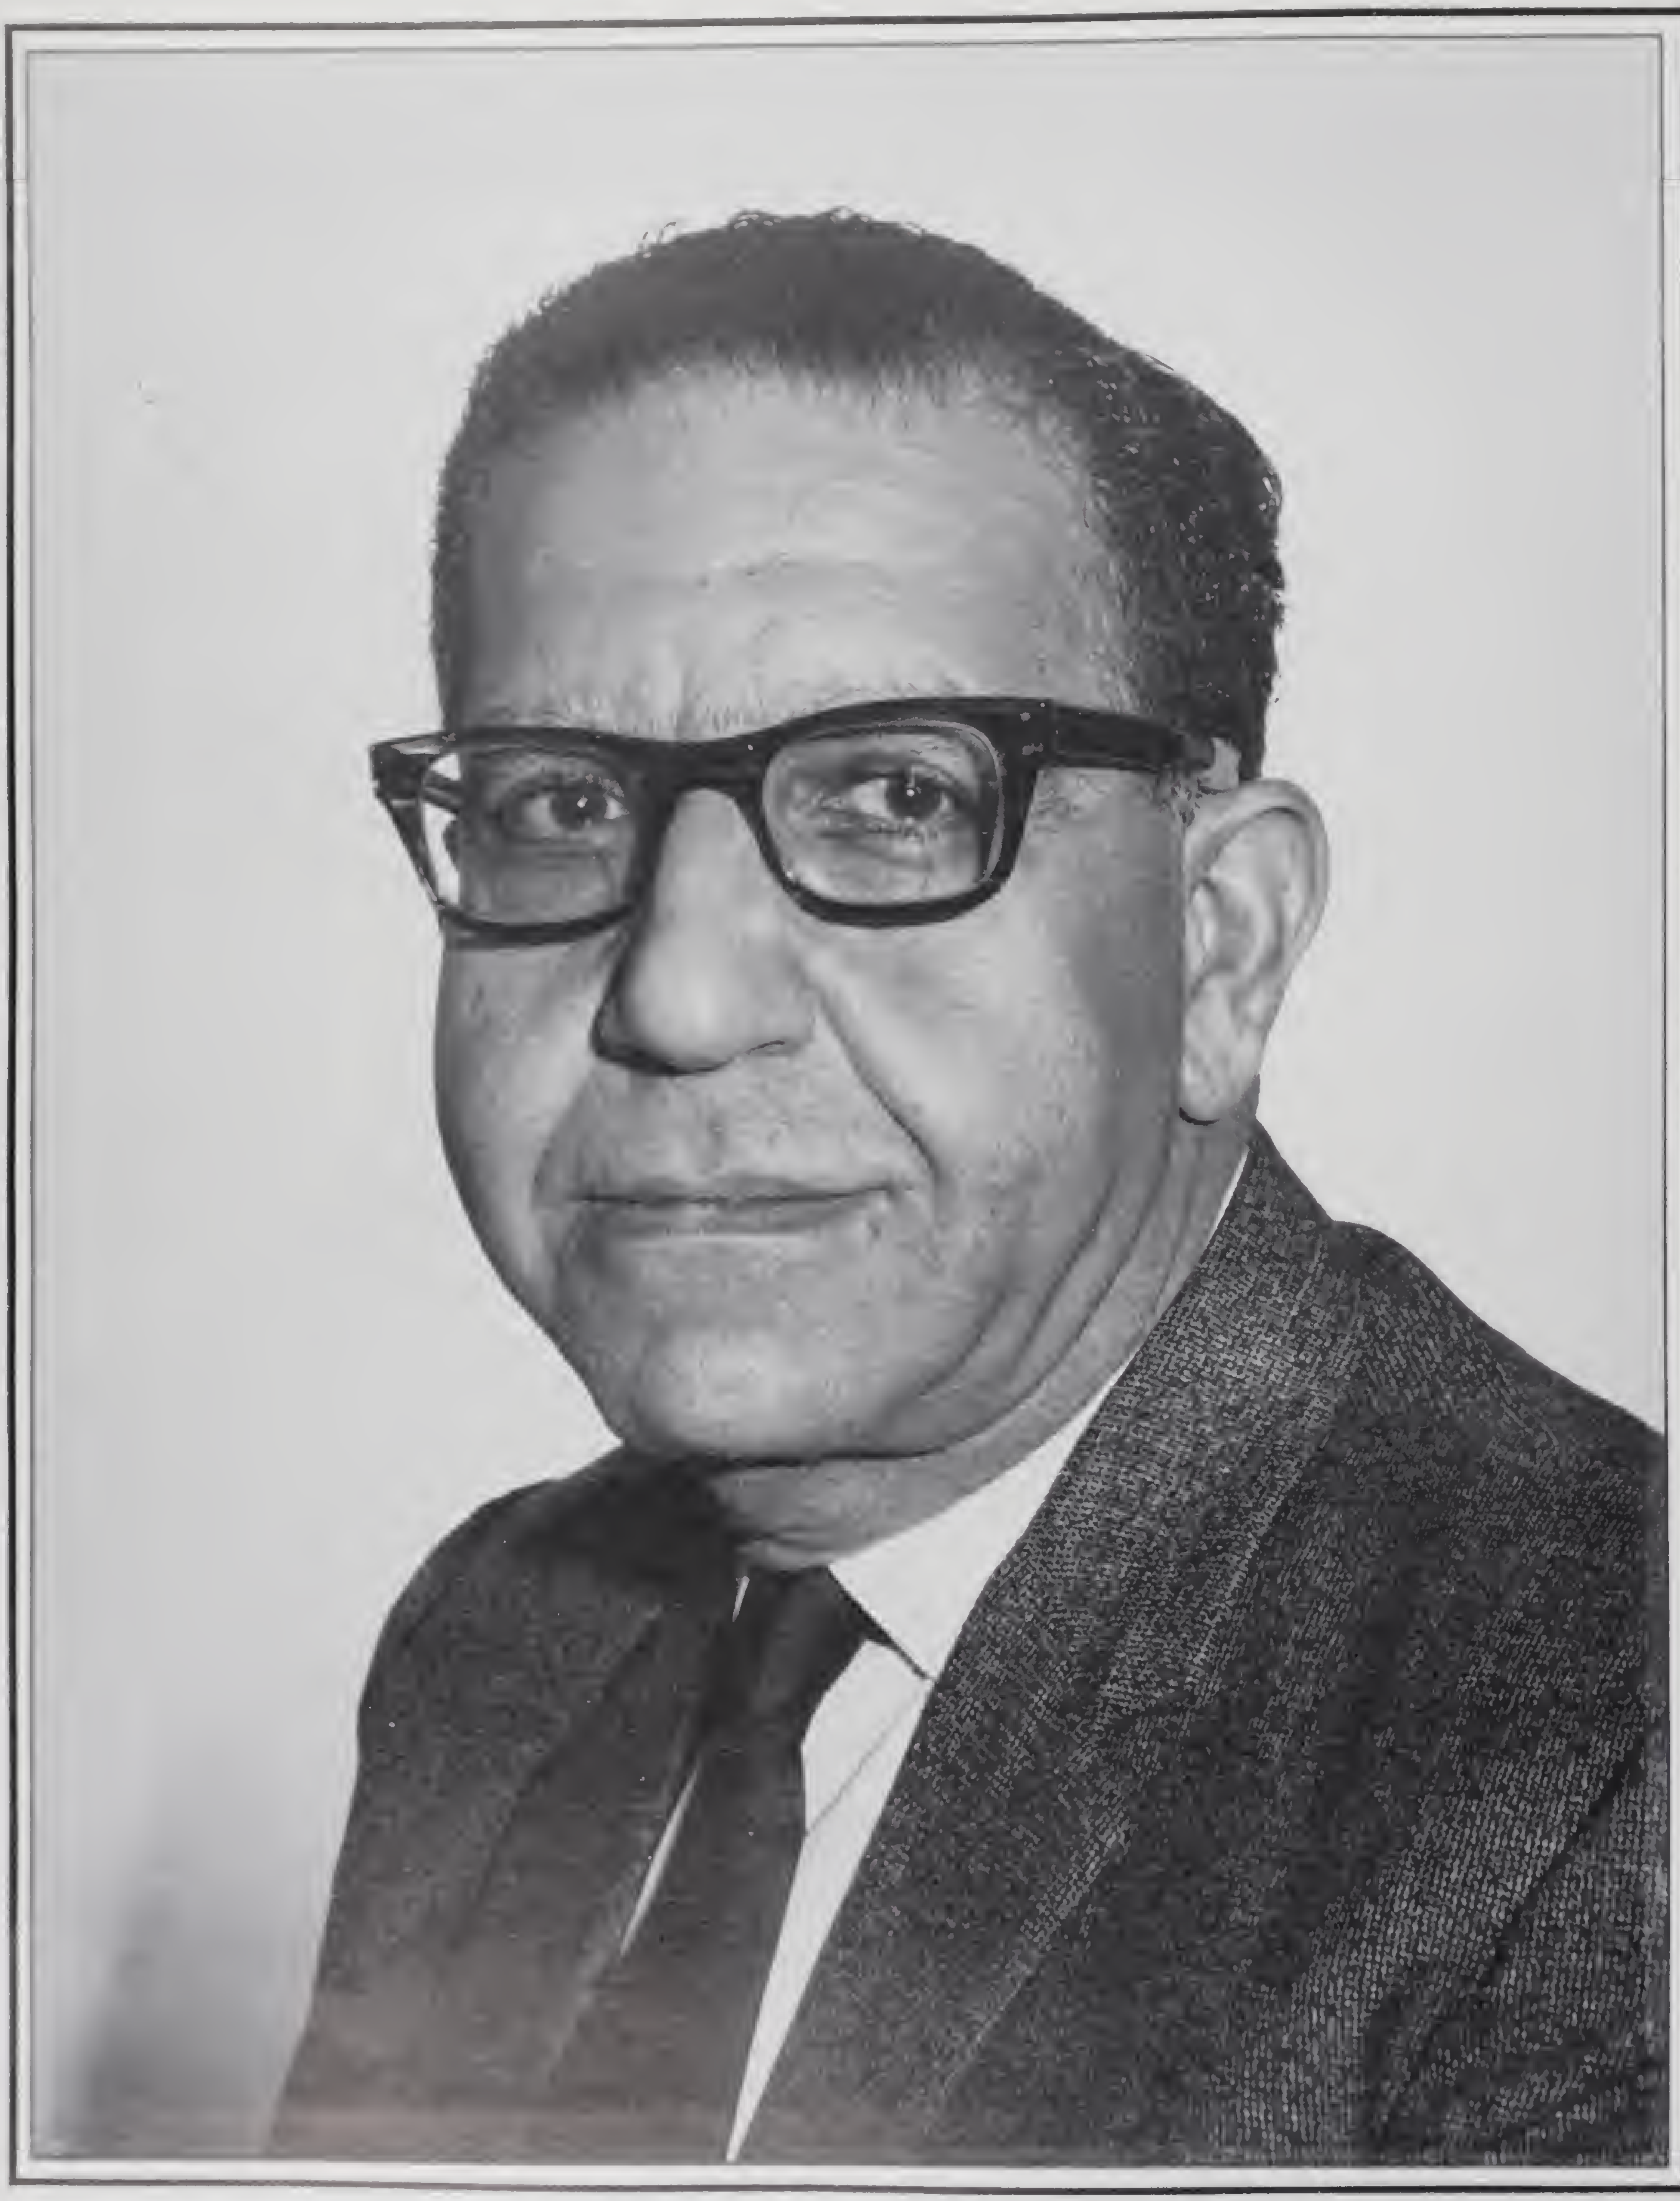
*Mr. Johnson has had a deep interest in numismatic research. It was logical that he would be chosen to be Reprint Committee Chairman. Under his aegis the back issues of the A.N.A. journal, "The Numismatist," were studied, and key articles were reprinted in a handsome set of four books.*

*He has earned both the A.N.A. Medal of Merit and the highest honor of the A.N.A., the coveted Farran Zerbe Award. He has also garnered the A.N.A.'s Heath Literary Award and the Amon Carter Paper Money Award.*

*The citation given in connection with the Farran Zerbe Award reads, in part:*

*"You have dedicated many years of service to the American Numismatic Association. You were a member of the Board of Governors for the 1960s decade, you served on many committees, and you donated a great deal of time and effort. However, this work is eclipsed by the dedication to your chairmanship of the Home and Headquarters Committee. You have been described by fellow governors as one of the most dedicated workers for the betterment of the association."*

*In his numismatic endeavors Mr. Johnson has combined hobby and collecting interest with research and study and with his gift for helping others. He is in the front rank of leading numismatic personalities of our century.*



*Dr. Ivan H. Meyer*

# Dr. Ivan Meyer's Own Story

*My father often told me the story of N.M. Rothschild who, as a peddler in Germany, made a fortune by his trading activities. At a very young age I decided not only to acquire "collectibles" for profit, but also to earn money by starting a pool on weekend football results. In short, I acted as a bookmaker, taking a friend of mine into hazardous partnership which, though fraught with danger, still appeared to us both as adventuresome.*

*In that period of my life, I was a day scholar in a school in England run by Jesuits, who were excellent teachers and disciplinarians. A weekly report on each scholar was issued by the classmaster in the form of cards which varied from gilt to white in color. The acquisition of a white card meant expulsion from the school and was rarely, if ever, given.*

*A "black book" also existed, which was presented to the scholar who stood first in a weekly exam in Latin, mathematics, and the usual other subjects taught at the time. I was nearly always the recipient of the "black book," which I was wont to take to the school rector who then complimented me on my diligence. The success of one's examination results, of course, had nothing to do with the weekly presentation of the cards of various colors.*

*One particular week my partner in crime, who had been attending early morning mass, learned of hell, fire, and brimstone and calculated that I had probably done him out of his correct share of the profits. He was a rather big, strong individual, well versed as a pugilist, and could easily prove that brawn always succeeded over brains. He informed me that I was a dirty sinner and a thief; his accusations were incorrect, but I couldn't reason with him. Until the great commotion of that day, our private venture of trying to become millionaires had never come to the notice of the school authorities.*

*That Monday morning, after the colored cards had been distributed, the results of the weekly examination held the previous Friday were read, and I stood first again in the class rank. It was usual for the student with the highest marks to be invited to the teacher's desk, to be presented with the "black book," and then to have a ritual congratulatory shaking of hands. That morning, however, not being asked to come to the teacher's desk, I took it as my right to present myself. When asked what I wanted, I replied, "The black book to take to Father Rector."*

*The chaotic atmosphere that resulted was beyond description. I was accused of black market activities. I was told I was a serpent in the grass, and if not already in the gutter, I was just a few inches above it. Curiously enough, my profits (and they were quite large) were never made an issue of, and I was "allowed to retain my ill-gotten gains."*

*Finally, after a most disgraceful and heart-rendering period of abuse, I was given the "black book" together with a gray card (which meant a caning) and ordered to present myself to the Rector. He was an Englishman of excellent breeding. I was very correctly congratulated on my academic attainments and then was asked to bend down, and with the further indignity of lowering my pants, I was subjected to a caning, the like of which I have never experienced, either before or after. So, for some time my pursuit of collectors' items was not only neglected but was entirely forgotten. I became an exemplary scholar and was soon on the road to enlightenment, intelligence, thoroughness, sound practice and attainments which I was persuaded were the mark of an educated and erudite man. I was then in my prime and ready for entrance to the University where, at St. Bartholomew's Hospital in London, I was accepted as a medical student. After a career, brilliant and glittering with academic achievements, I took my degree in medicine. It was an occasion for celebration! Later that night I found myself being bailed out of an extremely dirty and neglected police station. A rather amused police inspector, grinning like a baboon, informed me that the removal of beacons at pedestrian crossings was, despite my actions to the contrary, not tolerated in that part of London, even under the present celebrative conditions! However, I thought it was great fun.*

*A few years later I became a Fellow of the Royal College of Surgeons, and at that time was probably the youngest Fellow in that august body. Then World War II broke out. My skills as an expert and accomplished surgeon were in great demand. At war's end I reflected that I was lucky to work under a chief whose skill and expertise were masterful, competent and efficient not only to display his knowledge, but gifted enough to pass it on to me. I worked there for seven years. During this period, the bulk of the surgical tasks and assignments were allotted to me by* *the chief who had created me in his own mold and knew he could trust the labor, effort, and energy he had been able to produce and exploit in me, an achievement he once admitted he felt he could never have done with anyone less enterprising than myself. "One day," he ventured to prophesy, "you will be the greatest surgeon this country has ever known." But he was not quite right in that attempt at prophetic judgment.*

*A vicious and almost unbelievable anti-semitic demonstration began to take place in England. After having performed the job of my chief for over seven years, without any problems, a National Health Service committee chose another surgeon, instead of me, to succeed my chief. The sad thing is that until the Health Service came in, my chief could have personally named me as his successor. Such is the plight of time and the fragility of power.*

*However, I did succeed in my chosen profession, and one day while visiting our friendly neighborhood banker, my wife and I decided to return to my old collecting days, this time with legally-obtained funds, and concentrate on gold bullion and coins. The precious metal was then $35 per ounce. Although there was nothing tangible to prove my ideas, I felt that the price would double soon. But it wasn't enough to collect the metal alone. It became far more interesting to collect gold coins with historic value and interest. Soon I was appreciating these golden-hued pieces for their magnificence, beauty, and the aesthetic pleasure they add to life.*

*I was determined to study the subject of numismatics. Soon, books of all descriptions were bought and studied. After an appropriate interval of time, I was surprised to find that coins had ancestors, patterns, Proofs, uniqueness, and were growing at an alarming rate in popularity, causing the public to become aware of their investment potential.*

*While investment was of interest to me, like a true numismatist I was primarily concerned with coins for their rarity, magnificence, and beauty. They brought to my life a passion, difficult to describe but easy to feel. And then there was the pride of possession—who is there who would not love to acquire an object, no matter whether it be a coin, or a rare porcelain object, which is truly unique or is one of just a few known.*

*Each time I acquired a coin, whether it be a common or rare one, I endeavored to learn its history, how it was minted, and about the events or design which the coin portrayed.*

*Benedetto Pistrucci, an idle and lazy man, undertook the engraving of the Waterloo Medal, which was finally produced over 30 years after the event commemorated took place. This truly great artist was able to capture a scene which achieved tremendous detail and feeling. When, in the 1960s, restrikes of this medal were made by John Pinches, Ltd. (the successors to Wyon Brothers in London), I visited the factory, held a beautiful gold specimen in my hand [See Lot 3541 of this sale], and felt myself transported to the scene it sought to illuminate. Although the medal was very expensive, the admiration I had for its intimate and vivid detail more than compensated me for the cost.*

*As the years progressed, the price of gold climbed. I saw my earlier predictions fulfilled. At last I reached the age when the senses are blunted and one is unable to appreciate, as one once did, those beautiful and exceptional things of life. I finally decided to sell my prized collection, not only for the monetary profits I would gain, but my senses, soon to be dimmed with age, would prevent their enjoyment if I had decided to hold on to them.*

*I have often been asked as to which of all these rare coins aroused the most enthusiasm in me. The answer is undoubtedly the extremely rare 1916-C Canadian sovereign. It was truly a perfect acquisition, as it would have been to any discriminating numismatist. I had been searching for it for many years with little success—and then, as so often happens, I found myself holding the very coin I had so ardently desired. That was the most dynamic and exceptional day of my collecting life; it was a feeling which was at once breathless and awesome. At long last I was holding a work of art, superbly valuable in the most enduring sense of the term. It was different from all other sovereigns in two features only: the date and the letter C which proved beyond a doubt that it was made at the Royal Canadian Mint. I would like to add a third quality: namely that this coin is the finest specimen in existence today. My set of Canadian-minted sovereigns was now complete, and my cup overflowed with cheerfulness and contentment. No numismatist could have felt a greater pride in the acquisition of this treasure.*

*Now it is time to bid goodbye to the Meyer Collection. I hope that those of you who are fortunate enough to own any of these coins will have the same appreciation as I did of their magnificence which brought me a pleasure so passionate and so beautiful that it really defies description. Those years I will always remember with gratitude in my heart, for it does not often fall to the lot of man to experience such an appreciation of splendor. I believe that every person has the right to experience this indescribable evanescent passion of love but that of a joy which remains unforgotten and always present.*

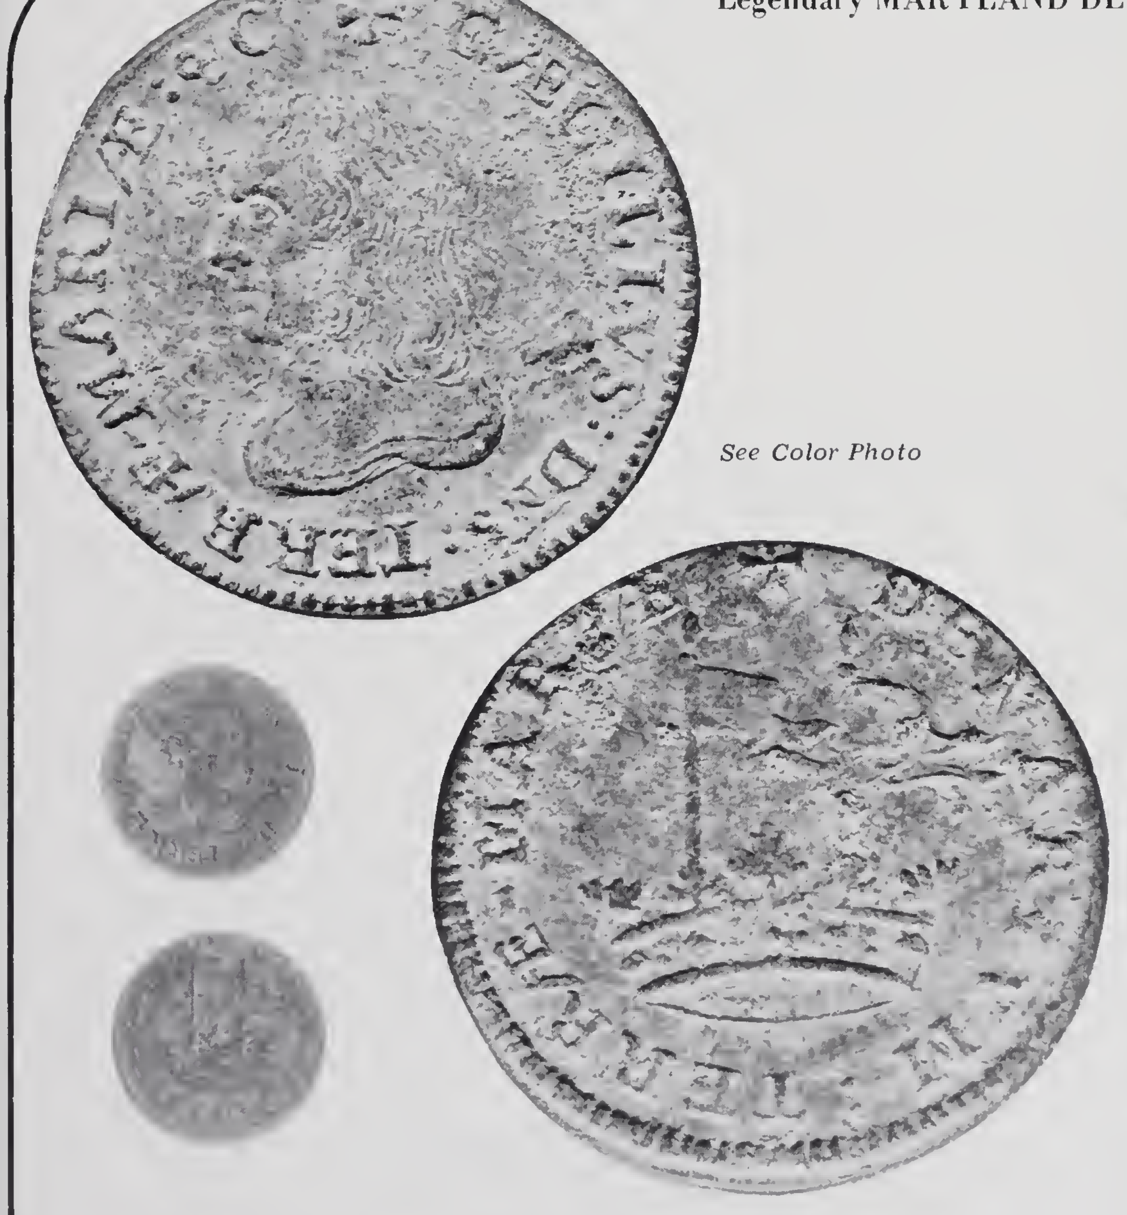
## FIRST SESSION

Thursday Afternoon, February 9. 1:00 p.m. Sharp. Lots 1 to 653

# U.S. Colonial Coins

*The following selection of colonial coins includes a number of interesting and popular varieties. Starting the offering are two very unusual coins: the ultra-rare 1658 Maryland denarium, one of the greatest pieces in the American colonial series, and, following it, a 1658 Maryland sixpence. Then come desirable Rosa Americana issues, some nice high-grade Fugios and other pieces of interest.*

### Legendary MARYLAND DENARIUM



*See Color Photo*

1 **Maryland denarium or penny.** Circa 1659-1661. Copper denarium made for Maryland under the auspices of Cecil Calvert, the second Lord Baltimore.

The present coin is close to **Extremely Fine** from the standpoint of *actual wear.* The details are bold and sharp. The entire surface is oxidized with green copper sulfate. There are no planchet flaws, damage traces, or other impairments. The coin appears to have received little, if any, wear. The weight is 66.25 grains.

To the best of our knowledge, there are but four (some authorities say five) known specimens of the Maryland denarium, including the presently offered example. Two (or three) of these are impounded in museum collections, leaving the present example and the one in the collection of John J. Ford, Jr. as the only specimens in collectors' hands.

A letter from Mr. Ford relating to our coin and his is reproduced on the next page.

In 1658 or 1659 Cecil Calvert arranged for specimens of a Maryland coinage to be made in England. Denominations produced included the shilling, sixpence, and fourpence. These were made in moderate numbers and were circulated in the Maryland colony. Nearly all known specimens show varying degrees of wear.

On May 1, 1661, Maryland passed enabling legislation which provided for the establishment of a mint. While no records of the actual operation of a state mint in Maryland are known to us, it has been theorized by some (e.g., Don Taxay) that there may have been an indigenous Maryland coinage.

It is believed that the Maryland denarium pieces were made in essay form only and that no pieces actually entered circulation as a medium of exchange. The coin has been a numismatic classic for hundreds of years and was held in the *highest* regard by eighteenth century antiquarians and was repeatedly lauded in their literature. It has always been highly regarded in England as well as America.

The present offering of the *legendary* Maryland denarium is one of the most important auction appearances of a colonial American coin in this century. As John J. Ford, Jr. has written, "its importance cannot be overestimated." It is the only auction appearance this century of the first copper pattern made for America. For the colonial collector it may well represent a truly once-in-a-lifetime opportunity to acquire this formidable issue.

BOWERS and RUDDY GALLERIES, Inc.
6922 Hollywood Blvd., Suite 600
Los Angeles, Calif. 90028

Dear Dave:

I have your letter of the second, together with the newly discovered specimen of the (1659) Lord Baltimore Denarium or "Penny," which you sent to me for examination and authentication.

Going to the bank, I removed my specimen for comparison. Mine is, of course, the Hodsol, Martin, Mickley, Bushnell, Parmelee, Brock, Boyd, et al, piece, which, as EF-40, is by far the finest of those (now four) known. It is on a considerably broader (20.40 mm.) and thinner planchet than your consigned coin, which was struck on a slightly smaller (19.90 mm.) but considerably thicker flan. Correspondently, the Hodsol-Boyd example weighs 56.95 Grains on my Sauter-Toppan projection scale, while the newly discovered "Penny" weighs in at 66.25 Grains.

It gives me considerable pleasure to report that your piece is struck from the identical obverse and reverse dies as is my coin. The characteristics of all the recut and defective obverse letters are identical (repunched first C in CAECILIVS and recutting at the base of the L; recut first R in TERRAE-; overpunched R in MARIAE, etc.), and traces of the circular guide line below the reverse letters (most notably at top, between the cross and D and at bottom, between M : T) match up perfectly. Although not that strongly pronounced upon my specimen, they are clearly discernible upon your newly discovered, second finest known piece. Finally, the obv.-rev. die positioning is identical, indicating that both pieces were struck at the same time.

Since your fourth known example has scaly, granular surfaces, covered with (green) copper sulfate, it could be contended that it might be an old cast fabricated within the past 250 years from my Hodsol-Boyd specimen, which until the discovery of the poor pieces now in the National Collection, was long believed to be unique. This argument can be easily demolished. The positioning and configuration of the denticulation upon both sides, of the respective coins, does not match up in any way, and, most important, your smaller, thicker piece clearly shows beading NOT PRESENT upon my coin PLUS peripheral metal to spare. This is diagnostic!

I have no hesitation pronouncing the "Penny" consigned to you authentic, and thank you for sending it to me. It is not often that I am privileged to see a new example of a great traditional rarity, the importance of which cannot be overestimated. After all, you do have the only other specimen in private hands of the first copper pattern made for America. The piece is being returned to you herewith.

Best regards,

John J. Ford, Jr.

## Rare Maryland Sixpence

*See Color Photo*

2 **Maryland sixpence.** Circa 1659-1661. Struck in silver. Obverse with the portrait of Cecil Calvert, the second Lord Baltimore. Reverse with the arms of the Maryland colony.

The coin is a pleasing **VF-EF** example with light gray and golden toning. The striking is excellent, and sharpness of detail is exhibited in all areas.

The Maryland sixpence is an extreme rarity in all grades. This is a particularly nice example.

3 1652 Massachusetts sixpence. Wyatt copy in copper. Believed to have been made by Edwin Bishop, who later acquired the Wyatt dies. Extremely Fine or better. A rare piece of 19th century numismatic Americana.

4 (1678) Mark Newby or St. Patrick farthing (¼ penny). Copper. Nice VF-EF. With brass plug on reverse, as usual—to make the king's crown appear "golden." Interesting issue.

5 **1722 Rosa Americana halfpenny.** D.G. REX abbreviation variety: considerably scarcer than the usual type with DEI GRATIA REX ("King by the Grace of God") legend spelled out. **AU** grade. Dark brown surfaces with the porosity nearly always seen among Rosa Americana issues (which were made of a porous composition called *bath metal*).

*Note: The pedigree includes Thomas Elder, Hillyer C. Ryder, Wayte Raymond, and, more recently, our own firm.*

6 1722 Rosa Americana halfpenny. DEI GRATIA / UTILE DULCI legends. Nice Extremely Fine.

7 1723 Rosa Americana halfpenny. Extremely Fine.

8 1723 Rosa Americana penny. Extremely Fine.

9 (1722) Undated Rosa Americana twopence. VF-EF. Quite scarce in this grade. First issue of this large, heavy, and rather impressive denomination.

10 Starter group of colonials. Contains: (1) Rosa Americana twopence, Fair, date not visible; (2) 1785 Nova Constellatio. Blunt rays. VG. Attempted puncture; (3, 4) Pair of Connecticut coppers, each Fair, one dated 1787; (5 to 7) Three N.J. coppers, average Fair grade, one dated 1787. (Total: 7 pieces)

11 1722 Wood's Hibernia halfpenny. Second style with harp to the right. VF-EF.

12 **1723 Wood's halfpenny. Brown Uncirculated with traces of original mint red.** Some planchet flaking as made. Not rare as a coin, but rather elusive in this high state of preservation.

13 **1773 Virginia halfpenny.** With period after GEORGIVS. **Red and brown Uncirculated.** Probably from the Col. Cohen (Baltimore, Md., 19th century) hoard. Becoming scarce in this high grade.

14 1773 Virginia halfpenny. No period. Fine.

15 1783 Nova Constellatio. Pointed rays. Small US. VF-EF.

16 1785 Vermont copper. VERMONTS spelling. Sun over mountains design. Good.

17 1787 Connecticut copper. Draped bust left. Nice Extremely Fine.

18 1788 Connecticut. Mailed bust right. Very Good. Edge clip as made.

19 1787 New Jersey. Outline to shield. Fine. A few planchet flaws and an edge clip as made.

20 1787 Massachusetts half cent. Very Fine.

21 1789 Mott token. Thick planchet variety. Obverse die bulged in the center as usual for this variety. Very Fine. One of the earliest merchants' tokens from the American scene. Mott was a dealer in clocks, watches, and art items.

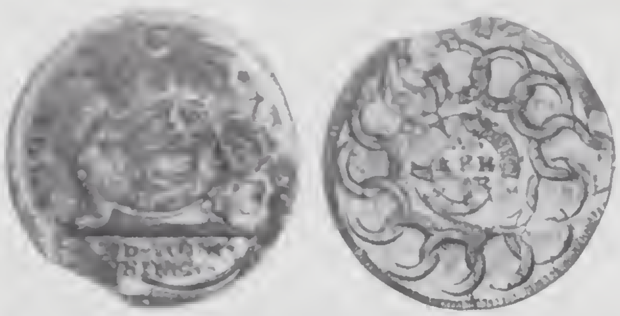
22 (1792) Kentucky token. Undated. Attractive AU.

23 1794 Franklin Press token. AU. Very late die state. Interesting early token relating to the printing field.

24 **1787 Fugio cent.** Pointed rays. STATES UNITED at sides of circle. **Red and brown Uncirculated.** Some minor planchet flaws as made.

*Note: Undoubtedly ex Bank of New York hoard, as are probably Lots 25 through 27 of this sale.*

25 **1787 Fugio cent.** STATES UNITED at sides of circle. **Red and brown Uncirculated.** Some planchet flaws as made.



26 1787 **Fugio cent.** STATES UNITED at sides of circle. **Red and brown Uncirculated.** Double struck with two of certain devices (including the sun on the obverse) appearing sharply. Edge clip. A rather spectacular early mint error!

27 1787 **Fugio cent.** STATES UNITED at sides of circle. **Brown Uncirculated.** Some minor surface roughness. Two edge clips as made.

# *U.S. Half Dimes*

### Handsome 1795 Half Dime

226 1795 Flowing hair Liberty head with the small eagle reverse. **About Uncirculated** and well struck for this type. Some adjustment marks and surface abrasions, as is to be expected in a piece of this date. Lovely gray and iridescent toning. Worth a nice bid.

*MAXFIELD PARRISH, JR. IS PLEASED!*

*When Maxfield Parrish, Jr., son of one of America's most legendary artists, decided to auction an MCMVII High Relief double eagle personally given to his father by the designer, Augustus Saint-Gaudens, he was in a quandary. Where to sell? How to evaluate the many confusing advertisements of auction houses. These and other considerations are discussed in detail in a fine letter from Mr. Parrish which appears on page 27 of our free booklet, "How to Sell Your Coins for the Best Price." Write for it!*

## Attractive 1797 Half Dime

*See Color Photo*

227 1797 Draped bust type with the small eagle reverse. Variety with 15 stars. Pleasant **Extremely Fine** with grayish iridescent toning. Although the eagle looks weakly struck, this piece is actually quite well minted for its type.

228 1800 Fair. Toned.

229 1803 Fair would be a generous term. A mangled specimen which, surprisingly, shows a full date. No reverse to speak of.

230 1829 Prooflike Borderline Uncirculated.

237 **1837 No stars. Choice Brilliant Uncirculated.** Some excess metal around Liberty's knee, caused by a die crack. Much desired because it is a short-lived type.

247 **1853-O No arrows.** Very Good. Scarce!

248 **1853 No arrows. Uncirculated** with very attractive (mainly blue) peripheral toning and nice fields (especially considering that this is quite a scarce issue—so scarce that one can hardly hope for perfection). Also exceptionally well struck.

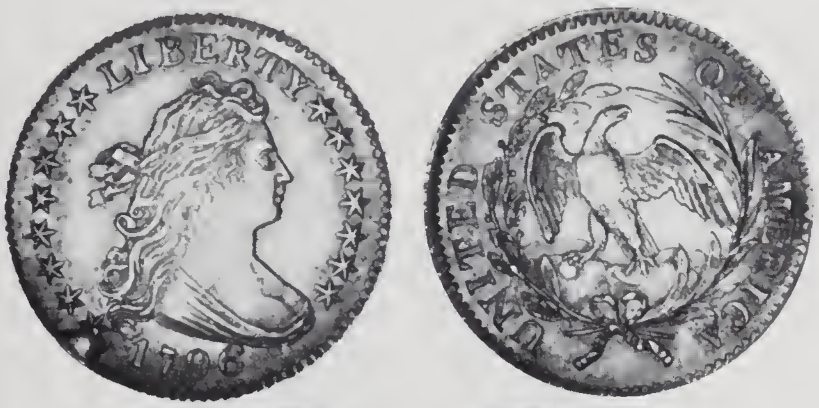
# The Donald F. Herdman Collection of Dimes

*The extraordinary collection of United States dimes which follows should prove to be among the finest ever offered for sale at auction. It is exceptionally impressive—and important both for the specialist and for the selective type collector—because of its vast scope and because of the quality of the specimens. Most dates and many varieties are present—pieces which seldom appear for bidding. Many are of connoisseur quality, surely among the finest known of their kind.*

*The source of the collection tells us a great deal about the quality being offered here. Early in the 1940s, shortly after he joined the American Numismatic Association, Mr. Herdman selected America's 10c coins as a collecting goal because, in his words, "they were not unduly complicated by many varieties and subvarieties, they had been minted nearly continuously since 1796, and they were relatively inexpensive." He sought them eagerly, buying the best specimens he could locate. Most came from B. Max Mehl's famous sales of that period and from other "name" collections, where the truly splendid United States coins resided, often for decades at a time without becoming available to other collectors. These marvelous coins from Mr. Herdman's excellent collection rank him among the prominent collectors of this extensive series—and, true to form, only now appear for sale after being appreciated for several decades.*

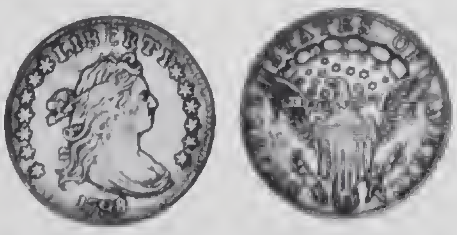
*We anticipate eager and strong mail and floor bidding for these rare coins. We hope you will examine, appreciate and delight in them. And we wish specialists and type collectors alike much luck in securing at least one specimen from this notable collection!*

### Marvelous 1796 Dime!

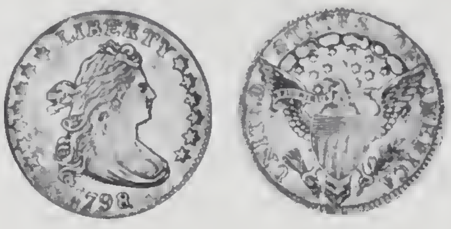


*See Color Photo*

269 **1796** Draped bust type, small eagle reverse. The first design by Robert Scot, this two-year type consists of the very rare 1797 and the rare 1796, either of which presents a difficult acquisitional task when the goal is a mint state specimen. The presently offered coin is **Uncirculated** with very enhancing light gray toning highlighted by hues of (on the obverse) greenish gold and (on the reverse) bluish gold. The coin is superbly struck for the issue! High, sharp edges, too. A diebreak occurs at the first star in the form of a lump. In all, a marvelous coin! Comes in a custom black plastic case.



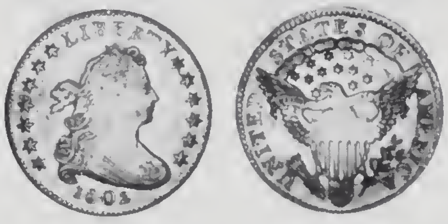
270 **1798/7** Draped bust dime. 16 stars on the reverse. Light gray toned Very Fine. A pleasing example of this scarce coin.



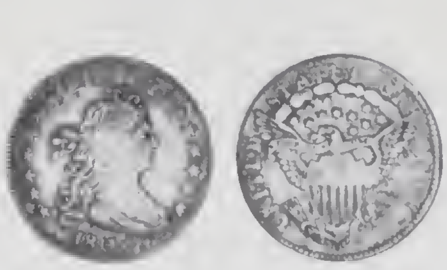
271 **1798** 13 stars on the reverse Extremely Fine with medium gray toning. Small edge mark. Quite pleasing.

272 **1801** Fine, light gray toning.

### Scarce High Grade 1802 Dime

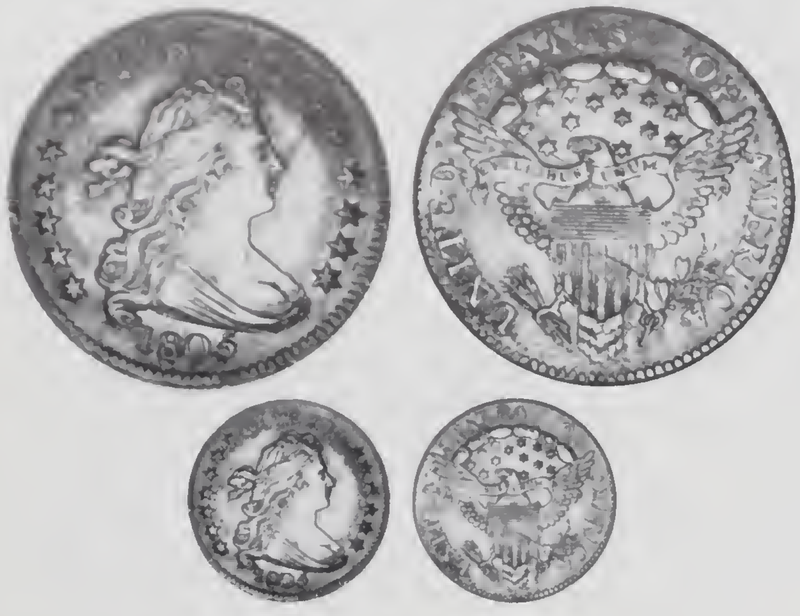


273 **1802 Lustrous Borderline Uncirculated.** Slight weakness of strike in the centers is usual on early heraldic eagle dimes such as this. The periphery of the coin is excellently struck. Here is a good opportunity to acquire a high grade example of the scarce 1802.



274 **1803 Extremely Fine.** Another scarce early dime. Only 1805 and 1807 dimes are encountered with any frequency. 1803s are few and far between. The present coin has attractive iridescent blue toning as acquired naturally over many, many years. The center features are struck better than normal. All in all a superior coin.

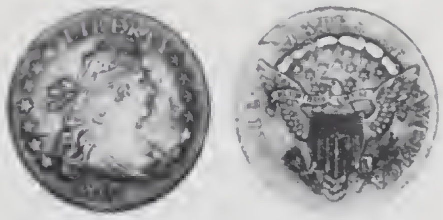
## Beautiful Mint State 1805 Dime



275 1805 4 berries variety. **Choice toned Uncirculated.** This coin is immaculate! All center details are fully struck. The eagle's breast and tail displays its full feathering. The stars are sharply defined. In addition, there is the most beautiful sea green, gold and blue toning with glints of bright frost showing through here and there. If you've been looking for a top quality type coin with good future potential, look no further.

*Note: Most early bust coinage of the U.S. (particularly prior to about 1810) varies in striking quality. Most of the pieces from this era display weakness in the centers, or towards the edges, or both. Keep in mind coin striking was accomplished with human muscle power. If the coiner swung the coin press "boom" with less-than-sufficient power, the resultant coin is less than perfect. To find a coin as well struck as this 1805 dime takes some doing!*

## Lovely 1807 Uncirculated Dime



See Color Photo

276 1807 **Toned Uncirculated.** Medium blue-gray color. Full quota of mint frost underneath. Nearly as well struck as the 1805 above. In fact, the words UNITED STATES OF AMERICA are far, far nicer than usually seen. Probably 90% of 1807 dimes seen lack some details of this motto. Many numismatists would call this coin Choice, and certainly it rates very close to that.

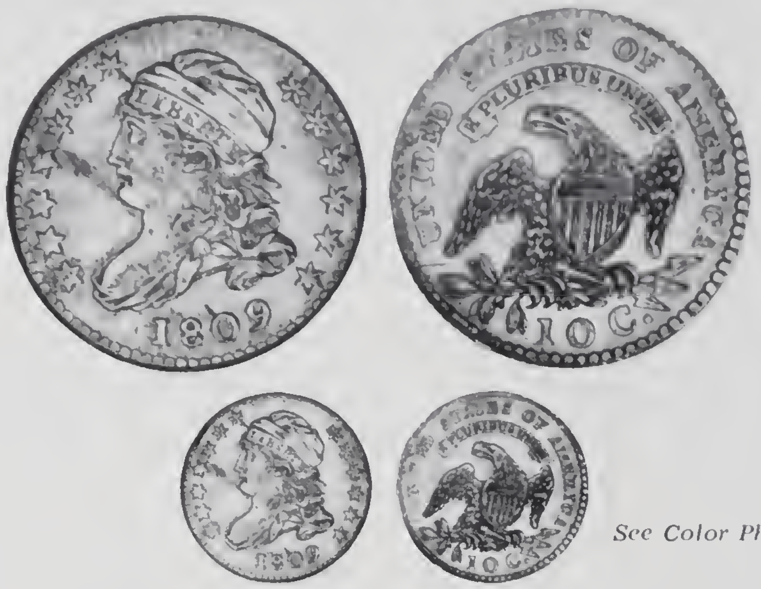
## Exceptional 1809 Capped Bust Dime

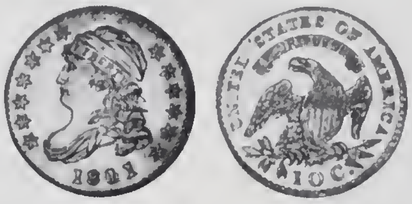


See Color Photo

277 1809 First year of the new, capped bust design by John Reich. Miss Liberty is now facing to the left and has a cap on her head. **Choice Brilliant Uncirculated** with needle-sharp strike (only four obverse stars being a bit weak)! By far, a great American rarity. 1809 in this condition has been an underrated coin for decades. For every Mint State 1809 in existence, there must be 20 to 30 1805 and 1807 heraldic dimes in similar grade. Yet the earlier pieces bring much more than 1809 (due to the demand from type set collectors).

It has only been in the last few years that 1809 was "discovered." Yet the price for one has not advanced dramatically, *because no nice 1809s have come on the market or even been hinted at!* This is definitely a prime opportunity for the advanced numismatist to acquire a classic rarity.

## Rare and Interesting 1811/09 Overdate Dime



See Color Photo

278 1811/09 **Brilliant Uncirculated** and well struck. *Just about as rare as the 1809 previously offered.* A few fine hairline scratches on the obverse are mentioned, but these can in no way detract from this 1811's desirability.

*Dear Sirs:*

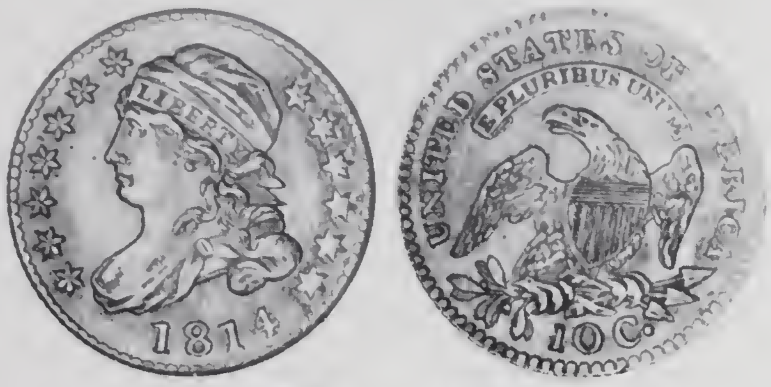
*"At the awards presentation ceremony on Saturday afternoon at the convention, among the recognitions given were those for members who have done an outstanding job in promoting membership.*

*"Plaques were awarded to the individual member who was the top recruiter of the year and to the dealer most responsible for increased membership.*

*"The firm of Bowers and Ruddy Galleries was recognized as that professional organization that had recruited the most members on our behalf.*

*"I am pleased to enclose a plaque in so recognizing Bowers and Ruddy Galleries. I know that you worked hard in promoting membership and that you will continue to do so in the future and I hope to personally present you another plaque next year in Houston."—Edward C. Rochette, Executive Vice President of the American Numismatic Association.*

### Attractive Sea Green 1814 Small Date Dime



See Color Photo

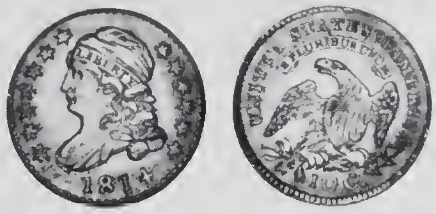
279 1814 Small date. **Choice toned Uncirculated,** with the most delightfully beautiful sea green toning we've seen. The striking quality is superb, and just 3 stars at the right show any weakness. This is certainly one of the finest 1814s in existence.

See Color Photo

280 1814 Small date, as last. Lustrous Borderline Uncirculated having the lightest steel-colored toning around the periphery.

*Note: It is usual to find the right side of 1814 dimes with flat stars. This characteristic is seen in perhaps 95% of the cases. A possible explanation for the softness of strike is a slight misalignment of the dies — being a bit off of true parallel.*

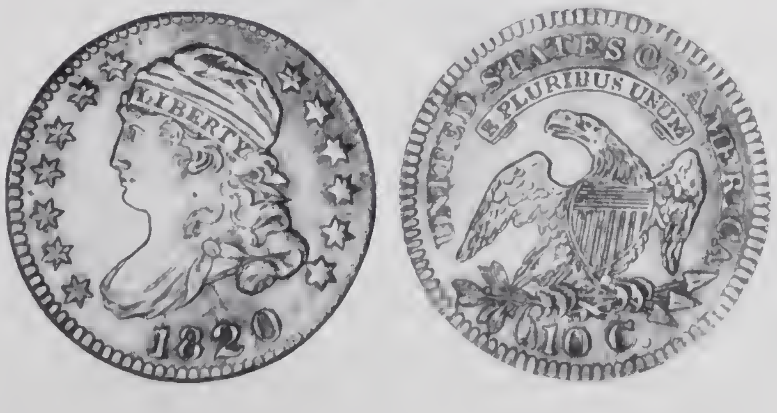
### 1814 "STATESOFAMERICA" Reverse Dime



281 1814 Large date. Variety with STATES OF AMERICA put so close together as to appear as one long word! **Borderline Uncirculated** and actually quite close to full BU grade. The strike is excellent. All but 2 stars show their radial lines. Without the slightest rub (probably true "cabinet friction" from an old time collection), this coin could unhesitatingly be graded Uncirculated.

282 1820 Large 0 in date. Borderline Uncirculated. Attractive toning, predominantly blue with gold hues around the rim. Strike is excellent around the periphery and just a bit soft in the centers.

### Fantastic 1820 Dime



See Color Photo

283 **1820 Gem Brilliant Uncirculated** with soft lilac toning. *Words cannot do this coin justice!* On a Mint State grading scale we would place this coin at MS-69. By all means, if you desire the best in a bust dime, try to view this one before the sale!

284 1821 Small date. AU, and fully struck. A few light hairlines are visible but do not hamper the coin.

### Frosty BU 1821 Dime

See Color Photo

285 1821 Large date. **Brilliant Uncirculated** and frosty. An excellent example of a sharp BU60 bust dime.

*Note: By examining this section of the auction, you'll note many, many high quality early dimes. It must be remembered that Mr. Herdman spent several DECADES and viewed countless "lesser-quality" dimes to acquire those presented here. Thus, when you see several BU bust dimes from the 1820s, remember those years of diligent searching. To pass up an opportunity now may mean you'll have to forgo acquiring a quality dime for some time!*

286 **1823/2 Overdate.** Borderline Uncirculated. Rich gold and blue toning. A perfect type coin with the added benefit (at no extra cost!) of the overdate feature.

287 Trio of high grade bust dimes. (1) 1823/2 Overdate. Large Es. AU; (2) 1828 Small date. EF-AU; (3) 1830 Extremely Fine, attractive toning. Some lustre around the letters. Variety with small 10c. (Total: 3 pieces)

### Very Nice 1825 Dime

See Color Photo

288 1825 **Choice Uncirculated,** satiny fields bereft of marks. Slight softness of strike in centers, but still well above average overall. Light bluish-green toning around the rim.

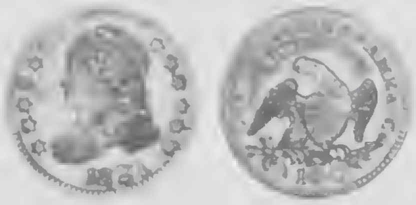
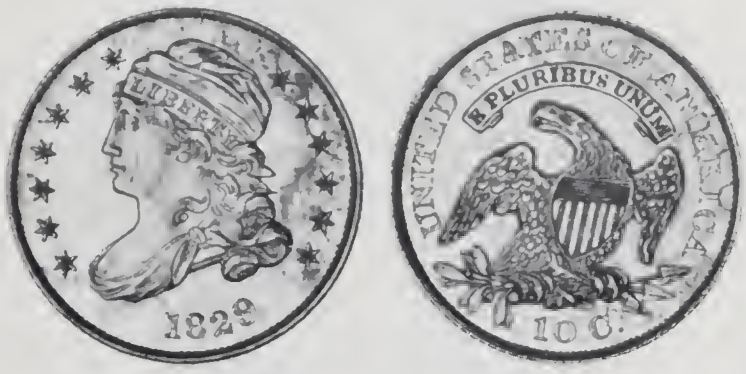
### Colorfully Toned 1827 Dime



See Color Photo

289 **1827 Choice toned Uncirculated.** Lovely blue and gold toning. The obverse fields are prooflike, the reverse is frosty. Above average strike quality for this year and certainly one of the nicest 1827s on the market today.

### Extraordinary Proof 1829 Bust Dime



See Color Photo

290 **1829 Brilliant Proof**, with light violet patina. Small 10c. An extremely rare coin tracing its pedigree from the famous Atwater Collection via B. Max Mehl. Miss Liberty's bust as well as the eagle are frosted. The strike is needle sharp and the mirror fields extend even into the spaces between the stripes of the shield (this last is one of the diagnostic points in determining the Proof status of many coins).

*Note: Proof U.S. coins prior to 1858 are few and far between. Before the Philadelphia Mint started selling Proof coins to the public in 1858, only selected dignitaries and infrequent visitors to the mint obtained Proof coins. In most years, fewer than 50 Proofs of any one denomination were struck! Thus the opportunity to purchase this 1829 may be a once-in-a-lifetime chance.*

291 Pair of bust dimes. (1) 1829 Small 10c. AU; (2) 1830 Small 10c. AU, nicely toned. A quality pair! (Total: 2 pieces)

292 (1) 1829 Medium 10c. VF; (2) 1840 Liberty seated, with drapery. VF, dipped and with a few pin pricks on the reverse. (Total: 2 pieces)

### Rare 1830/29 Overdate Dime

293 **1830/29 Overdate. AU, prooflike.** A scarce overdate, not discovered until recently as just a little of the under 2 and 9 show. A "must" if you're assembling a date and variety set of dimes.

### Superb 1831 Dime

See Color Photo

294 **1831 Choice toned Uncirculated.** Exceptional sea-green and gold toning delicately highlight the glistening lustre on this dime. The strike quality (excellent) and eye appeal of this 1831 makes it a top-notch candidate for your collection.

### Exceptional 1831 Dime

295 **1831 Toned Uncirculated.** Medium golden gray toning. Sharp strike. Some tiny rim marks on the obverse. Here is another attractive 1831 dime.

### Choice Uncirculated 1832 Dime

See Color Photo

296 **1832 Choice toned Uncirculated**, beautiful sea-green and golden color found on several of Mr. Herdman's exquisite dimes! The smallest rim nick keeps us from calling this a Gem. In every other respect it meets the test for that grade.

### High Grade 1833 Dime

297 **1833 Brilliant Uncirculated.** Possibly lightly cleaned once. Needle sharp strike. The high-3 variety — having the last 3 in the date high and out of line with the other numerals.

298 **1833 High 3.** Borderline Uncirculated with such faint traces of friction here and there, we were hard put to describe this as anything other than full Uncirculated. Be that as it may, the present 1833 displays the same lovely sea-green and gold toning around the periphery mentioned in a previous lot. Strike sharpness is superb.

299 1833 Even 3. AU, blue-green toning around the rim.

*DR. MONTGOMERY IS DELIGHTED!*

*Dr. D.C. Montgomery, Jr., of Greenville, Mississippi, consigned his superb collection to us. His comments about the catalogue, the prices realized, and some personal thoughts are shared in his letter which is reprinted on page 32 of our free booklet, "How to Sell Your Coins for the Best Price." ## Colorful Mint State 1834 Dime

See Color Photo

300 1834 Large 4. **Choice toned Uncirculated.** Multi-colored toning including both light and deep golden and blue shades. Full frosty lustre underneath. Each little star is perfectly struck.

*Note: If you have even the slightest intentions of bidding on one of Mr. Herdman's superb dimes, we heartily urge you to try to view the coins before the sale. It is so easy to run out of words to express the beauty of these dimes. Often we find we are repeating ourselves. Yet when you see the coins, they will speak for themselves.*

301 (1) 1834 Large 4. Borderline Uncirculated, prooflike. Iridescent toning; (2) 1848 AU, gold toning. (Total: 2 pieces)

302 1835 **Uncirculated** with deep sea-green toning. Only a gnat's whisker away from Choice [ed. Does a gnat even have whiskers?] Anyway, what most "less conservative" dealers would call Choice or Gem.

303 (1) 1835 VG, reverse end; (2) 1839 No drapery. VF-EF; (3) 1854-O Arrows. VF. (Total: 3 pieces)

## Choice Brilliant Uncirculated 1836 Dime

304 1836 **Choice Brilliant Uncirculated.** An interesting change from the preceding toned dimes, here's one with full blazing mint frost, white as the day it was struck. Not even a hint of weak striking. The eagle's claws show full details throughout. Surprisingly elongated denticles on the obverse.

## Semi-prooflike BU 1837 Bust Dime

See Color Photo

305 1837 **Bust. Brilliant Uncirculated, semi-prooflike** fields. Golden toning beginning to form. Only some light surface hairlines keeps this from Choice. Ex. Friedman Collection (A.N.A. 1946). Variety with bisecting die break on obverse.

## 1837 No Stars Dime – Rare Genuine Proof

See Color Photo

306 1837 **Liberty seated.** No stars on obverse. A pedigreed, deep-mirror field **toned Proof.** Nice, even blue toning. From the celebrated Dr. C.A. Allenburger Collection via B. Max Mehl. Breen estimates possibly 20 Proofs have been accounted for. Of these "some badly cleaned" according to Breen. Though there are some trivial hairlines, this specimen is definitely not cleaned. It undoubtedly ranks as one of the finest known. The sharp wire edge and large square rims are something to be seen! Should attract spirited bidding.

## Frosty 1837 No Stars Dime

See Color Photo

307 1837 **Liberty seated.** No stars. **Choice Brilliant Uncirculated** exceptionally nice and sharp. A prime candidate for a type set.

## Lustrous AU 1838-O Dime Rarity

See Color Photo

308 1838-O **No stars. Lustrous AU** with blue and gold toning about the periphery. With 75% of its original mint lustre, this dime ranks in the upper echelons of availability.

*Note: New Orleans commenced operations in 1838. The first year saw coinage of half dime, dimes, a few presentation halves and that's it! Few coins were minted that year and it wasn't until 1839 that the mint was geared up for full production. Old-time numismatists well know the rarity of 1838-O coins.*

309 1838 Small stars. Very Fine. A scarce variety.

310 1838 "Partial drapery." AU, whizzed to appear Uncirculated.

*Note: The so-called "partial drapery" dime is resulted from a clashing of the dies. Part of the reverse wording (ONE DIME) became impressed on the obverse die, imparting this clash. Thus the "partial drapery" under Miss Liberty's elbow.*

311 1839 **Drapery. Choice Brilliant Uncirculated,** and frosty. A jewel. Light golden toning adds a small flair to the appearance

## Vastly Underrated 1839-O Mint State Dime

312 **1839-O Choice toned Uncirculated.** A full MS65 example with delicate golden and lavender toning. Large, recut "O" mintmark. Rarity-7. The coin traces its pedigree to the Friedman Collection of the 1946 A.N.A. Convention sale. Certainly this coin ranks as one of the finest known 1839-Os (if, indeed it isn't THE finest!).

313 **1840 No drapery. Choice Brilliant Uncirculated.** Frosty mint lustre throughout. Obverse rim displays extra metal in portions due to the deep strike.

314 (1) 1840-O Large O. EF-AU, sea-green and gold toning; (2) 1842-O EF, whizzed, now toning nicely. Small O. (Total: 2 pieces)

315 **1841 Gem Brilliant Uncirculated** a dazzling, frosty coin! Superbly struck.

316 1841-O AU. Good portion of original lustre visible under pleasant natural toning.

317 1842 Borderline Uncirculated. Lustrous. A little bit of friction on the highest points keeps this from full Uncirculated.

318 **1843 Gem Brilliant Uncirculated.** Glittering. Semi-prooflike fields on the obverse, bright mint lustre elsewhere. Recut 3 in date.

319 1843-O Key date. Fine, a couple minor edge bumps.

320 1844 "Orphan Annie" dime to collectors of seated dimes. Borderline Uncirculated, deep golden toning with highlights of lilac. All 1844s are rare. In higher grades, they are prohibitively so. Some liberal numismatists would "stretch" the grade on this one to full Uncirculated. It certainly is close, however.

321 1844 Duplicate. Extremely Fine, golden toning. Another nice high grade example of this elusive date.

322 (1) 1845 Borderline Uncirculated, lightly cleaned on the obverse. Reverse is lustrous; (2) 1838 Large stars. AU, subdued lustre. (Total: 2 pieces)

323 1845-O Extremely Fine, moderate toning. Tooling in the fields on both sides. Still a rare coin in such high grade.

324 (1) 1846 Key date. Very Fine; (2) 1847 AU, lovely blue toning; (3) 1849 VF. (Total: 3 pieces)

325 **1849-O Borderline Uncirculated,** sea green and golden toning. Tiny pin prick on obverse. Many New Orleans seated dimes are difficult to locate in high grades. 1849-O is no exception. This small "O" dime should fit into any high quality dime collection.

326 1850 Extremely Fine.

327 (1) 1850-O EF; (2) 1852-O EF, cleaned. (Total: 2 pieces)

328 **1851 Choice Brilliant Uncirculated, semi-prooflike.** Good example for displaying the stars-obverse seated dime type.

329 1851-O Again, a scarce New Orleans issue. EF-AU.

330 **1852 Gem Brilliant Uncirculated.** A bit of original toning at the top, otherwise full brilliance. Full strike on stars and on Miss Liberty's hair. Unimprovable!

## Superb 1853 No Arrows Dime

See Color Photo

**1853 No arrows. Gem Brilliant Uncirculated.** Absolutely full strike, complete cartwheel brilliance. Outstanding!

*Note: Silver coins disappeared from circulation in the early 1850s. This was due to their having more actual value in the silver metal than their face value. To counter the flow of coins out of the country, the government lowered the silver content. 1853 saw the first year of lowered weight (the arrows at date were there to differentiate these from the prior-weight coins). A few coins were struck at Philadelphia in 1853 before the weight reduction became law. Most were melted before finding their way into circulation. In any grade an 1853 without arrows dime is rare. In Gem BU, it is an event!*

Pair of high grade 1853 arrows dimes. (1) 1853 Arrows. Borderline Uncirculated, pin scratches on the obverse; (2) 1853-O Arrows. AU, original toning. (Total: 2 pieces)

1854 Arrows. Borderline Uncirculated, nearly full mint lustre.

(1) 1854-O Arrows. AU, attractive toning; (2) 1855 Arrows. AU, also attractively toned. (Total: 2 pieces)

1856 Small date. Borderline Uncirculated.

1856 Choice Brilliant Uncirculated. Scarce large date variety. A bit soft on reverse. Nice lustre.

1856-O Brilliant Uncirculated, delicate toning. A couple contact marks on the obverse. Although 1856-O is not much higher priced than its Philadelphia counterpart, it is considered much scarcer.

1857 Brilliant Uncirculated, prooflike obverse. Some hairlines.

(1) 1857 AU, cleaned and retoned; (2) 1857-O AU, prooflike reverse. (Total: 2 pieces)

See Color Photo

**1858 Brilliant Proof,** light golden toning. One or two lint marks visible with a glass.

*Note: 1858 saw the first sale to the public of Proof coins. It is estimated that 80 sets of 1858 silver coins were struck. Since we have seen many 1858s that are cleaned, we can honestly say far fewer than 80 dimes are in unimpaired condition today.*

341 1858 Toned Uncirculated with lavender and blue hues.

342 1858-O AU.

343 1858-S Scarce. VF, polished.

344 **1859 Choice frosted Proof** with gold and blue toning. Last available Proof date of the "stars obverse" type.

345 1859-O Borderline Uncirculated, full quotient of mint lustre.

346 **1859-S** Extremely Fine. Just 60,000 struck.

347 **1860-S** AU, lightly cleaned on the obverse. Much lustre in the protected areas. All early mintmarked seated dimes are dozens of times scarcer than their Philadelphia counterparts.

348 **1860 Choice Brilliant Proof.** First year of the legend obverse dimes and a nice one, too!

349 **1860-O** Key date. But 40,000 struck, one year before the outbreak of the Civil War. Undoubtedly that destructive war was a leading cause of the scarcity of 1860-O dimes. The present coin grades a full Very Fine from a wear standpoint. The surfaces are somewhat granular and the obverse has been cleaned and lightly tooled. It's still a very desirable piece.

350 1861 Golden toned Proof. 1,000 Proofs struck.

351 1861-S Extremely Fine. Dipped but not cleaned. Will tone nicely in time and make a fine addition to someone's collection.

352 1862 Lightly toned Proof.

353 1862 Brilliant Proof, numerous hairlines.

354 Two rare dates: (1) 1862-S EF, harshly cleaned. Some surface porosity; (2) 1863-S EF, whizzed. (Total: 2 pieces)

355 **1863 Choice Proof**, magnificent lavender and blue toning. Only a few faint hairlines away from being a gem!

356 **1864 Brilliant Proof.** Scarce in any condition.

357 **1864-S** A key date. **Brilliant Uncirculated** and fully frosty. Well struck, too. Would be a gem but for some light obverse hairlines and a minor planchet streak on the reverse. Not often does an 1864-S dime as nice as this become available to the general public. From the Adolphe Menjou sale.

358 **1865 Choice Brilliant Proof.** One of only 500 Proofs struck this year. And definitely one of the nicest survivors from that small mintage. From the Menjou sale.

359 1865-S Extremely Fine, cleaned. But not cleaned harshly. Will tone nicely in time.

360 **1866 Choice Brilliant Uncirculated, semi-prooflike obverse, frosty reverse.** Only 8,000 business strikes were made in 1866. Due to the troubles of the times, most of these promptly fled the country (going to Canada and Central and South America to circulate). For the numismatist who has been longing for one of these rare mid-1860s business strikes, here's your chance!

361 1866-S Sharply struck AU with nice toning. As with other "S" mint dates in the early and middle 1860s, a rarity in high grade.

*Note: Throughout the 1860s, American silver coins had a unique story. Those made in Philadelphia fled the country. These were times of "greenback" inflation and all "hard money" (silver and gold) went into hiding. EXCEPT for out West, that is. In the western states, paper money was not accepted in commerce — only silver and gold.*

*A strange occurrence thus resulted. Philadelphia Mint coins left the country (the few known business strikes are usually in Mint State condition or very close to it) while San Francisco Mint coins circulated heavily out West (and are thus usually found ONLY in circulated condition!).*

362 1867 Brilliant Proof, light hairlines.

363 **1867-S** Fully struck AU, but lightly cleaned. Will tone and look "natural" in time. 1867-S is scarce in high grades. Most often they are found well worn. (See note after Lot 361).

364 1868 Nicely toned Proof, a few hairlines. Lavender and blue hues.

365 1868-S Very Fine, once dipped.

366 1869 Toned Proof, beautiful iridescent color.

*Note: On the consignor's envelope is a notation that he paid $4.25 for the coin! A good indication of the history of a nice type coin — and maybe its future, too!*

367 **1869-S** AU. Goodly amount of mint lustre. Reverse somewhat granular. 1869-S is another seated dime usually found only in worn grades.

368 1870 Toned Proof, iridescent blue color.

369 **1870-S Brilliant Uncirculated.** Just 50,000 of these were struck. So few are now available in this ultimate grade that it's a great opportunity for you.

370 **1871 Choice Brilliant Proof.** Light iridescent toning. But 960 struck.

### High Grade 1871-CC Rarity

*See Color Photo*

371 **1871-CC** First year Carson City struck dimes and only to the tune of 20,100! So few of these are known in high grades, that AU and above examples can be counted on the fingers. The present coin is a pleasing AU with lustre in the protected areas. Strike quality is excellent. The *Guide Book* lists the coin at $1300 in EF and has a line for the Uncirculated category. In our February 1977 Blauvelt Sale, we had an EF-AU specimen (half a grade lower than the present coin). It brought $2,100. Whatever this AU brings, certainly the successful bidder will be a proud new owner.

372 1871-S AU, light hairlines on the obverse. Lustrous otherwise. Fully struck.

373 1872 Brilliant Proof with a touch of light golden toning.

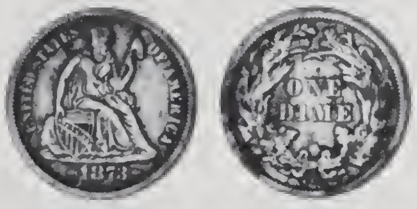
374 1872 Brilliant Proof. Another nice coin.

375 **1872-CC** Low mintage rarity. Extremely Fine. In our Blauvelt Sale, an EF-AU example was knocked down for $850. This beautiful EF specimen should likewise bring a similar price.

376 **1872-S** Again, a difficult San Francisco issue to locate in higher grades. **Choice Brilliant Uncirculated** having satiny lustre. Very close to the Gem category and definitely amongst the finest known.

377 1873 No arrows. Closed 3. Nicely toned Proof. Blue periphery.

378 **1873 Arrows.** A slight weight increase occurred in 1873. Arrows were added to denote this. The arrows type was struck only two years and ranks as an important collector coin. **Toned Proof.** One of only 800 Proofs struck with the arrows at date. Iridescent blue and deep golden color.



379 **1873-CC Arrows.** Key rarity in the seated dime series. 18,791 were struck, but many, many of these were either lost or melted. Very Fine. Cleaned. Some marks and verdigris but overall quite acceptable for inclusion in a high quality set.

380 **1873-S Arrows.** Despite the moderate mintage of 455,000 for this coin, it is definitely scarce. Brilliant Uncirculated. Miss Liberty's head is a bit flat. There is also a dull area across a third of the reverse. Despite these minor impairments, the coin is lustrous overall (including the all-important leg of Miss Liberty). From the Adolphe Menjou Collection.

381 **1874 Arrows. Lightly toned Proof.** Medium steel-blue toning. A pedigreed coin from the Frederick W. Geiss Collection via B. Max Mehl.

382 **1874-CC** 10,817 struck. Fine condition. *One of the most underrated dimes in the entire U.S. Dime series!* Since few 1874-CCs have surfaced over the years, it is surprising that no one tried to explain that fact (let alone promote it — as with the case of 1860-O). Certainly the dedicated collectors assembling sets of seated dimes are aware that 1874-CC is probably lacking in their collections!

The present coin grades Fine, though the reverse is a bit more worn than the obverse (an often-noted occurrence on "legend obverse" dimes).

### Exceptional 1874-S Arrows Dime

383 **1874-S Arrows. Gem Brilliant Uncirculated.** A blazer! Exceptional fields and superior strike (Miss Liberty's head might be a bit stronger). This one is from the Adolphe Menjou Collection and we're certain Mr. Herdman had spirited competition when he bid for it!

384 1875 Borderline Uncirculated. Nice mint lustre.

385 1875-CC Mintmark within wreath. Lustrous AU.

386 (1) 1875-CC Mintmark below wreath. Borderline Uncirculated. Lovely; (2) 1877-S AU, light hairlines. (Total: 2 pieces)

387 1875-S Mintmark within wreath. Lustrous Borderline Uncirculated.

388 1875-S Mintmark below wreath. Choice Brilliant Uncirculated, bright lustre.

389 1876 Brilliant Proof. Pleasing high wire edge. Some light gray toning. Purchased by Mr. Herdman many years ago. The price marked on his purchase envelope? $3.50!

390 Quartet of dimes — a hodgepodge. (1) 1876 Very Fine; (2) 1890-S AU; (3) 1900 EF; (4) 1917 BU, cleaned. (Total: 4 pieces)

391 1876-CC Borderline Uncirculated.

392 1876-S Brilliant Uncirculated.

393 1877 Brilliant Uncirculated. Minor hairlines and handling marks. Prooflike fields both obverse and reverse.

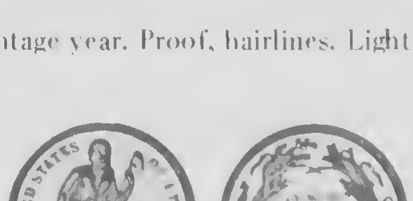
394 **1877-CC Gem Brilliant Uncirculated.** Needle-sharp strike. Frosty obverse; semi-prooflike reverse. Ex. Allenburger Collection via B. Max Mehl.

395 1878 Brilliant Proof. Trace of gold and blue toning about the periphery.

396 1878 Brilliant Proof, a few hairlines.

397 **1878-CC** Key date. Lustrous Borderline Uncirculated. From the Allenburger Collection via B. Max Mehl and described there as semi-proof.

398 1879 Low mintage year. Proof, hairlines. Light steel toning.



399 **1880 Choice Brilliant Proof.** Another low mintage year. A beautiful coin.

400 1881 **Attractively toned Proof.** Tiny mark in obverse field. Close to Gem otherwise.

401 1882 Choice Proof. Iridescent toning.

402 1882 Toned Proof, light hairlines.

403 1882 Choice Brilliant Uncirculated.

404 1883 Choice Proof. Blue and gold toning.

405 **1884 Gem Proof.** Beautiful iridescent gold, blue and lavender. Exceptional!

406 1884 Brilliant Uncirculated.

407 1884-S About Uncirculated. Scarce issue.

408 1885 Brilliant Proof, light hairlines.

409 1885-S Key date. Miniscule mintage (relatively speaking) of 43,690. Extremely Fine and well worth its catalogue listing of $425.00.

410 1886 Choice Proof, light toning. Just 886 Proofs struck.

411 1886-S Scarce. Extremely Fine.

412 1887 Brilliant Proof.

413 1887-S AU.

414 1888 Brilliant Proof.

415 (1) 1888 Extremely Fine; (2) 1890 Borderline Uncirculated, steel toning; (3) 1891-O Borderline Uncirculated, tiny reverse rim nick; (4) 1891-O Duplicate. Borderline Uncirculated. (Total: 4 pieces)

416 1888-S AU.

417 **1889 Gem Brilliant Proof.** A bright, blazing example. Nice as the day it was struck! Hint of golden toning around the rim.

418 1889-S Scarce. AU.

419 1890 Choice Brilliant Proof. Small Proof mintage of 590.

420 1890 Choice Brilliant Uncirculated. A good type set candidate.

421 (1) 1890-S Borderline Uncirculated; (2) 1891-O Extremely Fine. (Total: 2 pieces)

422 1891 Lightly toned Proof. Golden color.

423 1891-S Brilliant Uncirculated, light hairlines.

424 1892 Barber dime. Brilliant Proof. Always in demand from numismatists for inclusion in their type sets displaying first-year-of-issue coins.

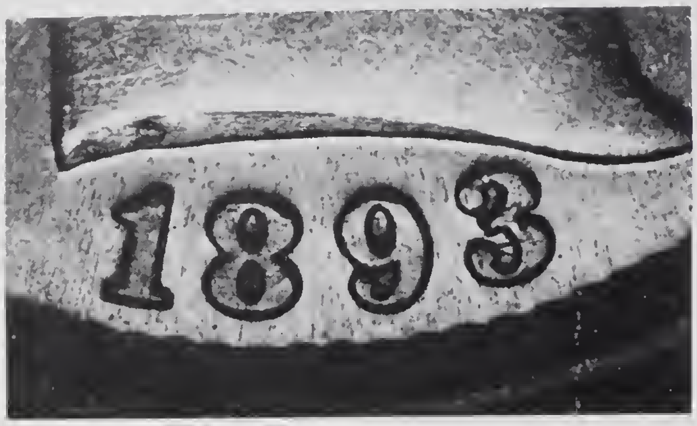
425 1892-O Choice Brilliant Uncirculated. Much scarcer than its Philadelphia Mint counterpart, yet surprisingly not too much higher priced!

426 1892-O Borderline Uncirculated. Evidence of light cleaning hairlines.

427 1892-S AU.

*Plan to Attend the Sale!*

*We would be delighted to have you attend the sale in person. If we can help in any way with reservations or other information, just let us know!*



428 **1893/2 Overdate.** A recently discovered variety. Borderline Uncirculated. A few slide marks on the obverse. Strongly struck and clear overdate feature.

429 1893 Brilliant Proof. Would be Choice except for some minute hairlines on the reverse.

430 1893 Brilliant Uncirculated.

431 1893-O Brilliant Uncirculated, light toning. Excellent strike.

432 1893-S Brilliant Uncirculated. Small contact mark on cheek places this in the BU60 range. Otherwise the coin is better than a 65.

433 1894 Toned Proof, numerous hairlines.

434 1894-O Brilliant Uncirculated, lightly cleaned.

435 1894-O Another. Brilliant Uncirculated. Obverse lightly cleaned.

436 **1895 Choice Brilliant Proof.** One of the key dates in this series. Golden gray toning just beginning to form.

437 1895-O Small mintage of 440,000. AU, mellow gold toning. Nice amount of mint lustre. From the Samuel W. Wolfson Sale of 1963.

438 1895-O Another example of this important date. AU, bright lustre.

446 **1897-S Choice Brilliant Uncirculated, prooflike.** A beauty.

*Note: Mintmarked Barber material is in great demand from knowledgeable numismatists. Quality coins such as this 1897-S were never plentiful to begin with. Then came an increasing demand and the few pieces originally available disappeared, only to surface when great collections such as Mr. Herdman's became available.*

447 1898 Choice Proof, golden toning.

497 1914 **Gem Proof.** Gold and lavender toning. A beautiful example of the lowest-mintage Proof Barber dime. Only 425 Proofs were struck. Most of these have been mishandled over the years. The present coin undoubtedly ranks in the top 5% of 1914 Proofs today.

498 1914-D Choice Brilliant Uncirculated. Light lilac toning.

508 1916 Mercury. Choice Brilliant Uncirculated, full, split bands.

*Note: In recent years, strike quality has played an important part in the price rises of many coins. Terms such as "full bands" or "full head" were not heard in the numismatic market place until ten years ago. Then, as more and more numismatists became quality conscious, these terms became necessary. For it is true in numismatics, as in other fields, human workmanship varies extensively.*

*Mercury dimes have high points above Miss Liberty's ear (the feathers on the wing) and the horizontal bands across the fasces (ax) on the reverse. Most Mercuries come with an "average" strike. That is, the two parallel bands on the reverse appear as a single band. A small portion of each year's coinage received a better strike and these bands became "split" into the two parallel bands of the actual design.*

*Philadelphia had the best mint equipment and turned out the finest specimens. Denver and San Francisco, at varying periods (particularly the early-mid 1920s) turned out poorer quality Mercuries. Thus when you see apparently wild prices for "full bands" dates in the 20s, keep this in mind. As coin collectors have known for years, it's quality that counts. Buy a superior coin today (even if it seems a bit high priced) and you will be amply rewarded tomorrow for your diligence!*

569 **1875 Brilliant Proof.** Some hairlines. One of 1200 Proofs struck during this, the first year of issue of the short-lived 20c coin. Scarce as a date from this mint.

570 1875-CC A nice Fine with light gray toning. The obverse shield is a bit weak but the reverse suggests a higher grade.

### Rare 1878 Proof 20c

571 **1875-S Choice Brilliant Uncirculated.** A beautiful coin which is well struck and has a satiny lustre.

572 1875-S Very Fine.

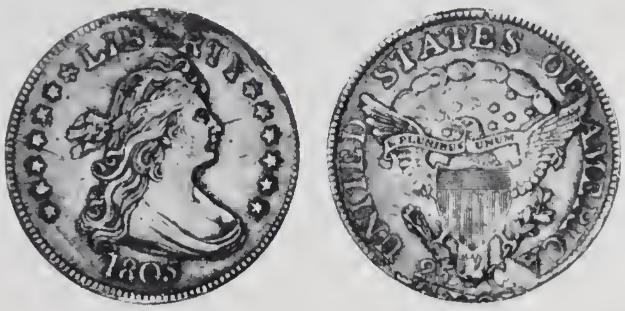
573 **1878 Choice Brilliant Proof** with appealing brownish gray toning on the edge and extending into the beading on both sides. An attractive example of this final year of issue, when just 600 Proofs were the total mintage.

# *U.S. Quarter Dollars*



574 **1805 Extremely Fine** and most unusual because it was *double struck* at the very top of the obverse and bottom of the reverse. Fragments of the word AMERICA appear twice. Pleasantly toned a medium gray. Scarce as a date in this grade, and very unusual as an oddity.

575 1818 Extremely Fine with attractive silvery gray toning and a few spots of golden iridescence.

576 1831 Large letters. Toned Very Fine.

577 1834 Very Fine.

### Uncirculated 1852-O Quarter

*See Color Photo*

578 **1852-O Brilliant Uncirculated.** Above average in striking quality for a New Orleans issue: the feathers on the eagle's neck are well defined, and about half of the stars are full. The surfaces are somewhat prooflike with a few hairlines but quite a few raised die-file marks, all very faint (these caused by die cleaning). The obverse device (Miss Liberty), under magnification, reveals that the die had rusted before use and must have had to be cleaned. In all, we have a rather typical situation faced by the New Orleans Mint during this period. The coin is quite exceptional, and was formerly thought to be unique in mint state.

*Note: The cataloguer wonders if some student of meteorology might be willing to do some research into weather history in this country and possibly contribute to numismatics. Did southern Louisiana experience a particularly humid, perhaps rainy, decade during the 1850s? While many coins from the New Orleans Mint of the 1840s, 1850s, and the 1890s onward display evidence of rusted dies, it seems to this cataloguer that New Orleans' 1850s issues were most afflicted by this malady. We invite response from students of the history of weather!*

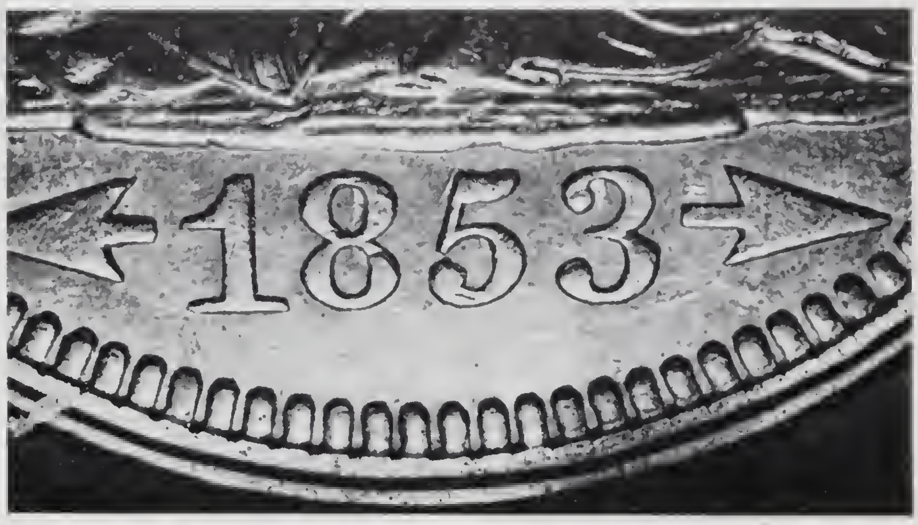
### 1853/4 Overdate Quarter

*See Color Photo*



579 **1853/4** The so-called overdate. Listed in the *Guide Book* but unpriced. The coin is a lightly toned **About Uncirculated** and was sharply struck. Possibly very rare as a variety, it is nonetheless quite desirable as a type coin.

580 Date collector's trio: 1857 EF, lightly toned: 1857-O AU, toned brownish gray. Despite its large mintage, 1857-O is very scarce so fine: 1861 EF-AU, polished. (Total: 3 pieces)

581 **1859 Brilliant Proof** with scattered hairlines and one patch of heavy, vertical hairline scratches. Scarce as a Proof.

582 1877-CC Choice Brilliant Uncirculated. Actually, a typical example of this hoarded CC issue. Consider adding it to your type set—for admirers always enjoy seeing a coin from this Wild West mint!

583 1877-S Borderline Uncirculated.

584 1882 Gem Brilliant Proof with light golden toning. Much desired as a date!

**Outstanding 1839 50c**

663 1839 **Reeded edge. Choice Brilliant Uncirculated** with magnificently clear fields and full cartwheel effect. Sharply struck but for a few stars. Practically a Gem, and one couldn't hope for much more in a half dollar of this period. Liberal bids are anticipated!

664 1839 Reeded edge. Golden gray toned Extremely Fine.

665 Pair from New Orleans: 1843-O and 1846-O, both VG. (Total: 2 pieces)

666 1845 Borderline Uncirculated with pleasing light toning. Also lightly cleaned. A heavy bagmark on Liberty. Hairline scratches on the obverse.

667 1848-O Golden and iridescent toned About Uncirculated with satiny surfaces. A delightful coin from the Reed Hawn Collection.

668 **1856-O Choice Brilliant Uncirculated** and well struck, as is typical of this issue.

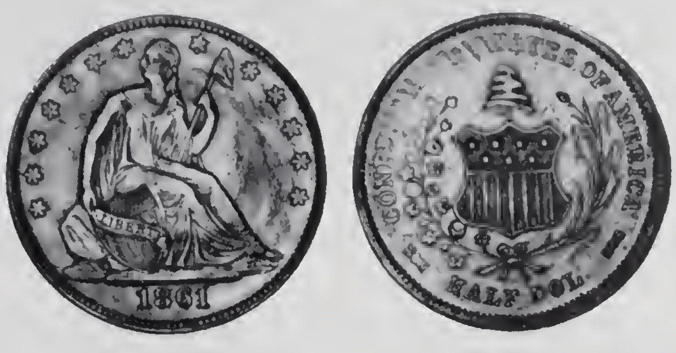
669 **1856-S About Uncirculated**, though cleaned a while ago. Sharply struck. With a low mintage of 211,000 pieces, 1856-S is one of the rarities in the seated Liberty half dollar series. Seldom offered this nice, and rarely better.

670 1857-O About Uncirculated, cleaned and having some rustlike corrosion on both sides.

671 1858 Brilliant Uncirculated. Pleasant.

672 Two pieces: 1858-O EF, some scratches and a rim bump; 1877-S EF. (Total: 2 pieces)

## 1861 Confederate Half Dollar Restrike

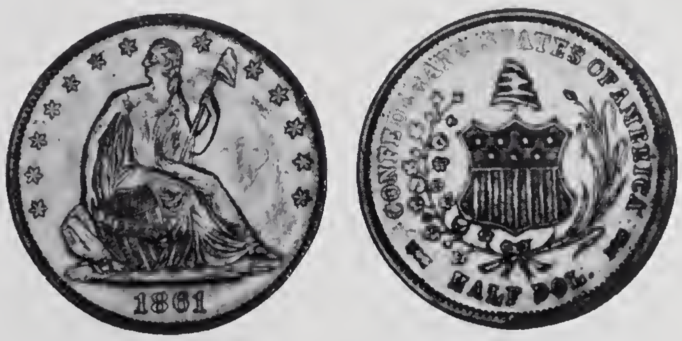


673 **1861 Confederate restrike.** Extremely Fine, with the reverse lightly struck on the upper left, as often seen. An interesting acquisition for the historically minded person, and of course for any collector of half dollars.

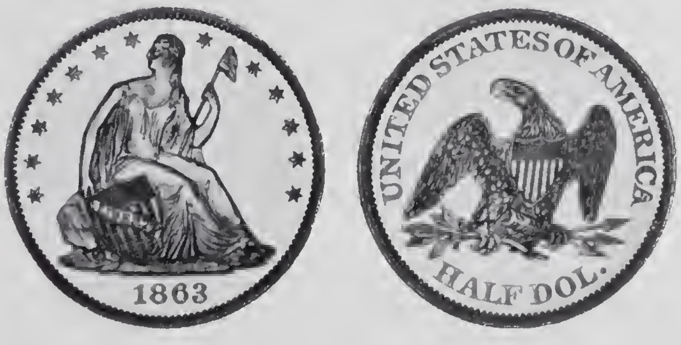
*Note: This silver coin owes its origins to three sources: the United States government (which struck the coins originally at its New Orleans Mint), the Confederate States of America (which had a die designed for a distinctive, "southern" reverse, from which four original pieces were struck after the CSA overtook the mint at the outbreak of the Civil War), and the J. W. Scott company in New York (coin dealers who purchased the reverse die and struck off 500 pieces like this in 1879).*

*Now, only four people may own an original CSA half dollar (though but three have ever been accounted for—so good luck to treasure hunters!), which means that if you want a piece of history dating to the Civil War this is one of the few available numismatic items you will ever have a chance to acquire. You should know that Mr. Scott painstakingly sought and found 500 1861-O half dollars near mint state, planed down the reverse sides on a lathe (or other instrument which spun, producing a circular effect which can be seen underneath the "new" reverse), and struck these 500 authentic half dollars with the original reverse CSA die, which he had acquired from the erstwhile Chief Coiner of the New Orleans Mint. How do you tell these from any of the four originals? All restrikes show somewhat flattened obverses, caused during the restriking process by the blow on the other side as the reverse die was applied.*

## A Second 1861 CSA Half Dollar Restrike



674 **1861 Confederate restrike.** Extremely Fine and virtually identical in overall quality to the preceding piece. Also with the reverse upper right somewhat weak. This one was purchased from B. Max Mehl many years ago. See above note for its story.



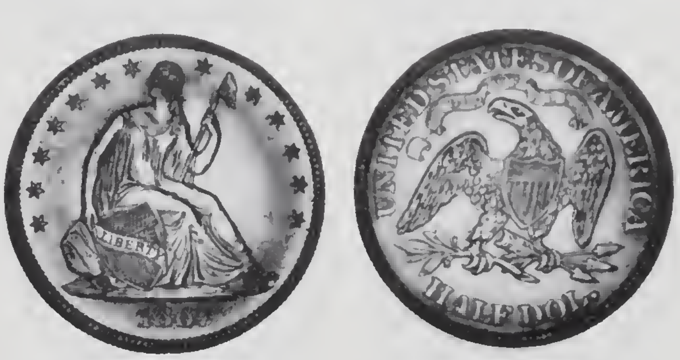
675 **1863 Brilliant Proof.** One of just 460 struck, and quite nice looking.

676 **1863** Brilliant Uncirculated and somewhat prooflike but lightly cleaned.

677 **1863-S** Borderline Uncirculated.

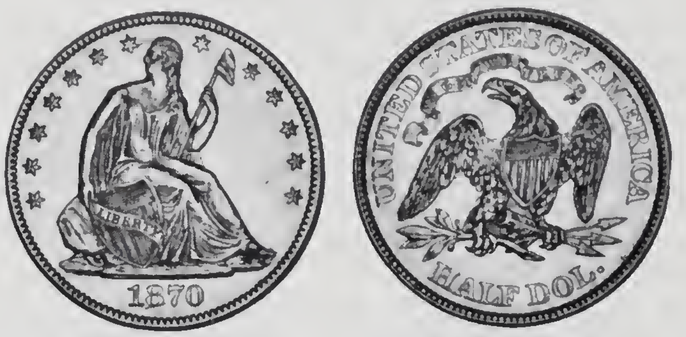
678 **1865-S Choice Brilliant Uncirculated** and fully struck. Rare in this condition.

679 **1867 Proof** with attractive iridescent toning. Light hairlines. Just 625 struck.



680 **1867 Choice Brilliant Uncirculated** and greatly enhanced by superb greenish blue toning. Hues of red. The obverse is more heavily toned than the reverse. Rare in this magnificent state! About as fine as these exist. Prepare to bid liberally if you hope to capture this prize.

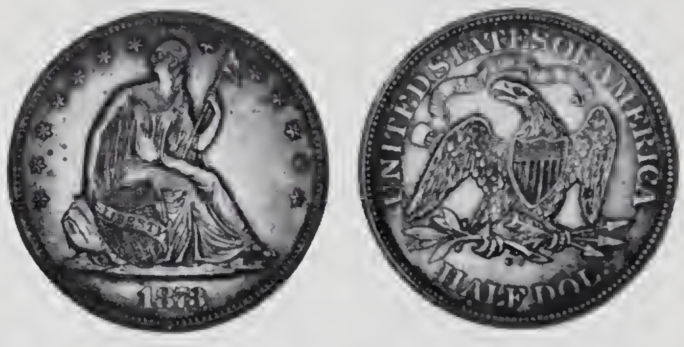
681 **1868-S** Pleasing Borderline Uncirculated.



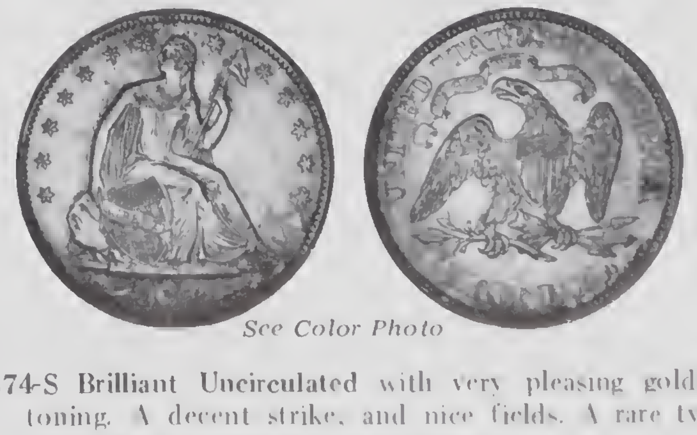
682 **1870** Brilliant Uncirculated and nicely struck.

683 **1872-S** Borderline Uncirculated, quite lustrous and pleasing.

## Rare 1873-CC Half Dollar Without Arrows



684 **1873-CC No arrows.** A rare issue with a small original mintage, only a tiny fraction of which has survived until today. This specimen is a collector's dream: it offers a superb appearance and yet is not quite fully mint state, making it affordable. It is **Borderline Uncirculated** with satiny surfaces which are toned a pale silvery gray and are virtually flawless. Sharply struck, too. A great coin!



*See Color Photo*

685 **1874-S Brilliant Uncirculated** with very pleasing golden pink toning. A decent strike, and nice fields. A rare type coin which is, and deserves to be, in demand.

686 1875-CC Borderline Uncirculated with mottled golden gray toning. Attractive.

687 **1876 Brilliant Proof**, pleasing. 1150 struck.

688 **1878 Brilliant Proof** with especially frosty devices. 800 struck. Some marks but really quite attractive and worth a good bid.

### Elusive 1878-CC Mint State Half Dollar

*See Color Photo*

689 **1878-CC Brilliant Uncirculated.** Especially well struck for a Carson City coin, with the eagle's neck feathers and claws well defined, and on the obverse fully struck stars and wonderful sharpness on the diagnostic points of Miss Liberty—ear and braided hair, gown clasp, and fingers and toes. Only the lightest kind of abrasions separate this rare piece from the Choice classification.

Characteristic of the 1878-CC, the first C in the mintmark is slightly higher than the second (not quite a full millimeter).

Rarely offered in any grade, the 1878-CC half dollar is considered one of the rarest seated Liberty issues in mint state. *Scott's Encyclopedia of U.S. Coins* describes it as "Extremely rare in unc." We have sold very few that were even close to this piece in quality. Should set a new price level for this issue.

*Note: From our Terrell Collection sale of May 1973, Lot 575. The specimen in the outstanding E.A. Carson Collection, which we sold in June 1976, was no finer.*

690 **1883 Brilliant Proof.** A rare date which usually appears only when a Proof is offered.

691 **1883 Choice Brilliant Uncirculated** with only partially prooflike surfaces. Extra sharp strike. Small pin scratch over Liberty's head (very light). One of the finest of the 8,000 struck still in existence, and worth a solid bid.

692 **1888 Choice Proof** with rather mottled toning. The reverse displays a pretty spectrum of the colors of the rainbow. Just 832 Proofs struck during this low-mintage half dollar year.

693 **1888 Choice Brilliant Uncirculated.** A rare business strike; in fact, one of just 12,001 struck, most of which perished long ago. This one is sharply struck, has very little in the way of a mirror surface (deemed desirable when collecting rare non-Proof issues), and shows just light and scattered hairlines. Seldom offered!

694 **1892 Choice Brilliant Uncirculated.** Desired first year of issue of the Barber coinage.

# U.S. Silver Dollars

*Silver dollars! The coins that have been a lure and an enjoyable pastime for thousands of collectors and just "plain folk." If you are a specialist who delights in rare die varieties of our pre-1804 dollars, or a Morgan and Peace dollar enthusiast, the following lots have something for you!*

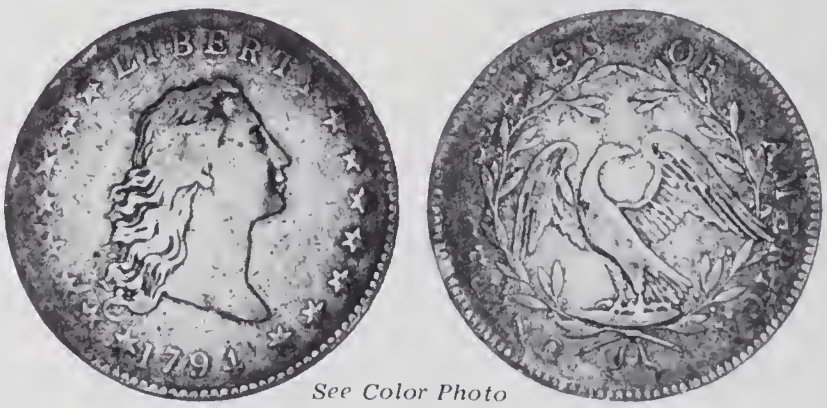
*The section begins with the classic American dollar – 1794. A fledgling mint began dollar coinage in this year, yet was able to strike just 1,758 before the year ended. Continuing on from 1794, there are several small eagle and heraldic eagle pieces to choose from.*

*Starting with 1836, we get into the beautiful artwork of Christian Gobrecht – the lovely 1836-39 seated Liberty design. Included here are four (!) of these beauties! An exceedingly rare name-in-field 1836, two name-on-base 1836s and a lovely 1839.*

*For collectors "in the know," the awakening Liberty seated dollars of 1840-1873 offer many opportunities. An 1840 Proof! Elusive mint state examples of dollars of the 1850s and early 1860s (rarities all). And several exceptional Proofs from the late-60s and early 70s.*

*And what would silver dollar collecting be without the center pieces embodied in Morgan and Peace dollars? Here there is something for everyone. Exciting Gems of the first water, runs of rarities (over a dozen 1895-S Morgans, for example!), beginner lots and investors' groupings. With the heightened interest in all quality Morgan and Peace dollars, we expect you'll be able to find the very coin you're interested in! Happy bidding!*

**Classic 1794 Flowing Hair Silver Dollar**



*See Color Photo*

753 **1794** Flowing hair silver dollar with small eagle reverse. The first year of issue of U.S. silver dollars. Out of 1,758 1794s struck, perhaps 75 to 100 are all that survive today!

This specimen is a very beautiful, lightly toned **Very Fine** example. It is very well struck and is free of the usual adjustment marks. (Over 80% of the known 1794 dollars are weakly struck at the lower left obverse and corresponding area on the reverse). Considering the excellent striking, pleasing appearance, and high grade of this coin, we consider it to be a fantastic opportunity.

754 1795 Flowing hair. Bolender 1. Two leaves under each wing. Extremely Fine, cleaned. Technically a one-year type coin as far as type set collectors are concerned (1794 is very high priced). A date that has always sold well.

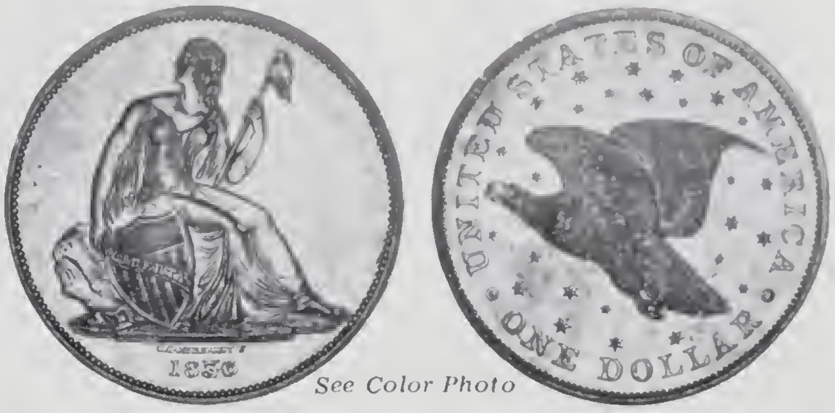
## Extremely Rare 1836 Gobrecht Dollar



1836
UNITED STATES OF AMERICA
ONE DOLLAR

See Color Photo

759 1836 Gobrecht dollar. Name below base. *One of just 18 struck!* Most 1836 Gobrechts (the 1000 made for promotional purposes) have the name on the base above the date. Evidently when Christian Gobrecht first designed the dollar, he placed his name between the date and the base of the rock on which Miss Liberty sits. Eighteen pieces were struck having this feature.

Possibly due to adverse comments, Gobrecht had the name moved to a less-visible location.

The present coin is a nicely **toned Proof** with some minor handling marks just visible. Attractive gold mixed with blue make up the toning. This is definitely one of the most important coins in this sale.

## Name On Base 1836 Gobrecht Dollar

760 **1836 Gobrecht dollar.** Name on base. Plain edge. The second style executed by Gobrecht. **Iridescently toned Proof,** some light hairlines. A pleasing coin that would fit nicely into any high quality collection.

## Second 1836 Gobrecht Dollar – Name On Base

UNITED STATES OF AMERICA
ONE DOLLAR

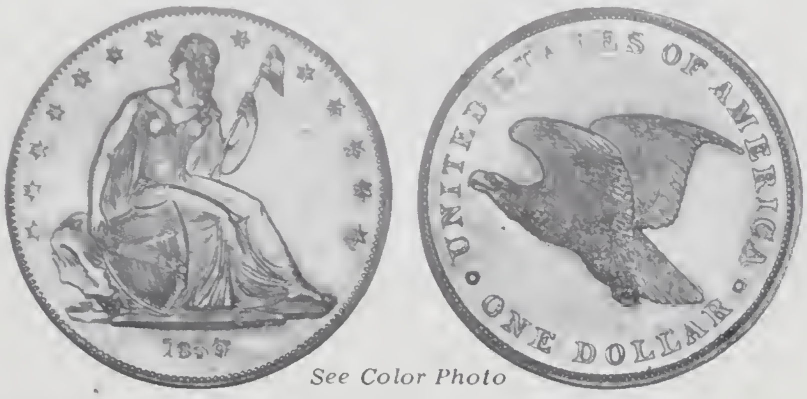
See Color Photo

761 **1836 Gobrecht dollar.** Name on base. Plain edge. Another lovely example of this style. Only 1,000 struck, and many of these were given out as souvenirs to dignitaries and political officials who did not take proper care of them. **Brilliant Proof,** light hairlines.

### *PRICES REALIZED LIST*

*A list of prices realized, ready at least 6 weeks after the sale, is available for $1 postpaid. Check the space on the back of your bid sheet.*

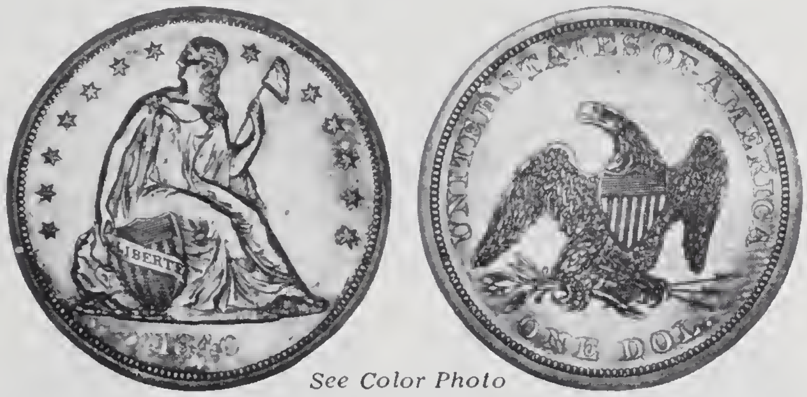
### Rare 1839 Gobrecht Dollar



See Color Photo

762 1839 **Gobrecht dollar.** Reeded edge. Different design than the preceding in that the eagle now flies in a starless field and thirteen small stars form a crescent about Miss Liberty. **Attractively toned Proof.** Deep blue toning with shades of iridescent steel and glints of gold here and there. It is estimated only 300 of this variety were struck.

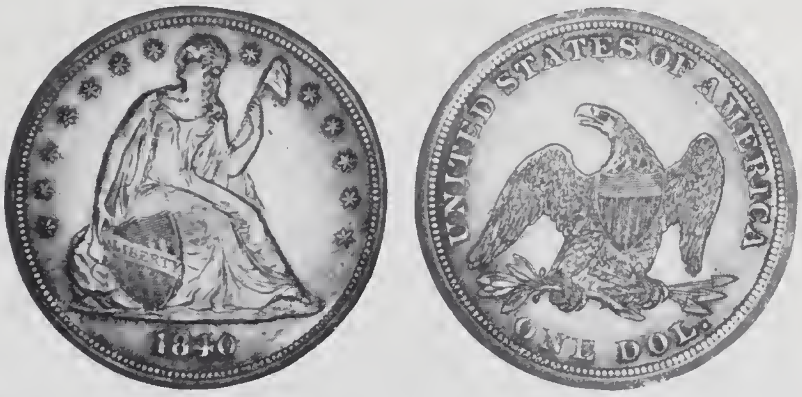
### Very Rare 1840 Proof Seated Dollar



See Color Photo

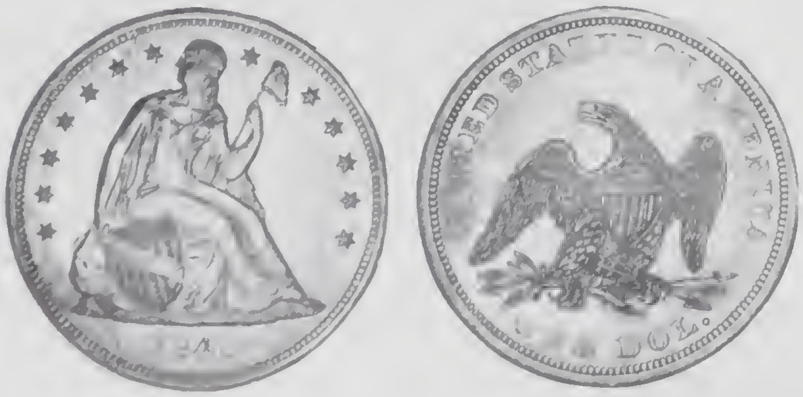
763 1840 **Lightly toned Proof.** Some hairlines. The first year of the Liberty seated dollars. It is not known why the mint officials decided to drop the Gobrecht reverse design. Possibly just to standardize the designs for the half dimes through dollars.

In any event, the present coin is one of just a few Proof 1840s that will come on the market in the average person's lifetime. If you want to obtain an "ultimate" coin for your type set or portfolio, this 1840 is for you.



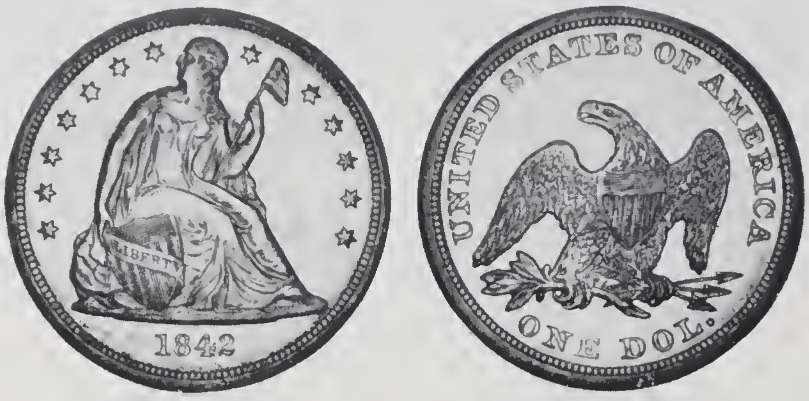
764 1840 Borderline Uncirculated, nice full strike. Mint lustre complete — just a hint of rub on Miss Liberty's leg keeps this from a full BU classification.

### Exceptional 1841 Seated Dollar



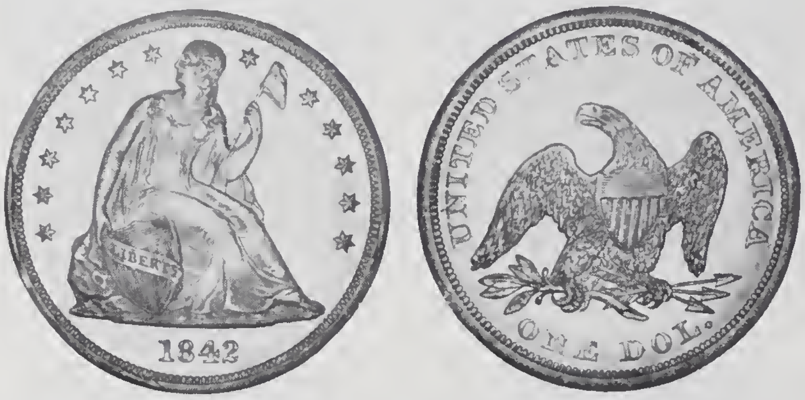
765 1841 **Choice lightly toned Uncirculated.** Prooflike fields and sharply struck (unusual for 1841). The toning runs from lavender to blue and evenly covers all surfaces. A beauty.

### Choice Uncirculated 1842 Dollar

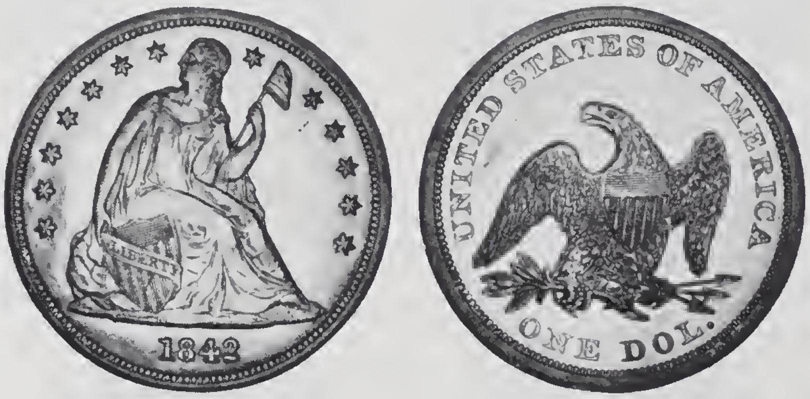


766 1842 **Choice Uncirculated,** having light golden toning. There is semi-prooflike surface, too. Very close to the Gem classification. Certainly MS65 at a minimum.

### Second Lovely 1842 Dollar



767 1842 **Choice Brilliant Uncirculated.** Frosty lustre and fully struck. Evidence of rim breakage shows in two places — small, low cuds.



768 1842 Brilliant Uncirculated. A third quality 1842 silver dollar.

*Note: All three of the 1842 Uncirculated dollars, as well as many other dates in the Liberty seated section, are from the fabulous Fairfield group. Because the consignor of the Fairfield Collection had many duplicates (for example, 9 or 10 1842s!) we felt it best to distribute the duplicates over several auctions. Thus, many of the high quality coins in this sale trace their heritage to the great Fairfiled group. (They have not been offered previously, however. This is their first offering to the public).*

769 1842 Very Good.

770 1843 Brilliant Uncirculated. A frosty MS60 example of this early issue. If not for a couple rim nicks, we could easily grade it Choice.

771 1844 Borderline Uncirculated. Medium hazy-lilac to blue toning. Average bagmarks. 1844 is one of the more elusive seated dollars — in all grades.

772 1844 Extremely Fine, some marks. Lightly cleaned at one time. Will tone nicely in a while.

773 1846 Borderline Uncirculated, semi-prooflike fields. Remarkably free of the usual bagmarks.

774 1847 Brilliant Uncirculated, semi-prooflike. A popular date for type collectors. Many would grade this Choice and it is nearly that.

775 1847 Brilliant Uncirculated, small edge bump.

### Very Rare 1848 BU Dollar

776 1848 **Brilliant Uncirculated.** Semi-prooflike fields. Very close to Choice and we were tempted to call it that. Just 15,000 1848s were struck and so few remain in high grades that we expect spirited bidding from knowledgeable numismatists.

*Note: Liberty seated half dimes, dimes, quarters and halves have experienced a sharp run-up in recent years. This is particularly noticeable in the rare and underrated dates and mints. Yet seated dollars seemed to have escaped attention. 1848 is many, many times rarer than, say, 1849. Still, when a true BU example does surface, it brings perhaps two to three times the price of its more common brother in the same grade! Perhaps the dispersal of quality seated dollars through this sale and the previous Fairfield Collection will give the series the spotlight it deserves.*

777 1849 Brilliant Uncirculated, usual moderate bagmarks.

*THE NUMISMATIC SPECTRUM*

*The knowledge of our large numismatic staff covers the entire spectrum of numismatics. Thinking of selling? Whether you are selling major United States rarities, pattern coins of French Indo-China, crowns of Africa, or any other speciality, there is a specialist on the Bowers and Ruddy Galleries staff to take care of all of the necessary research. We offer you a complete numismatic service.*

778 1849 Brilliant Uncirculated. Another 1849, this pleasing one lacking in the usual surface blemishes and heavy bagmarks.

779 1850 **Borderline Uncirculated.** A hint of gold toning. Mirror fields. The mintage for 1850 is a miniscule 7,500. How many today even approach the quality of this one?

### Lovely Golden Toned Unc. 1853 Dollar

See Color Photo

780 **1853 Choice Uncirculated,** medium gold toning with highlights of lavender.

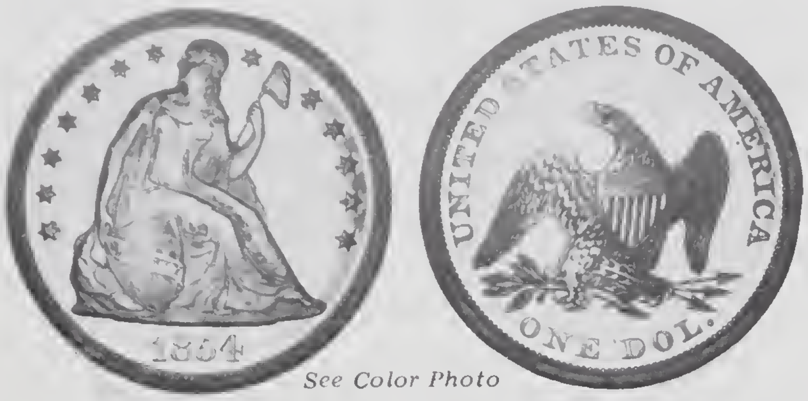
*Note: The 1850s saw a great reduction in the mintage of silver dollars. Except for out West and in some of the states along the Canadian border, dollars were not accepted by businesses or their customers. People were more apt to use paper money substitutes and leave the bulky dollars on deposit in banks. Because of this lack of demand, coinage fell off. Today's collector benefits from yesterday's lack of interest. Most seated dollars in the 1850s are low mintage rarities!*

### Second Lovely 1853 Dollar

781 **1853 Lightly toned Uncirculated.** A second example of this low mintage rarity of the early 50s. Iridescent blue and gold hues tone this lovely dollar.

782 1853 AU. Medium steel blue toning.

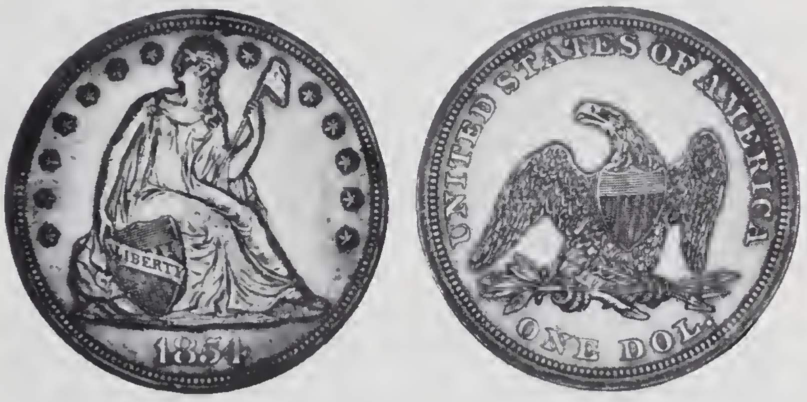
## Extremely Rare Proof 1854 Seated Dollar



See Color Photo

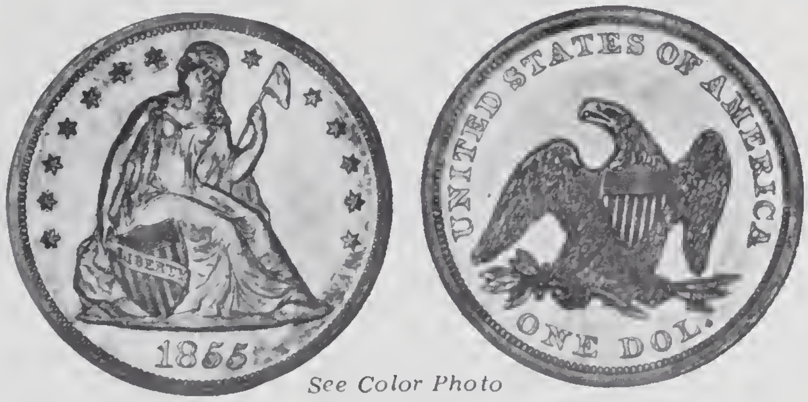
783 **1854 Brilliant Proof.** One of possibly two dozen Proofs known from this elusive year. Two tiny scratches on the reverse rim are visible. Fully brilliant. Frosted devices pleasingly offset by deep mirror fields. Diagnostic weakness at eagle's wing (Breen mentions this as a characteristic of the coin). A wonderful coin and one of the finest known examples (many early seated dollars became impaired through mishandling).

## A Second Rare 1854 Dollar — Choice Uncirculated



784 **1854 Choice Uncirculated.** Golden toning. Fully struck up, both sides. Small business strike mintage of 33,140. Very few 1854s remain in this high grade. So few, in fact, we can count the number we have handled over the years on the fingers of one hand!

## Golden Proof 1855 Seated Dollar



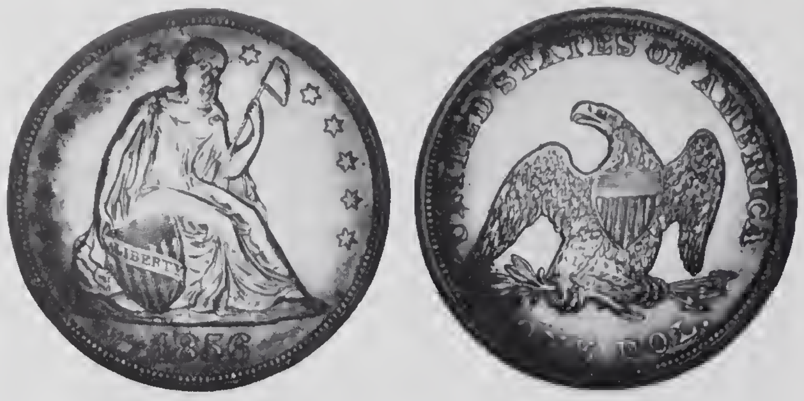
See Color Photo

785 **1855 Golden toned Proof.** Iridescent color. A few trivial hairlines do not detract one iota from the coin's desirability. An estimated 50 to 60 Proof 1855s are known. Few can match the excellence of this one!

*Note: All 1855 dollars have the "slanting 5s" in the date. It's believed the slanting motif was James B. Longacre's specialty. Many of the coins in the 1855 and 1856 dates come with and without slanting 5s in the dates. Some have postulated another mint engraver — an apprentice — did the upright 5s.*

*USE THE INDEX*

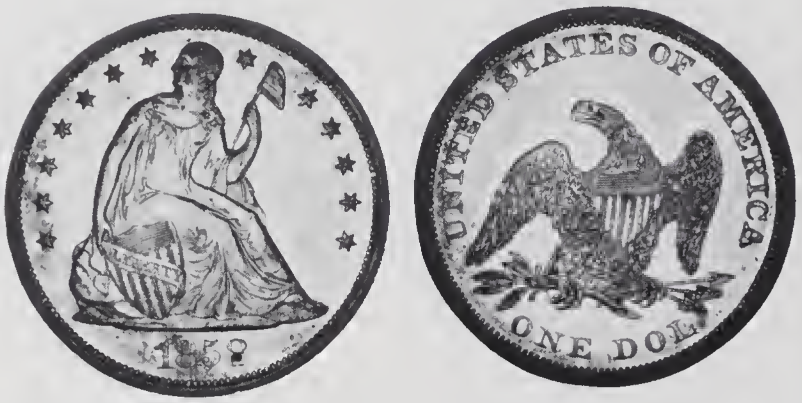
*See the Index to the Sale for a listing of the many interesting coins in this catalogue.*



786 **1856 Brilliant Uncirculated.** Somewhat softly struck in centers (often seen on 1856). Magnificent peripheral toning on both obverse and reverse. This toning ranges from gold to lavender to blue. 1856 is another of those elusive dates one seldom encounters in any condition.

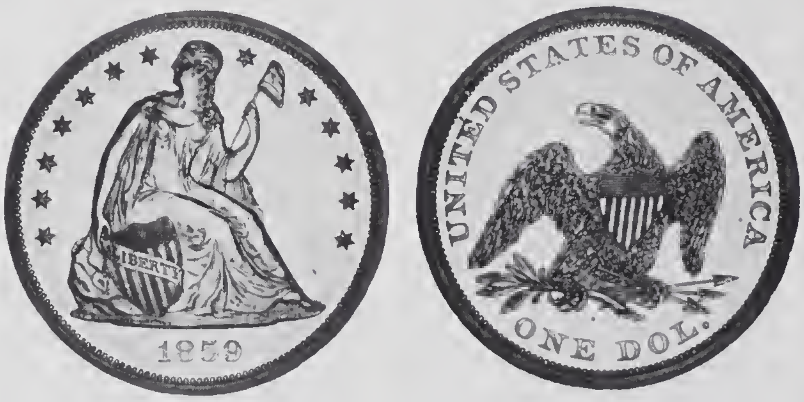
787 **1857** Borderline Uncirculated. Prooflike fields. Above average strike on Miss Liberty's head and toe. These are often flatly struck on 1857 dollars. The eagle is fully struck. Why not add this desirable date to your collection?

## The Classic 1858 Seated Dollar Rarity



788 **1858** Estimated mintage of 80. No business strikes were ever made in 1858, just Proofs. The present coin is an **iridescently toned Proof** that probably saw a few weeks in circulation. The mirror fields are still intact, but light abrasions are under the toning. Quite attractive. A good way to add a great rarity to your collection at a modest price (compared to an unimpaired 1858, that is).

## Lovely 1859 Proof Seated Dollar



789 **1859 Choice Brilliant Proof.** Perfect for a type set. A nice "no motto" coin.

*Dear Mr. Korver:*

*"Earlier today I wrote you a note about the medal(s) you were interested in seeing. I neglected to comment on a very important item.*

*"I want to thank you very much for the copy of your catalogue on the Blauvelt, Iberoamerican and 1715 Spanish Treasure Fleet Collections.*

*"That is an informational, instructive and important book for anyone collecting or thinking about collecting coins. I really treasure it highly. Please accept my sincere thanks for it." — An unsolicited testimonial from E. H. of Ocean Springs, Mississippi.*

790 **1859 Toned Proof.** Another fine example of this year.

*Note: An interesting sidelight on the availability of Proof seated dollars. In the early 1970s, Japan had a booming economy. Japanese coins were rising phenomonally in price. We remember a large Japanese coin dealer who flew to all the major American auctions and bid on all Proof seated, Morgan and trade dollars — and bought most of all the pieces he bid on! These he then took back to his homeland, there to sell to eager collectors wanting Proof American "crowns." So today, undoubtedly many, many of those Proofs still reside in Japan!*

791 **1859-S** Key date. Just 20,000 struck. Like the well-promoted 1850-O an underrated date. (This one, however, hasn't been promoted and still sells far below its potential). Lustrous **AU.**

792 **1860 Brilliant Proof.** Only 1,330 Proofs struck. Some authorities believe unsold leftover 1860 Proof dollars were melted. If so, the mintage figure would have to be adjusted.

793 1860 Uncirculated, lavender and blue toning. Quite close to Choice.

794 1860-O Choice Brilliant Uncirculated. A few of the normal bagmarks on the obverse.

*Note: A few dozen rolls of 1859-O and 1860-O dollars surfaced in the large Treasury dispersals of the early-1960s. It's from these rolls that nice BU dollars such as this come. They make a fine addition to any type set, and also have the New Orleans mintmark for added desirability.*

> *"Dear Mr. Korver,*
>
> *"I received a copy of the auction catalogue for the Roy Harte Collection (Nov. 16 thru 18, 1977) and the listing of the lots which I have included in the sale. I was pleased with the catalogue as a whole and was quite impressed with the colour photography." — An unsolicited testimonial from T. M. of Toronto, Ont. Canada.*

### Lovely Proof 1861 Seated Dollar

795 **1861 Choice Brilliant Proof.** 1,000 Proofs struck. Surely few can match this one for quality. Lovely frosted devices offset by deep mirror fields give a pleasing two-tone effect.

### Rare Mint State 1861 Dollar

796 **1861 Choice Brilliant Uncirculated.** Virtually free of normal bagmarks. A bit softly struck on top of Miss Liberty's head and on some of the stars. The medium mintage of 78,000+ business strikes belies the true rarity of 1861 in full Uncirculated grade. This Choice BU is very rare and should attract interested bidders.

### Choice Proof 1862 Dollar

797 **1862 Choice Proof.** Lovely gold and blue toning. An exceptional coin!

798 **1862** Brilliant Uncirculated, light hairlines from one injudicious cleaning. 1862, with a total mintage of 12,090, is one of the rarest dates in the 1860s — in all grades. If you have been searching for a '62, here's your chance.

1863
ONE DOL.

799 **1863 Brilliant Uncirculated.** Another of those elusive dates in the Liberty seated dollar series. The Civil War caused hardship for all concerned. The dearth of dollars in these years are clear results of that conflict. The present coin is nicely toned. The only detractions are a couple of small staple scratches in the obverse field. Toning runs into the blues and lavenders.

800 **1863 Brilliant Uncirculated.** A second example of this key date. A medium amount of bagmarks and abrasions, as often found on dollars.

806 1867 Proof with steel toning. Some light hairlines. One of just 625 Proofs struck for 1867.

807 1867 Brilliant Proof, light hairlines.

808 1868 Toned Proof, hairlines.

809 1868 Toned Proof having hues of green and purple. Possibly not original toning, but pleasing just the same.

810 1868 Borderline Uncirculated. Small scratch on Miss Liberty's neck. Semi-prooflike obverse; lustrous reverse.

*Note: A coin from the fabulous Fairfield group. In that historical collection were several ROLLS of scarce to rare date Morgan dollars, such as the 1883-S. Rather than place all of the coins individually in one sale (the earlier Fairfield Collection sale) we thought it best to spread them around over several sales. So, when you see a run, such as the following 1883-S's, remember they are from exceptional rolls and all of the pieces are virtually identical.*

1028 1894-S Choice Brilliant Uncirculated, prooflike. An attractive coin.

*Note: Mintages dropped off in the early to middle 1890s. Most collectors have a difficult time locating choice quality dollars struck between 1892 and 1897. As many of the dates in this range are high priced rarities, it is vitally important that you learn to tell a true BU dollar from one which has seen slight circulation (Borderline Uncirculated, "slider" etc.). Many dealers and collectors learn years later that the BUs they bought are in truth only nice AUs and suffer financial embarrassment! Remember there is no Santa Claus in the rare coin business. You get what you pay for. Watch out for those "bargains"!*

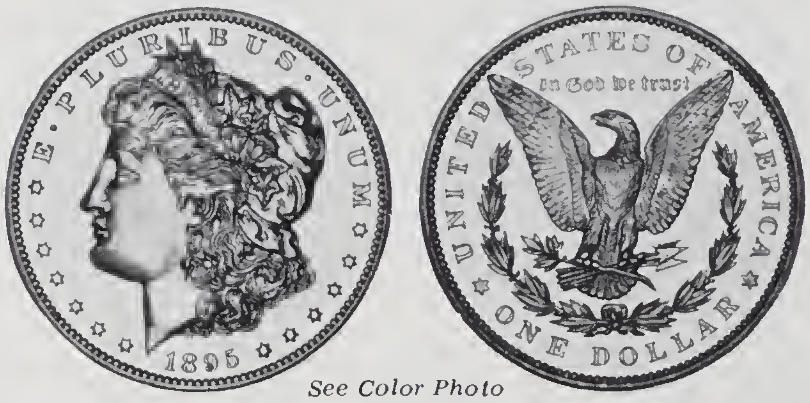
## The "King of the Morgans" — 1895 Proof



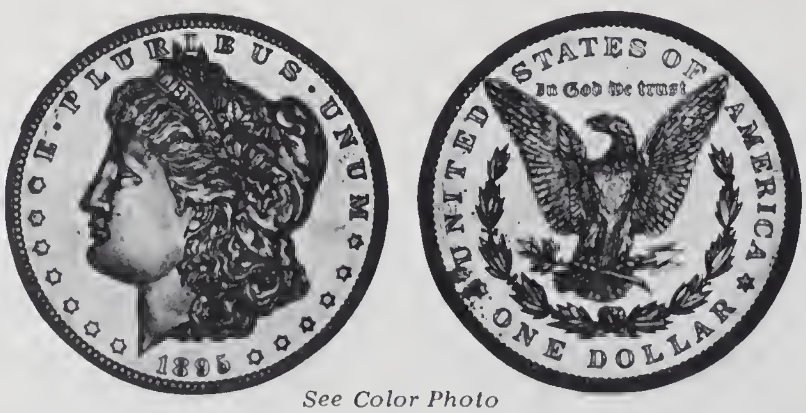
*See Color Photo*

1033 **1895 Choice Brilliant Proof.** Actually quite close to Gem! Full, deep mirror fields with lovely frosted devices giving a two-tone effect.

In our recent Fairfield Collection sale, a Gem Proof 1895 brought $11,500! This one is nearly as nice and should bring a commensurate sum.

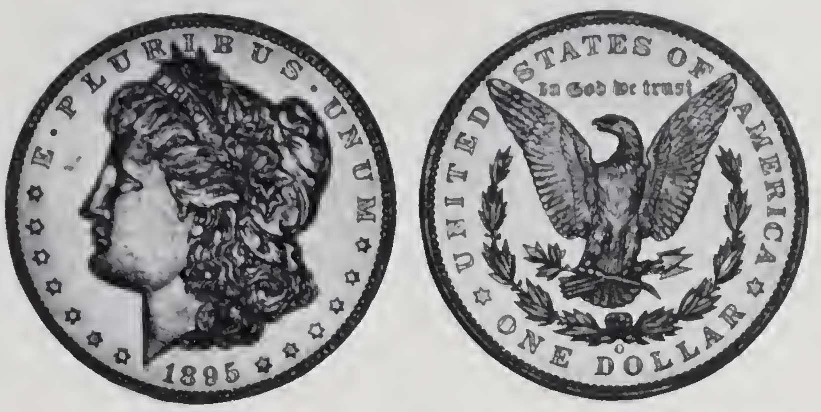
*Note: We have auctioned many fine collections of Morgan dollars over the years. It never fails to amaze us how few of these collections contain an 1895! There may be a top quality 1892-S or 1893-S or 1889-CC (high priced rarities in their own right), but only about one out of twenty sets contain the "King" 1895! Wise numismatists would concentrate on purchasing an 1895 FIRST before prices rise too much and it becomes unaffordable. We've often seen this happen in other series — the collector concentrates on the lesser-priced dates. When it comes time to buy the higher-priced coins (usually those that are the rarest) he finds they have far outdistanced the cheaper coins and are either unavailable or priced in the stratosphere!*

## Second Lovely 1895 Proof Morgan



*See Color Photo*

1034 **1895 Delicately toned Proof.** A second prime example of this key date. But 880 were struck and we've seen many that were mishandled. Not so this lovely coin. The obverse has light peripheral toning. The reverse is toned an immaculate lavender to blue color. Most numismatists would call this piece Choice. And the few faint hairlines are so modest, we would not argue with them for so doing.



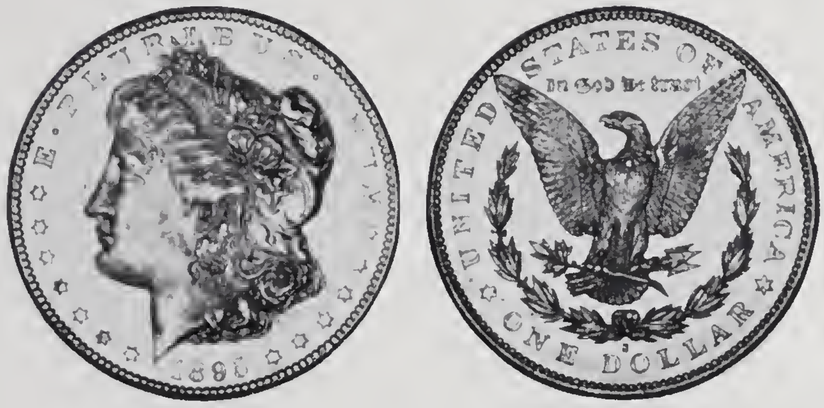
1035 **1895-O Brilliant Uncirculated, prooflike.** Fully struck over Miss Liberty's ear and on the eagle's breast. Each feather shows.

1036 1895-O Borderline Uncirculated. A bit less sharp strike than the last, but well above average for this date. 1895-O is elusive in grades of AU and above.

1037 1895-O Extremely Fine.

1038 1895-O Extremely Fine. Duplicate.

1039 1895-O Extremely Fine. Another.



1040 **1895-S Choice Brilliant Uncirculated.**

*Note: This and the following nice 1895-S Morgans are from the fabulous Fairfield Collection. The following coins have never been offered before. The original group had 40 pieces (!). We felt it best to divide the 40 over three auctions. This is the last group to be offered. All are nice, brilliant coins and should find welcome homes.*

1203 **1934-S Choice Brilliant Uncirculated.** In fact, most dealers would sell this as a Gem. A delightfully frosty coin. 1934-S is, of course, the key date in this series. Many "sliders" abound, but true Uncirculated pieces are very elusive.

### *HOW TO SELL YOUR COINS: TWO WAYS*

*There are two ways you can sell your coins:*

*(1) You can write or call leading dealers from all over the USA, make elaborate security precautions at your home or bank, and then spend several weeks patiently watching while different people look through your coins hoping that all your effort will result in a nice WHOLESALE offer (have you ever heard of a dealer who would pay retail? Of course not!). You realize that you are dealing with a person who wants to buy your coins for as cheaply as possible while, at the same time, you're hoping to get as much as possible. Or . . .*

*(2) You can consign your coins to Bowers and Ruddy Galleries. We do all of the work for you. All you have to do is consign your coins to us and then cash your check! No security fuss or bother. No wasted time. No wondering if you sold for the right price. And, we're on the same side of the fence you are the more your coins bring, the happier we are, for our compensation is based on a commission.*

*Over the years leading collectors have found one right answer when they sell their coins: Bowers and Ruddy Galleries, Inc. Your letter or telephone call will bring our immediate response.*

## Important 1873-S BU Rarity

1212 **1873-S Choice Brilliant Uncirculated.** Light golden toning. The first year of Trade dollar issue. San Francisco Trades of this year must have been shipped to the Orient. ## Quality 1880 Proof Trade Dollar

1228 **1880 Choice toned Proof.** Blue and gold hues.

1229 **1880 Toned Proof,** hairlines. Deep gray toning.

### Beautiful Toned 1882 Trade Dollar

1237 1882 **Brilliant Proof.** A few insignificant hairlines.

1238 1882 **Brilliant Proof.** Hazy surfaces. 1,097 Proofs struck in this Proof-only year.

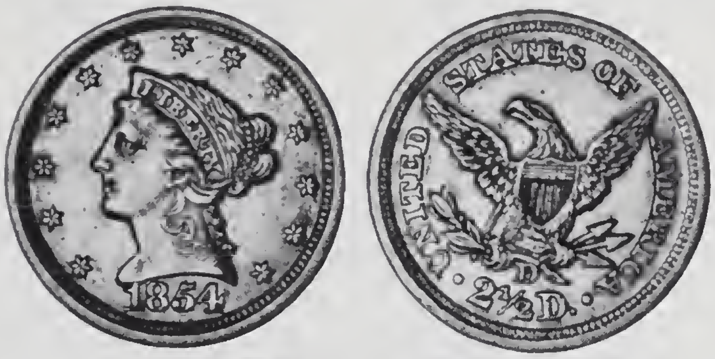
1250 **1850-C** Fine to Very Fine.

## Very Rare 1854-D Quarter Eagle



See Color Photo

1251 **1854-D** Key date in the quarter eagle series. Low mintage of 1,760! EF-AU, lustre in the protected areas. Well struck, too. A similar coin, of identical grade, brought $2300 in our Fairfield Collection sale in October 1977.

## Glittering Proof 1900 Quarter Eagle

See Color Photo

1252 **1900 Gem Brilliant Proof.** An exquisite turn-of-the-century coin. 205 Proofs were struck in 1900. Because collectors did not have protective holders for coins at this time, many of these Proofs acquired light hairlines or mishandling marks. This 1900 is squarely among the finest known, without a doubt!

*THE BEST PRICE FOR YOUR COINS!*

*When Armand Champa, one of America's leading numismatists, decided to sell his collection he solicited cash offers from leading dealers all over America. Dissatisfied with the bids received and with the great time and effort expended to show his collection to many different people, he then consigned his magnificent collection to us for auction.*

*The Armand Champa Collection sale took place—and attracted international attention. When the sale was over, Mr. Champa told us that his coins sold in our sale for NEARLY DOUBLE the highest cash offer he received earlier! So appreciative was he, that he did something completely unprecedented in the annals of numismatics: completely unsolicited by us, Armand Champa placed large advertisements in "The Numismatist," "Coin World," and "Numismatic News" to thank us for the great job we did for him!*

*Thinking of selling? Do as Mr. Champa did: consign your coins to Bowers and Ruddy Galleries. It's the ideal way to sell.*

### Important 1854-D $3 Gold Rarity

See Color Photo

1268 **1854-D** The only Dahlonega Mint $3 and a great rarity in its own right. Why Dahlonega struck only 1,120 $3 gold pieces, and no more in later years, is a great mystery. Numismatists have always cherished this coin. Maybe you will too. **Extremely Fine** and well struck. Characteristic weakness along rim denticles, but everything else fully brought up in the striking. Lustre in the protected areas around the wreath and lettering.

1269 **1862** Scarce early-60s coin. Extremely Fine, a few edge marks. These are minor.

### Rare 1886 $3

See Color Photo

1271 **1886 Brilliant Uncirculated, prooflike.** Minor hairlines. One of just 1,000 business strikes made!

*Note: By the 1880s, the government finally realized $3 gold pieces were not that popular. Mintages dropped after 1878, never to go above 10,000 again in any one year. 1886 is one of the lowest mintage dates, yet it doesn't sell for too much more than a more common 1874 or 1878. Why not consider adding a rarity to your type set to impress your knowledgeable friends?*

### Beautiful 1879 Flowing Hair $4 "Stella"

See Color Photo

1272 **1879 Flowing hair $4 "Stella."** Mintage of 415. One of the classics in American numismatics. **Brilliant Proof** with attractive light peripheral toning. An exquisite coin.

*Note: With the publication of Walter Breen's monumental work on American Proof coinage, we now have a delightful (if somewhat jaded) story: "Many survivors are impaired, some by drastic cleaning, others by nicks or scratches, or even honest wear — being carried as pocket pieces. Several dozen have been seen with traces of solder on the edges from removal of loops. These ex-jewelry items . . . were reported at the time (during the 1880's) to be adorning the persons of Washington, D.C. madams who received them from congressional visitors to their bordellos. Choice Proofs are now rather infrequently seen."*

# U.S. Half Eagles

### Rare, Classic 1810 Half Eagle

See Color Photo

1273 **1810** Small date, large 5D. Capped bust left design. It is estimated that of the original 100,000 1810s struck, perhaps 3% (!) still survive. Most of these survivors are, of course, circulated. The present coin is a lustrous **Brilliant Uncirculated.** It would find a dandy home in your type set or rare coin portfolio.

### Attractive 1811 Half Eagle

1274 **1811** Small 5. Borderline Uncirculated, much original lustre. Scarce as the last, equally desirable, and not as expensive.

1275 1840 Extremely Fine, lightly burnished.

1276 **1847-C** Extremely Fine.

1277 1850-C Fine, mintmark faintly visible. Other details clear. Often if a mintmark wasn't strongly punched into the die, the resultant coins came weakly defined. (Many "C" gold pieces come with weak mintmarks).

1278 **1853-C** Extremely Fine.

1279 **1853-D** Extremely Fine.

1280 **1857-C** Extremely Fine.

1281 **1859-C** Extremely Fine. As the Civil War approached, mintages for the southern branches began dropping. Most "C" and "D" dates in the 1859-1861 years are very rare today. They are much scarcer than the pre-1859 pieces as most were probably melted or lost during the War. This 1859-C would make a fine addition to your set – a lovely coin from the antebellum South!

1282 (1) 1880 EF; (2) 1885 AU; (3) 1886 EF; (4) 1913 Indian. AU; (5) 1914 AU. (Total: 5 pieces)

1283 (1) 1880-S Borderline Unc., prooflike; (2) 1895 AU; (3) 1902-S BU, light cleaning; (4) 1909-D AU; (5) 1913 EF-AU. (Total: 5 pieces)

1284 1881 Choice Brilliant Uncirculated.

1285 1881-S Brilliant Uncirculated.

### Rare Proof 1883 Half Eagle

*See Color Photo*

1286 **1883 Mishandled Proof.** Tiny Proof mintage of 61 pieces! The light handling marks are minor. Attractively toned to a warm color.

1287 (1) 1886-S AU; (2) 1900 BU, bagmarks; (3) 1912 EF. (Total: 3 pieces)

1288 **1892-CC** Borderline Uncirculated, semi-prooflike fields.

1289 **1893-CC** Extremely Fine.

1290 1894-O Extremely Fine. One of only three New Orleans issue $5 gold pieces with the "with motto" design (1892, 1893 and 1894). Always a needed coin.

1291 1895 Brilliant Uncirculated.

1292 1897 Choice Brilliant Uncirculated.

1293 1901 Choice Brilliant Uncirculated.

1294 **1903-S Gem Brilliant Uncirculated.** A blazer!

1295 1904 Choice Brilliant Uncirculated.

### Beautiful 1906 Proof Half Eagle

*See Color Photo*

1296 **1906 Choice Brilliant Proof.** Beautiful deep mirror fields and lightly frosted devices. 85 Proofs were struck in 1906. This one must be in the top 10% known today.

1297 1906-D First year for Denver Mint operation. Choice Brilliant Uncirculated.

1298 1906-D Borderline Uncirculated.

1299 1906-S Choice Brilliant Uncirculated.

1300 1907-D Brilliant Uncirculated.

1301 1907-D Brilliant Uncirculated. Duplicate.

1302 1908 Liberty. Gem Brilliant Uncirculated. Lovely! A top-of-the-line specimen.

1303 1908 Liberty. Gem Brilliant Uncirculated. As exquisite as the last!

1304 1908 Liberty. Choice Brilliant Uncirculated.

*The following Indian head half eagles comprise an astonishingly beautiful run. If you collect these by date and mint, please check these lots carefully. There will undoubtedly be something for you. Most of the pieces are from one consignor who spent countless hours selecting quality pieces from the many lesser-quality coins usually seen on the market. The 1909-O is something to behold! A finer example could not be found.*

1305 1908 Indian. Choice Brilliant Uncirculated. Glistening lustre.

1306 1908 Indian. Brilliant Uncirculated.

1307 1908-D Choice Brilliant Uncirculated.

1308 **1908-S Gem Brilliant Uncirculated.** A splendid, satiny coin. Virtually free of marks. Would grade about MS67. One often encounters 1908-S Indian half eagles – BUT, they are invariably Extremely Fine grade or less! To find a true Gem BU is a task of some hardship. Just 82,000 pieces were struck (low when compared to, say, 1909-D with over 3 million!). Here is a coin for the connoisseur.

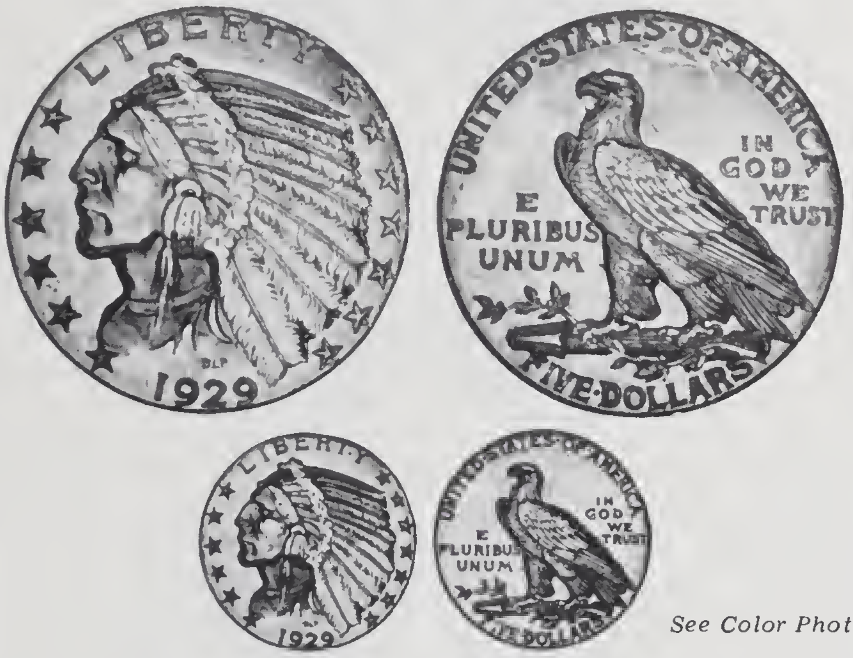
### Choice BU 1929 Half Eagle



See Color Photo

1335 **1929 Choice Brilliant Uncirculated.** Last year of issue — most were melted. When gold coins were called in in 1934, most of the 1929s hadn't had a chance to circulate. The few known today are all Uncirculated (a pleasing happenstance!).

### *THE EXPERIENCE OF MR. MATT ROTHERT*

*—Past President of the A.N.A.—*

*When Mr. Matt Rothert, distinguished past president of the American Numismatic Association (and recipient of nearly all the important numismatic awards that can be bestowed on an individual), decided to sell his collection he compared the style, presentation, commission rates, advantages, and prices realized of leading auction houses. He chose Bowers and Ruddy Galleries, Inc. We catalogued his coins and sold them at an event that was a numismatic landmark. Following the sale, Mr. Rothert wrote to us and expressed his great satisfaction with the way we handled the sale. In fact, he was so pleased that he subsequently sent us several additional consignments for further sales!*

*Thinking of selling? Do as Mr. Rothert did: consign your coins to us. It's the ideal way to sell!*

1337 **1797 Herald eagle reverse.** A coin in the classic early American style. Breen-2B. Rarity-4. EF-AU and fully struck. A beautiful design and a beautifully preserved coin.

### Glittering Gem Proof 1898 Eagle

1356 **1898 Gem Brilliant Proof,** a blazer. All of the Proof eagles have the so-called "orange peel" mirror surfaces that give U.S. Proof gold coins a pleasing appearance. This one also has beautiful contrasting frosted devices against a deep mirror field, giving a two-tone effect.

1358 1901 Choice Brilliant Uncirculated.

1359 1901 Brilliant Uncirculated.

1378 **1906-D Gem Brilliant Uncirculated.** Top quality eagles, such as this 1906-D are very difficult to find. Collectors have found that the $10 denomination has the fewest true Gems of any gold denomination.

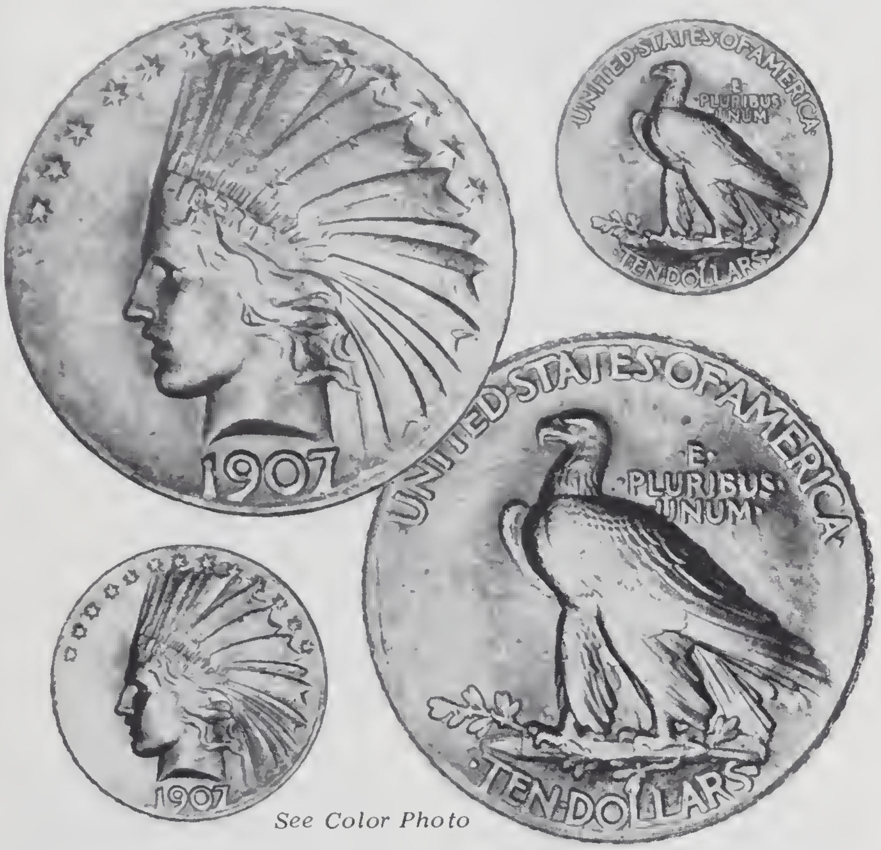
*"Dear Mr. Korver,*

*"I'm sorry not to have written to you long ago, to express my sincere thanks for the settlement statement and check and the very satisfactory manner in which you handled my consignment of coins which were placed in your auction of May 5–6, 1977. I was well satisfied with the expert grading of my coins and I had the feeling that it was fair and honest – and the amount realized in the auction, on what you had estimated my coins would be worth, showed that my confidence had not been misplaced! And confidence is so important when the seller is not an expert and must depend on the ones to whom he has entrusted his coins . . ." – an unsolicited testimonial from E. T. of Syracuse, New York.*

*Indian head ten dollar gold pieces begin now, with another stellar grouping! The same consignor who had the previous half eagles also acquired many, many quality eagles. In recent months, Indian head eagles have been on the move — no doubt in response to awakening realization of the true rarity of the coins. There is something for everyone in the following lots. Rarities, Gem BU's, investor's groups. Happy hunting.*

### Beautiful 1907 Wire Edge Eagle



See Color Photo

1387 **1907 Wire edge, periods. Choice Brilliant Uncirculated.** (Actually very close to Gem, for the coin is full MS65). This is Augustus Saint-Gaudens' short-lived design. The relief is somewhat higher than on later eagles. Due to striking problems (or maybe just political pressures), only 500 of the wire edge pieces were struck before the design was modified. The present coin is a beautiful example of both Saint-Gaudens' designing genius as well as the coiner's art.

### Gem BU 1907 No Periods Eagle

1388 **1907 No periods. Gem Brilliant Uncirculated.** This is the modified design as used only in 1907 and part of 1908. The type is often referred to as the "no motto" style — IN GOD WE TRUST being added in the middle of 1908 at President Theodore Roosevelt's urging. Here is a satin Gem BU that will please even the fussiest collector.

1389 1907 No periods. Designs as preceding. A coin nearly as nice as the last. Choice Brilliant Uncirculated.

1390 1907 No periods. AU.

### Low Mintage 1908 No Motto Eagle

1391 **1908 No motto.** Just 33,500 "no motto" 1908s were struck before the Philadelphia Mint got the okay to add the motto IN GOD WE TRUST. Thus a rarity was created. **Choice Brilliant Uncirculated.** An illustrious coin, tracing its pedigree to our Rothert Sale of 1973.

1392 **1908 No motto.** A second scarce coin. Borderline Uncirculated.

1393 **1908 With motto.** Not particularly rare as a date, but extremely elusive this nice: **Gem Brilliant Uncirculated** and well above MS65!

1394 (1) 1908 With motto. EF, rim nicks; (2) 1913 EF-AU. (Total: 2 pieces)

1395 Attractive starter group or for investing purposes. A good sampling of dates and mints: (1) 1908-D With motto. BU; (2) 1910-S AU; (3) 1912 AU; (4) 1913 AU; (5) 1914-D Borderline Unc.; (6) 1914-D AU; (7) 1914-S AU; (8) 1915 BU; (9) 1915-S AU. (Total: 9 pieces)

### Important Choice BU 1908-S Eagle

See Color Photo

1396 **1908-S Choice Brilliant Uncirculated.** Small mark on eagle keeps this from Gem. Bright mint lustre. 1908-S is one of the lower mintage dates in the Indian eagle series with 59,850 struck. Full mint state specimens are few and far between. It is a pleasure to be able to offer this fine coin on the auction block.

1397 1909 Choice Brilliant Uncirculated.

### Blazing 1909-S Gem BU Eagle

1398 **1909-S Gem Brilliant Uncirculated.** A fully struck coin with blazing mint lustre. Very underrated as the mintage figure belies the true rarity of 1909-S in this nice condition!

1399 **1910 Gem Brilliant Uncirculated.** Not rare as a date, but oh, so desirable in this grade. MS67 or thereabouts.

1400 1910-D Choice Brilliant Uncirculated.

1401 1910-D Brilliant Uncirculated.

### Glittering Gem BU 1910-S Eagle

1402 **1910-S Gem Brilliant Uncirculated.** Satiny surfaces. The eagle's "shoulder" does not show full feathers, but we've seen this on most 1910-S's examined.

1403 **1911 Gem Brilliant Uncirculated.** A blazer! Mate to the 1910 Philly above (Lot 1399).

1404 **1911 Gem Brilliant Uncirculated.** Another!

1405 1911 Choice Brilliant Uncirculated.

1406 1911 Choice Brilliant Uncirculated.

### Rarely Encountered 1911-D Eagle

*See Color Photo*

1407 **1911-D Brilliant Uncirculated,** average bagmarks. 30,100 1911-D eagles were minted. With so few to begin with, is it any wonder BUs are very rare?

1408 1911-D Borderline Uncirculated.

### Rare BU 1911-S Eagle

1409 **1911-S Brilliant Uncirculated.** Some surface marks. Again, a rare 1911 eagle — 51,000 struck. Full mint lustre and well struck, too.

1410 1911-S Borderline Uncirculated.

1411 **1912 Gem Brilliant Uncirculated.** About MS67. Blinding lustre.

*Note: The presence of so many Gem BU Indian eagles is an event! Even the so-called "common dates" aren't seen very often in this outstanding condition. Several months back we auctioned a single 1910 Gem BU eagle. When we catalogued the coin we estimated it would bring in the $400-$450 neighborhood. Surprise! The successful floor bidder took it away for $850!!*

1412 1912 Brilliant Uncirculated. Weak in the centers. Otherwise a Choice BU coin.

1413 1912-S Borderline Uncirculated. Most original mint lustre intact and undisturbed.

1414 1913 Choice Brilliant Uncirculated.

1415 (1) 1913 Borderline Unc.; (2) 1915 Borderline Unc. (Total: 2 pieces)

1416 1915 Brilliant Uncirculated. Hairlines on the reverse.

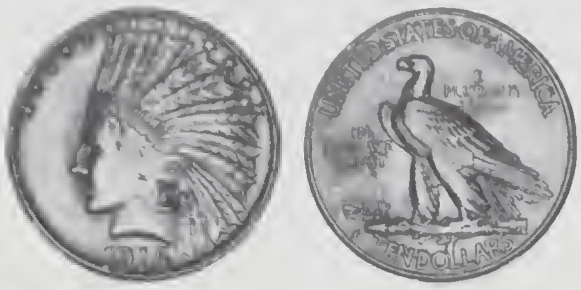
1417 **1915-S Choice Brilliant Uncirculated.** A few scattered marks on the obverse, but these are not heavy and do not detract from the coin's desirability.

1418 1915-S AU.

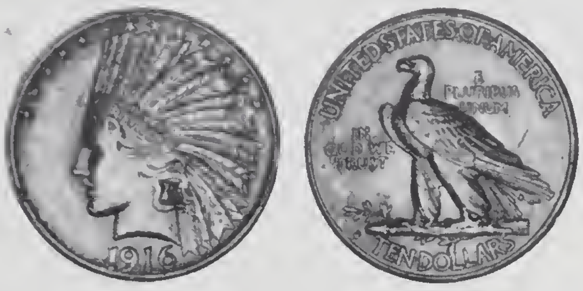
### Lovely Choice BU 1916-S Eagle

1419 **1916-S Choice Brilliant Uncirculated.** One of the most elusive eagles in this exceptional condition.

### Second Lovely 1916-S Eagle

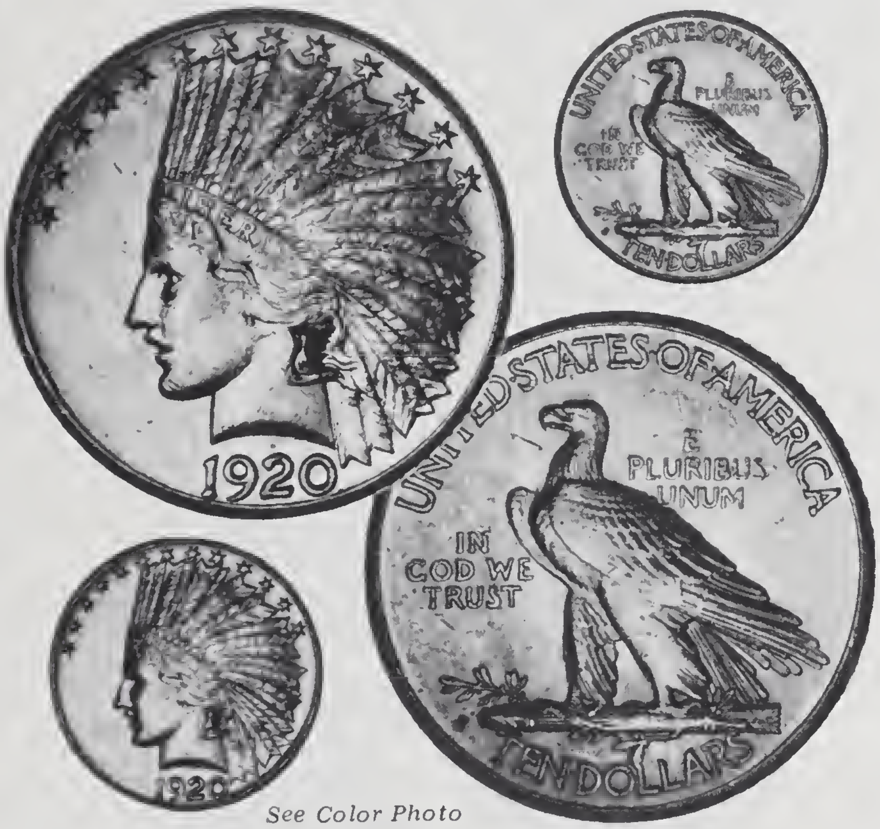


1420 **1916-S Choice Brilliant Uncirculated.** Tiny hairline left of the date, otherwise very nice.



1421 1916-S Borderline Uncirculated.

### Extremely Rare 1920-S Eagle



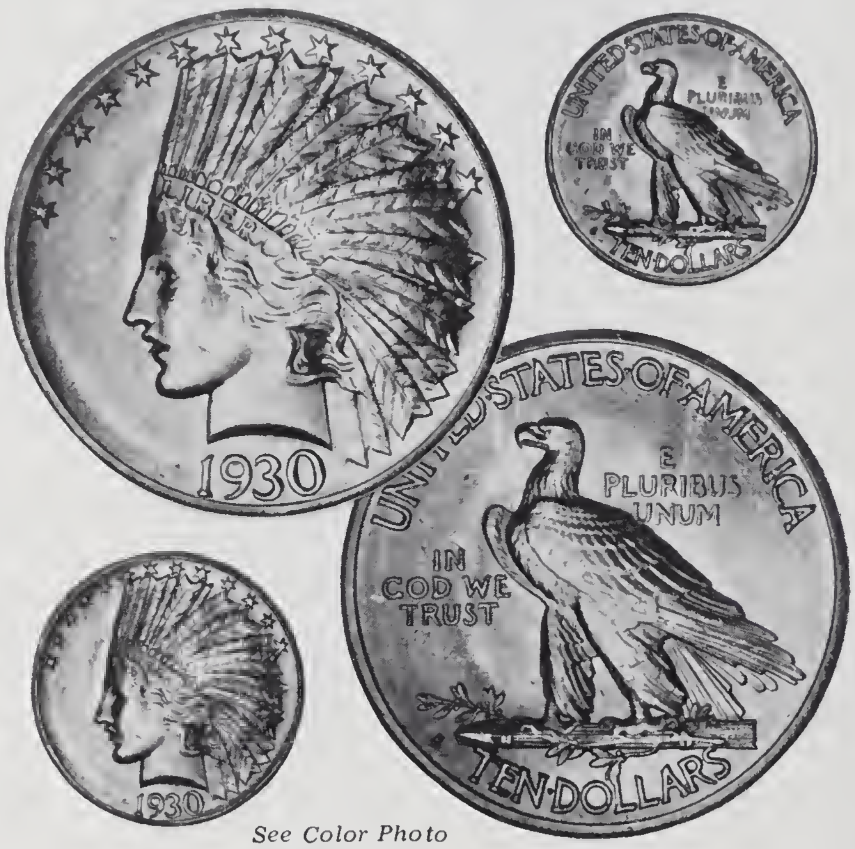
See Color Photo

1422 **1920-S Brilliant Uncirculated.** A bit softly struck in centers. With the large government gold coin melts of the 1930s and later, most 1920-S were liquified! Probably less than 50 are known today out of 126,500 originally struck. A similar 1920-S sold back in October 1977 (our Fairfield Sale) for $9500. It was also in BU grade. The present beauty should realize a like amount.

1423 1926 Choice Brilliant Uncirculated.

1424 1926 Brilliant Uncirculated, nick on chin.

### Delectable Gem BU 1930-S Eagle Rarity



See Color Photo

1425 **1930-S Gem Brilliant Uncirculated.** A tantalizingly beautiful coin! From our Rothert Sale (1973) and equal to the 1930-S which sold in the Fairfield Sale for $9000. 1930-S is considered the last collectable rarity in the $10 series (1933 being all but unobtainable). A coin for the connoisseur.

1426 1932 Choice Brilliant Uncirculated.

1427 1932 Choice Brilliant Uncirculated.

1428 1932 Borderline Uncirculated.

**Friday Afternoon, February 10. 1:00 p.m. Sharp. Lots 1429 to 1932**

# *U.S. Double Eagles*

1429 **1861-S Brilliant Uncirculated.** San Francisco double eagles from the 50s, 60s and 70s are underrated in Uncirculated grades. Few were saved out in the wild West. People were too busy blazing new lands and fighting for survival to consider collecting money! For the collector of today, this 1861-S presents a distinct opportunity. The next time a nice BU 1861-S comes on the market, it will undoubtedly be higher priced than right now.

1430 1863-S Borderline Uncirculated, with very nice reverse. Immaculate fields overall. Certainly one of the nicer known 1863-S double eagles.

### Attractive Proof 1906 Double Eagle

1445 **1906 Brilliant Proof.** Only 94 Proofs were struck in 1906. Many of these were mishandled or spent — leaving far fewer available for collectors today.

1446 1906-D Choice Brilliant Uncirculated. Denver commenced coining operations this year.

1447 1906-S Choice Brilliant Uncirculated.

### Rare 1861 Clark, Gruber Eagle

See Color Photo

1472 1861 **Clark, Gruber & Co. $10 gold eagle.** Liberty head style inspired by the contemporary federal coinage. The present specimen is one of the finest we've seen. It is a **Brilliant Uncirculated** piece with some light usual handling marks. It is completely free of edge bumps and knocks which so often characterize this "Wild West" coinage. An item for the connoiseur!

*Note: The firm of Clark, Gruber & Co. had as its principals Austin M. Clark, Milton E. Clark, and Emanuel Henry Gruber. Drawing upon the recent gold discoveries in the mountains west of Denver, the firm set up business as a refiner and assayer of the precious metal. In July 1860 the first coinage made its debut, an eagle or $10 piece. In August, quarter eagles and half eagles were placed into circulation.*

*Striving to make an excellent reputation, the firm issued coins of nearly pure gold content, a sharp contrast to the debased coinage of many California firms a decade earlier. For the present-day numismatist this nearly pure gold metal explains why most Clark, Gruber & Co. issues show extensive handling marks. Beginning early in 1861 the alloy was changed to conform to that of the United States government, 11 parts of gold to 1 part of copper, the copper adding strength. The dies are believed to have been made in the East, including some by Bailey, Banks & Biddle, Philadelphia Jewelers.*

*The following year, 1862, Clark, Gruber & Co. sold its facilities to the United States government for the sum of $25,000. By that time the private minting firm had produced a total of about $120,000 worth of gold coins. In September 1863 the government, which intended to use the facilities as a branch mint, opened to receive gold for assay and refinement into bars. No coins were struck there by the federal authorities. By 1877 the facilities were termed "decrepit." The Denver Mint did finally come about, using some of the original Clark, Gruber & Co. equipment, and first issued coins for circulation in 1906. By that time a new building had been erected (and is still in use today).*

*Today, Clark, Gruber & Co. is remembered for its few surviving gold coins of the 1860-1861 years and also a number of rare banknote issues from the same period.*

# U.S. Commemorative Coins

*We present an attractive offering of United States commemorative coins in silver and gold. Commemoratives are among the most interesting of United States issues, due in large part to the rich diversity of designs and varieties.*

*Our offering is in depth and includes scarce as well as common issues. For the collector or investor there are many important opportunities.*

### U.S. Commemorative Silver

1473 1893 Isabella 25c. The only United States commemorative coin of this denomination. Gem Brilliant Uncirculated with light toning around the borders.

*Note: The scarcity of the 1893 Isabella 25c is explained by the fact that these sold at the World's Columbian Exposition for $1 each, the same price charged for Columbian half dollars commemorating the same event. A 50c piece for $1 seemed to be a better buy than a 25c piece for the same price, so the public generally avoided the quarters.*

1474 1893 Isabella 25c. Choice Brilliant Uncirculated. Another nice example of this early issue.

1475 1893 Isabella 25c. Brilliant Uncirculated.

1476 1893 Isabella 25c. Borderline Uncirculated with light golden toning.

1477 1893 Isabella 25c. AU, cleaned.

1478 1900 **Lafayette silver dollar. Brilliant Uncirculated.** The only commemorative silver dollar.

*Note: These coins were actually struck in December 1899. There are at least three different minute die variations. Top grade specimens are very elusive.*

1479 **1900 Lafayette dollar. Brilliant Uncirculated.** Another attractive specimen of this scarce issue.

1480 1900 Lafayette dollar. AU.

1481 1921 Alabama 50c. With 2x2 in field. Choice Brilliant Uncirculated. Quite scarce in this grade. An item that the specialist will appreciate!

1482 1921 Alabama 2x2. Choice Uncirculated with attractive light toning. Another prize piece!

1483 1921 Alabama 2x2. Brilliant Uncirculated. Not quite up to the preceding two lots, but still quite attractive and desirable.

1496 1936-S Bay Bridge. Gem Brilliant Uncirculated.

*Note: The Bay Bridge, very much in active operation today as a double-deck two-layer bridge, connects San Francisco and Oakland. Prior to the opening of the bridge about forty years ago one had to take a ferryboat across San Francisco Bay.*

1497 Two California beauties: (1) 1936-S Bay Bridge. Gem Brilliant Uncirculated; (2) 1925-S California Jubilee. Choice Brilliant Uncirculated (and quite hard to find as such!). (Total: 2 pieces)

1498 **Complete collection of Boone commemorative halves.** A very nice grouping, complete with all of the rarities: 1934; **1935 P-D-S set with small 1934;** 1935 P-D-S; 1936 P-D-S; 1937 P-D-S; **1938 P-D-S.** Two of the sets are remarkable for their rarity: the 1935 set with small 1934 posts a mintage of just 2,003, and the 1938 checks in with just 2,100, ranking these among the very rarest of all 20th century American coins, mintage-wise. A very beautiful Choice Brilliant Uncirculated grouping, some with attractive light toning. A connoisseur's lot! (Total: 16 coins)

1499 **1935 P-D-S Boone set with small 1934. Choice Brilliant Uncirculated** with some attractive light toning. (Total: 3 coins)

*Note: This historic set lit the fuse for the great commemorative boom of the 1930s. The original issuer, C. Frank Dunn of Lexington, Kentucky, sold the Denver and San Francisco coins for $3.70 per pair. The entire issue was sold out before orders could be received from collectors ordering from the December 1935 issue of "The Numismatist" (official journal of the American Numismatic Association), and overnight the price jumped to the amazing level of $75 per pair! The great commemorative rush was on!*

1500 **1935 P-D-S Boone set with small 1934. Choice Brilliant Uncirculated.** Another opportunity to purchase this famous and rare set. (Total: 3 coins)

1501 **1935 P-D-S Boone set with small 1934. Brilliant Uncirculated.** Some attractive light toning. A third opportunity to acquire this set of which just 2,003 were minted. (Total: 3 coins)

1502 1937 P-D-S Boone set. Brilliant Uncirculated, lightly cleaned. Mintage of 2,506 sets. (Total: 3 coins)

1503 **1938 P-D-S Boone set. Gem Brilliant Uncirculated.** A famous and rare set of which just 2,100 were minted. No surviving set could be nicer than this one! (Total: 3 coins)

1504 1936 Bridgeport, Connecticut. Choice Brilliant Uncirculated.

*Note: With obverse portraying Phineas T. Barnum of circus fame. Barnum had his fingers in many pies. His biography, which was published in many editions during the last part of the 19th century and which is commonly available in used bookstores for a few dollars, is fascinating reading. His promotion made Jenny Lind, an obscure Swedish singer, one of the most famous stars ever to tour America. Then there was the Fiji Mermaid, the American Museum, the Jerome Clock Co., Iranistan, and, of course, Jumbo, the elephant.*

1505 1936 Bridgeport. Another. Brilliant Uncirculated.

(Total: 15 pieces)

1507 1936 Cincinnati. Choice Brilliant Uncirculated.

*Note: The Cincinnati coins were the pet project of Thomas G. Melish, a well-known numismatist of that city. Issued at $7.75, the sets were in limited supply at the outset, and the price rose to $50 instantly. This, of course, produced a great hue and cry from potential buyers who weren't on the inside track, and smiles on the faces of those fortunate enough to be insiders.*

*To create a commemorative half dollar for Cincinnati it was decided to observe the city as a "musical center of America." Stephen Foster, who had no connection whatever with the city, was selected as the obverse subject. A lute player occupied the reverse.*

*Collectors and enthusiasts today of such romantic musical items as the theatre pipe organ and the coin-operated nickelodeon piano may indeed agree that Cincinnati was a "musical center," for it was in that city that young Rudolph Wurlitzer settled in 1853 (he came to America from Germany, wanted to live in Philadelphia, but after a very rude encounter from a stranger in the City of Brotherly Love, young Rudolph moved on to Cincinnati, a locus for German immigrants, where he felt he would be more comfortable). In 1856 the Rudolph Wurlitzer Co. was founded. In the early 20th century Wurlitzer was preeminent in the field of music in public places and at one time advertised that two million people listened to "Mighty Wurlitzer" theatre pipe organ music each day in America.*

1508 1936-D Cincinnati. Choice Brilliant Uncirculated. One of just 5,005 minted.

*Note: The mintage figures for most commemoratives end in odd amounts, the stragglers being those set aside for assay purposes. For example, 5,000 1936-D Cincinnati halves were released and 5 were sent to the "mother mint" in Philadelphia for assay purposes (to be sure that the coinage was up to the standard weight and metal proportions).*

1509 1936-S Cincinnati. Choice Brilliant Uncirculated. Just 5,006 were minted.

1510 Group of halves: (1) 1936 Cleveland. Choice Brilliant Uncirculated; (2) 1892 Columbian. Choice Brilliant Uncirculated; (3) 1893 Columbian. Choice Brilliant Uncirculated; (4) 1946 Iowa. Brilliant Uncirculated; (5) 1936 Long Island. Brilliant Uncirculated. (Total: 5 pieces)

1515 1935 Connecticut. Choice Uncirculated with light toning.

1516 1936 Delaware. Choice Brilliant Uncirculated.

*Note: To commemorate the same event, Sweden issued a commemorative two-kroner coin of somewhat related design. The American coin was authorized in 1936 and minted in 1937. It bears two dates: 1936 and 1938!*

1524 1922 Grant without star. Gem Uncirculated. Lightly toned.

1525 1922 Grant without star. Brilliant Uncirculated.

1526 **1928 Hawaiian.** The most elusive of all commemorative "type" coins of a single design (as opposed to rare mintmark varieties). The original issue was quite well distributed. Brilliant Uncirculated, cleaned.

1527 **1928 Hawaiian.** Extremely Fine.

1528 **1935 Hudson. Choice Brilliant Uncirculated.** A nice specimen of this scarce and popular issue.

1529 **1935 Hudson.** Brilliant Uncirculated, but with some marks and an edge bump.

1535 1936 Lynchburg. Choice Brilliant Uncirculated.

1536 1936 Lynchburg. Brilliant Uncirculated.

*Note: Looking for something new and interesting to collect? Consider commemoratives! There are many different designs, each with its own fascinating story to tell. You can collect pieces by design types (48 different half dollar designs were made), by mintmark varieties (142 different varieties were issued plus the 1893 Isabella 25c and 1900 Lafayette $1), or by a topic of special interest to you. For example, in the latter category you could collect commemoratives of New England or of California.*

As it turned out by hindsight, issues such as these were the best buy, for in later decades the prices skyrocketed! (Total: 3 pieces)

*Note: It was the 1921 Pilgrim half dollar which made "The Forecaster" investment newsletter famous. The author, John Kamin, studied commemorative halves and concluded that the 1921 Pilgrim was sharply undervalued. This opinion was passed on to readers of "The Forecaster," and the price more than doubled in a few weeks. All of this happened in the 1960s.*

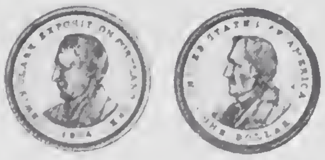
## U.S. Commemorative Gold



*See Color Photo*

1587 **1904 Lewis and Clark $1 gold. Choice Brilliant Uncirculated.** Exceedingly scarce in this condition.

*Note: This is the rarest commemorative gold dollar by far. Unlike the other low mintage gold dollar issues of which substantial numbers went to collectors, the Lewis and Clark pieces were distributed at the Centennial Exposition in Portland mainly to a non-numismatic public. Only a relatively few went directly into the hands of collectors.*

# U.S. Pattern Coins

*We offer a nice selection of United States pattern coins, including quite a few dollar-size issues. All are attributed to "U.S. Patterns," 6th edition, by Dr. J. Hewitt Judd. Copies of this reference are available from us for $17.95 postpaid (please send orders separately from your auction bids as they are handled by our Publications Department).*

*Patterns tell the story of "what might have been" in United States coinage, but wasn't. The individual issues are fascinating. Adding to their allure is the fact that great rarities can be obtained for sums which are a fraction of their comparably rare regular issue counterparts.*

*Over the years it has been our pleasure to have offered some of the finest patterns ever to appear on the market.*

UNITED STATES OF AMERICA
1858
ONE CENT

1608 **1858 Pattern 1c. J-208.** Indian head obverse. Reverse with laurel wreath. *Identical to a regular issue 1859 Indian cent in every way except the date.* A very, very popular issue. Lightly toned **Proof.**

UNITED STATES OF AMERICA
1859
ONE CENT

1609 **1859 Pattern 1c. J-228.** 1859 Indian cent, transitional issue with the reverse of '60 (with oak wreath and shield). **Choice Uncirculated** with attractive light toning.

*Note: Considered by some to be a regular issue rather than a pattern; a consideration prompted in part by the fact that nearly all specimens of J-228 were business strikes (Uncirculated, not Proof).*

1863
UNITED STATES OF AMERICA
2
CENTS

1610 **1863 Pattern 2c. J-312.** Somewhat similar to the style adopted in 1864, except with experimental motto GOD OUR TRUST and with CENTS on the reverse quite curved. Bronze. **Choice Proof** with a bronzed surface, as issued. A particularly sharp example of this issue.

*Note: Prior to the adoption of the IN GOD WE TRUST motto in 1864 several other mottoes were considered; among them GOD AND COUNTRY and GOD OUR TRUST.*

### Rare 1868 Pattern 5c

UNITED STATES OF AMERICA
1868
V

1611 **1868 Pattern 5c. J-630.** Obverse with Liberty head after the contemporary nickel 3c piece. Reverse with large Roman V superimposed on a circular shield. Nickel alloy. *Fewer than a dozen specimens known to exist.* **Gem Brilliant Proof.** A prize item for the pattern specialist!

1612 **1869 Pattern 5c. J-684.** Obverse with Liberty head inspired by the nickel 3c piece. Reverse with V in wreath. Nickel alloy. Mishandled Proof.

UNITED STATES OF AMERICA
1881
V

1613 **1881 Pattern 5c. J-1672.** Obverse with Liberty head modeled by Barber after the goddess Diana (the portrait later used on Liberty head nickels of regular issue 1883-1913). Reverse with V in wreath. Copper. Lightly toned **Proof.** One of the earliest appearances of this motif.

### 1882 Liberty Head Nickel

1882
UNITED STATES OF AMERICA
V
E PLURIBUS UNUM

*See Color Photo*

1614 **1882 Pattern 5c. J-1690.** The exact design of the 1883 Liberty nickel without CENTS. In fact, the reverse of this coin is from the same die later used to make regular-issue Proofs of the 1883 nickel (and identifiable by having a sharply recut S in PLURIBUS). Nickel alloy. **Choice Brilliant Proof.**

While the coin at the end of the Liberty nickel series, the 1913, has commanded pages of newsprint over the years, the interesting 1882 Liberty nickel at the beginning of the series is not well known. From a numismatic viewpoint the coin is quite intriguing. Worthy of a good bid!

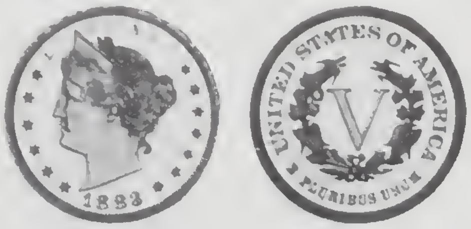
### 1882 Liberty Nickel in Aluminum

1882
UNITED STATES OF AMERICA
V
E PLURIBUS UNUM

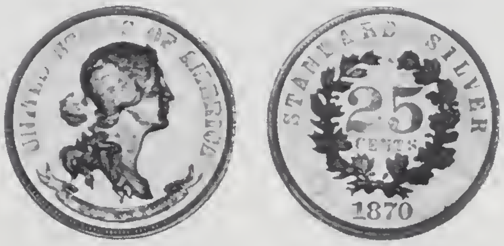
1615 **1882 Pattern 5c. J-1692.** 1882 without-CENTS transitional pattern nickel as preceding, but struck in aluminum. **Choice Brilliant Proof.** Exceedingly rare. Dr. Judd observes that just 4 to 12 are known to exist.

*SEND YOUR BID SHEET EARLY!*

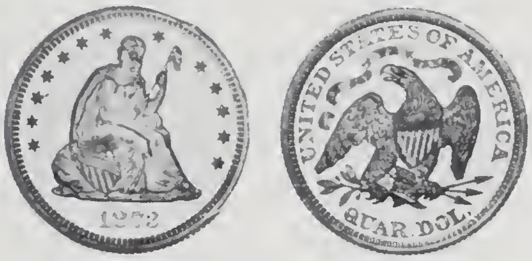
### Rare 1883 Pattern 5c Variety



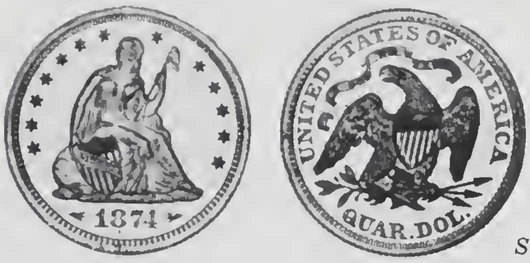
1616 **1883 Pattern 5c. J-1714.** Obverse somewhat similar to the regular issue but with LIBERTY appearing in gracefully arched letters above Ms. Liberty's head, rather than on her diadem. Reverse is of the regular style without CENTS and is struck from the same die (with recut S) as Lot 1614 and Lot 1615. **Brilliant Proof.** Nickel alloy. Quite rare; R-7.



1617 **1870 Pattern 25c. J-919.** STANDARD SILVER issue. **Proof** with beautiful blue iridescent deep toning. Choice, save for a pinscratch in the field and hair, hidden by the toning.



1618 **1873 Pattern 25c. J-1271.** Impression of the regular without-arrows Proof die in aluminum. Very rare (R-7). **Choice Brilliant Proof.** From the collection of Harry X Boosel, the famous 1873 specialist and researcher.



See Color Photo

1619 **1874 Pattern 25c. J-1360.** Aluminum impression of the Proof dies of the 1874 with-arrows quarter. **Choice Brilliant Proof.** Only 4 to 12 specimens known to exist.

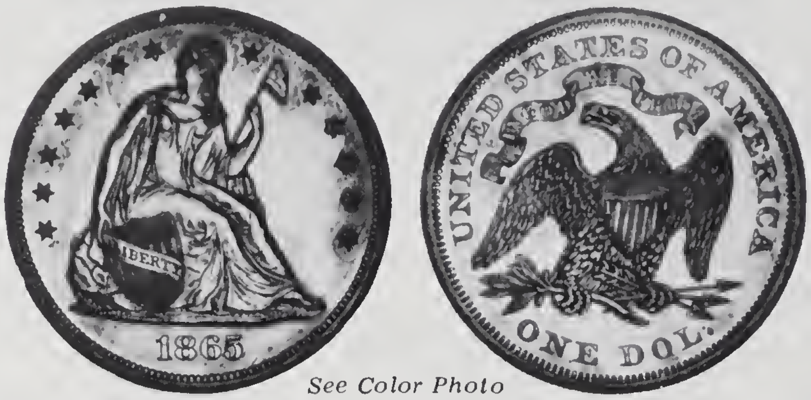
*Note: It is a poignant comment to observe that a regular-issue (silver) 1874 quarter, a coin of which 700 were minted, catalogues $800 in the latest "Guide Book," while J-1360, which is about 100 times rarer, catalogues for just $500 in the latest edition of the Judd book! It is for reasons such as this that pattern coins are attracting an ever-increasing number of numismatists.*

*Gentlemen:*

*"It would be most unfair of me indeed not to write a few words to tell you how greatly pleased I am with the way in which you handled my coins consigned to your sale of June 20-22; the prices realized far exceeded my expectations and the catalogue is truly a masterpiece.*

*"When age finally forces me to auction my collection of English hammered gold and silver, built over a period of twenty years, Bowers and Ruddy will certainly be the recipient of this treasure." — An unsolicited testimonial from W. D. of Abington, Massachusetts.*

### Extremely Rare 1865 With-Motto $1

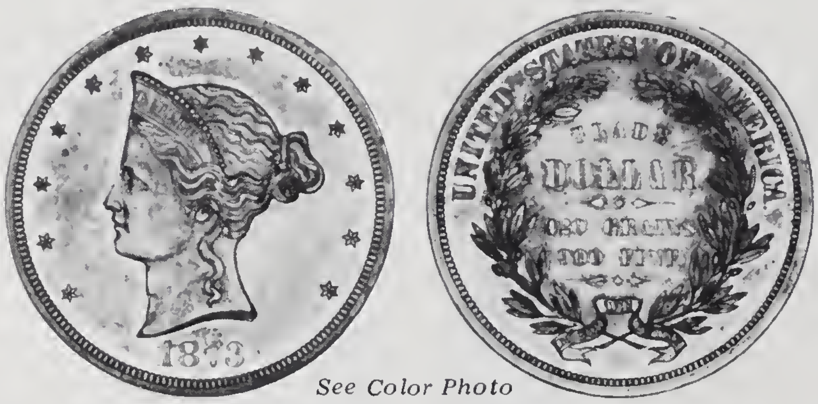


See Color Photo

1620 **1865 Pattern $1. J-434.** Struck in silver. With reverse motto IN GOD WE TRUST as regularly adopted in 1866. Toned **Proof** with some hairlines. One of the most popular, and certainly one of the rarest, pattern silver dollars from this era.

*Note: Believed struck in 1866. See note under Lot 32 in our October 1977 Fairfield Collection catalogue.*

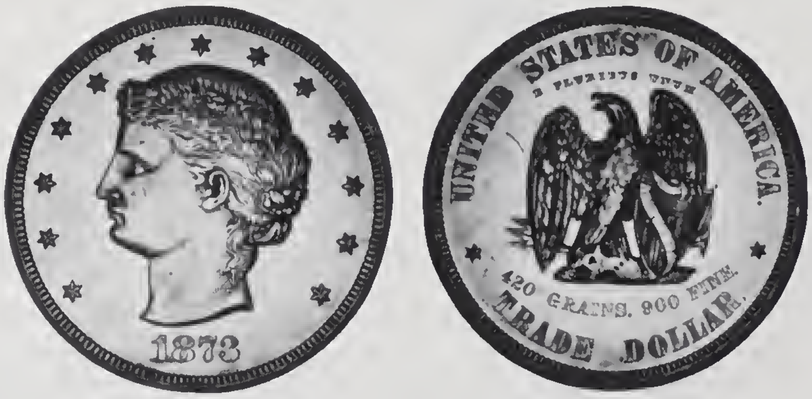
### Attractive Pattern Trade $1; J-1277



See Color Photo

1621 **1873 Pattern $1 trade. J-1277.** Obverse with head of Liberty facing left. Reverse with inscription and wreath. Silver. Plain edge. **Choice Proof** with attractive gray, golden, and blue-hued toning. Dr. Judd notes that *only 4 to 12 specimens are known to exist.*

### Bailly's 1873 Pattern Trade Dollar

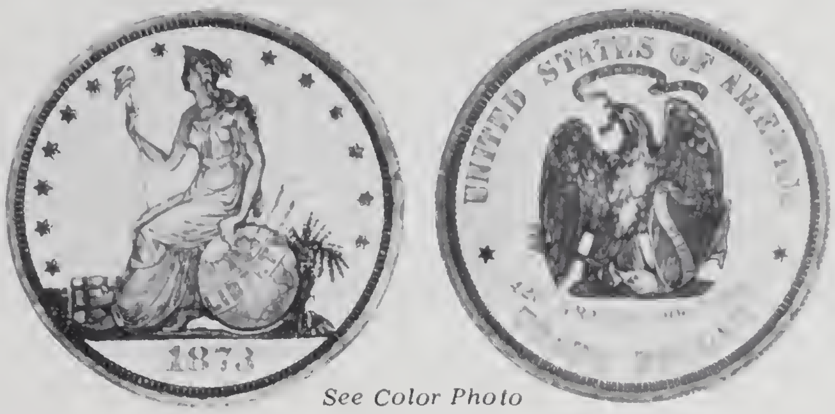


1622 **1873 Pattern $1 trade. J-1281.** Obverse with romanesque head of Liberty facing left. Reverse with standing eagle and shield inspired by the silver patterns of 1872. Silver. Reeded edge. Proof with some light hairlines. Bump on bottom rim of obverse.

*MANY FINE SALES ARE COMING!*

*Right now we are planning our auction program for the next twelve months. Many fine sales including some of America's and Europe's leading collections will be featured. Now is the time to contact us about including your coins as part of one of our sales. Whether you have $2000 worth (our minimum consignment valuation due to the bookkeeping required), $20,000 worth, $200,000 worth, $2 million worth, or whatever, Bowers and Ruddy Galleries offers you the finest auction service available today.*

### 1873 Pattern Trade Dollar; J-1293

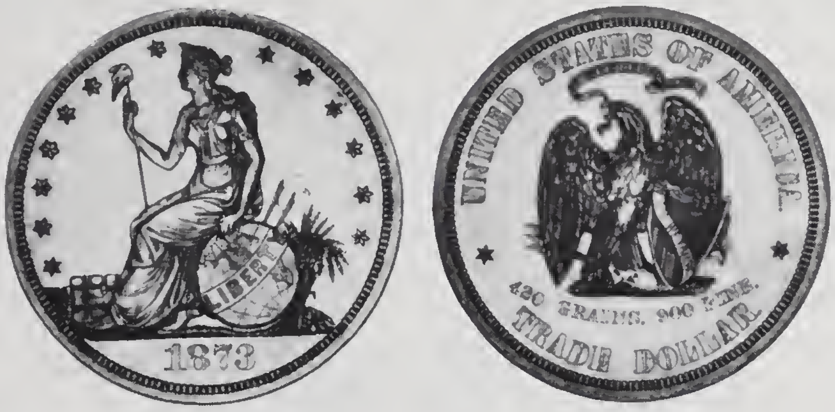


See Color Photo

1623 **1873 Pattern $1 trade. J-1293.** Obverse with Liberty seated on a globe. Reverse with standing eagle and shield; E PLURIBUS UNUM on scroll above. Silver. Reeded edge. **Choice Proof** with attractive gray and golden toning. Scarce so fine.

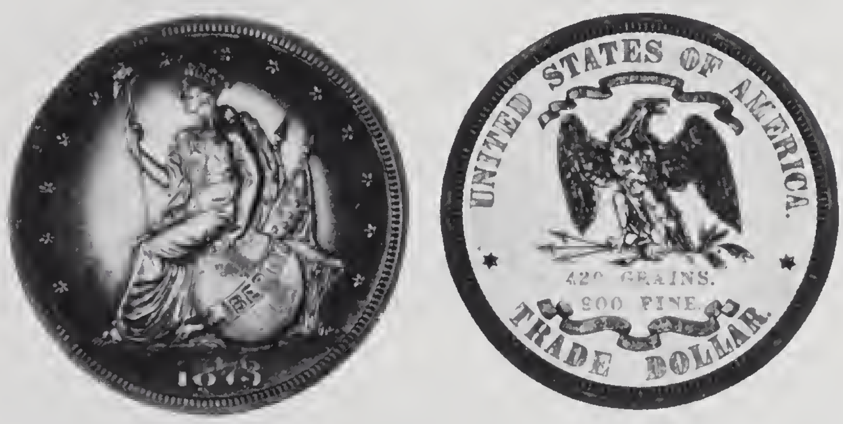
*Note: Generally speaking, pattern trade dollars of 1872 and 1873 are very hard to find in unimpaired Proof condition. This is because trade dollars were not at all popular with collectors until the 20th century, by which time many had been damaged by careless handling. It may come as a surprise to learn that during the early 20th century trade dollars (regular issues, not patterns) could be obtained from coin dealers for less than face value!*

### Another 1873 J-1293 Pattern Trade $1



1624 **1873 Pattern trade $1. J-1293.** Liberty seated on a globe. Reverse with standing eagle. Duplicate of foregoing. Silver. Reeded edge. **Proof** with some minor handling marks.

### Indian Princess Pattern Trade Dollar

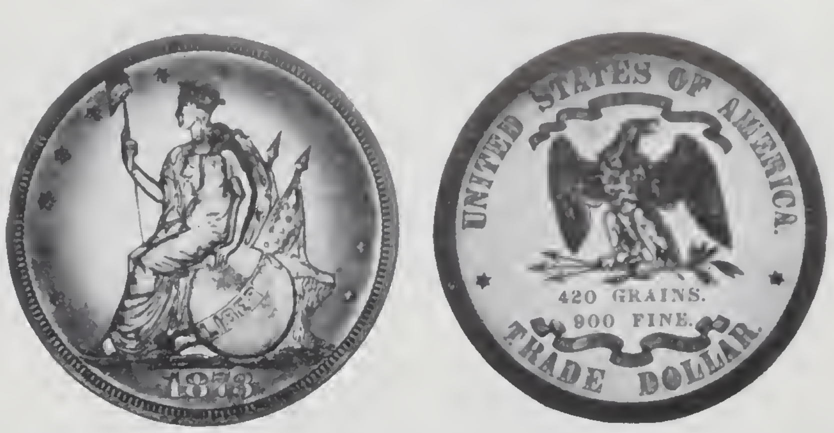


1625 **1873 Pattern trade $1. J-1310.** Obverse with Liberty wearing an Indian headdress, seated on a globe. Reverse with diminutive perched eagle. Silver. Reeded edge. **Proof** with some lines, most of which are die striae as always seen on J-1310, especially on the reverse.

*$2,000 or $2,000,000!*

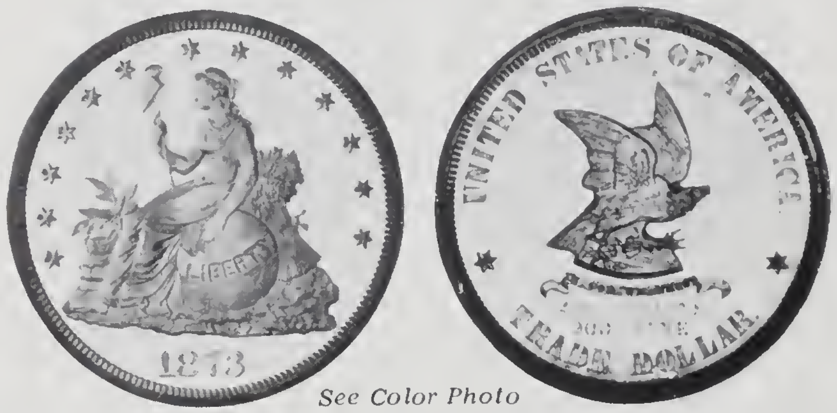
*Whether you have $2,000 worth of coins (the minimum consignment we accept, due to bookkeeping and handling), $20,000 worth, $200,000 worth, or $2,000,000 worth, Bowers and Ruddy Galleries is the ideal way to sell. Over the years hundreds of sellers have been delighted with our service. Thinking of selling? Write or call us today!*

### Another Indian Princess J-1310



1626 **1873 Pattern trade $1. J-1310.** Duplicate of the preceding. Indian princess style; one of the more attractive designs of this year. **Proof** with some lines, nearly all of which are *raised* die lines or striae as made (as opposed to hairlines caused by cleaning which are *recessed* in a coin's surface). Very attractive.

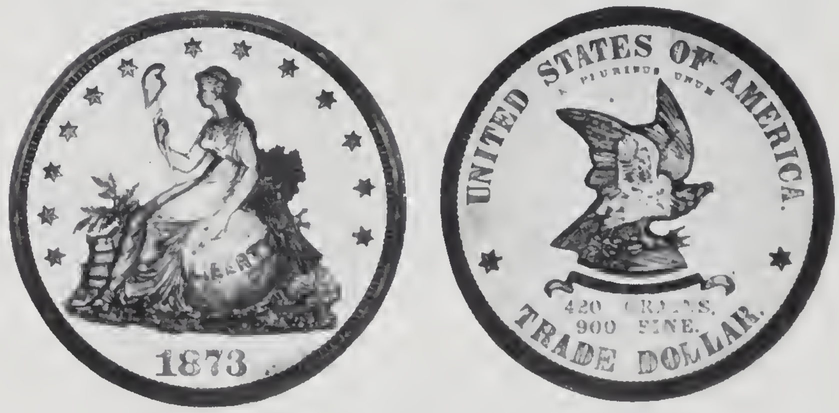
### Bailly's Liberty Seated 1873 Trade Dollar



See Color Photo

1627 **1873 Pattern trade $1. J-1315.** Bailly's design featuring Liberty seated on a globe (of interesting geographical configuration: Alaska is twice the size of South America!). Baled cotton to the left and a wheat sheaf to the right complete the design. The reverse features a very small eagle perched on a shield. Silver. Reeded edge. **Choice Brilliant Proof.** One of the nicest specimens we've seen of this scarce issue.

### Another 1873 Bailly J-1315



1628 **1873 Pattern trade $1. J-1315.** Bailly's Liberty seated design / small eagle reverse as foregoing. Silver. Reeded edge. **Brilliant Proof,** lightly struck at the centers. With some hairlines in the fields.

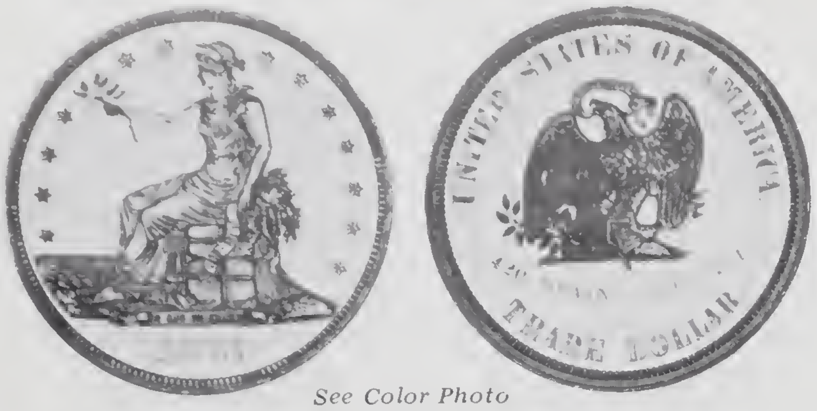
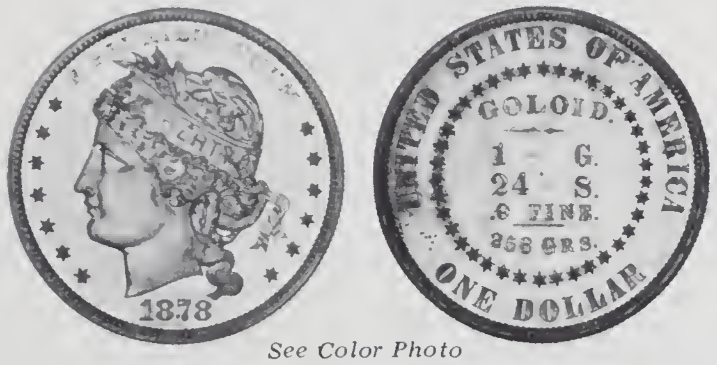
### 1873 Pattern Trade Dollar; J-1322



*See Color Photo*

1629 **1873 Pattern trade $1. J-1322.** The obverse is somewhat similar to the adopted design but has a larger sea. The reverse incorporates a small perched eagle. Silver. Reeded edge. **Brilliant Proof.** A nice example of this scarce issue.

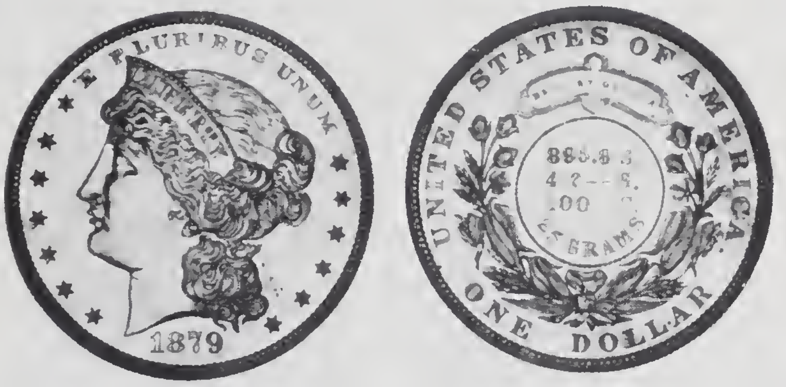
### 1878 Goloid Pattern Dollar



*See Color Photo*

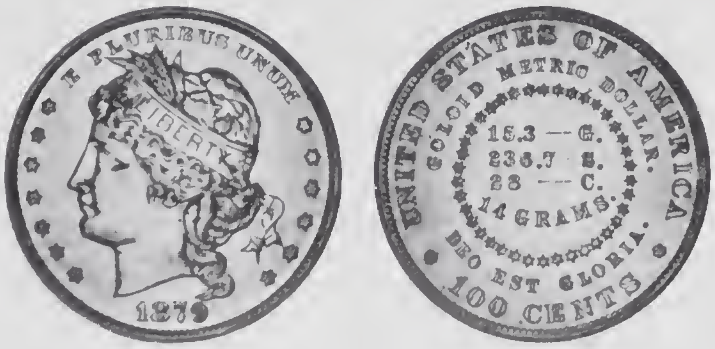
1630 **1878 Pattern $1. J-1559.** William Barber's goloid design, struck in copper, reeded edge. **Proof** with attractive light toning. One of the finest known examples of this issue.

### Rare 1879 Barber Metric Dollar



1631 **1879 Pattern dollar. J-1620.** Barber's metric design. Struck in aluminum. Exceedingly rare (R-7) as such. Unpriced in the Judd reference. **Choice Brilliant Proof.** Some surface planchet flakes as made. A prize example of one of the rarest pattern dollars of this era.

### 1879 Goloid Metric Dollar



1632 **1879 Pattern $1. J-1626.** William Barber's goloid metric dollar design. Believed struck in goloid. Proof with friction and evidence of limited circulation.

## Very Rare Independence Medal

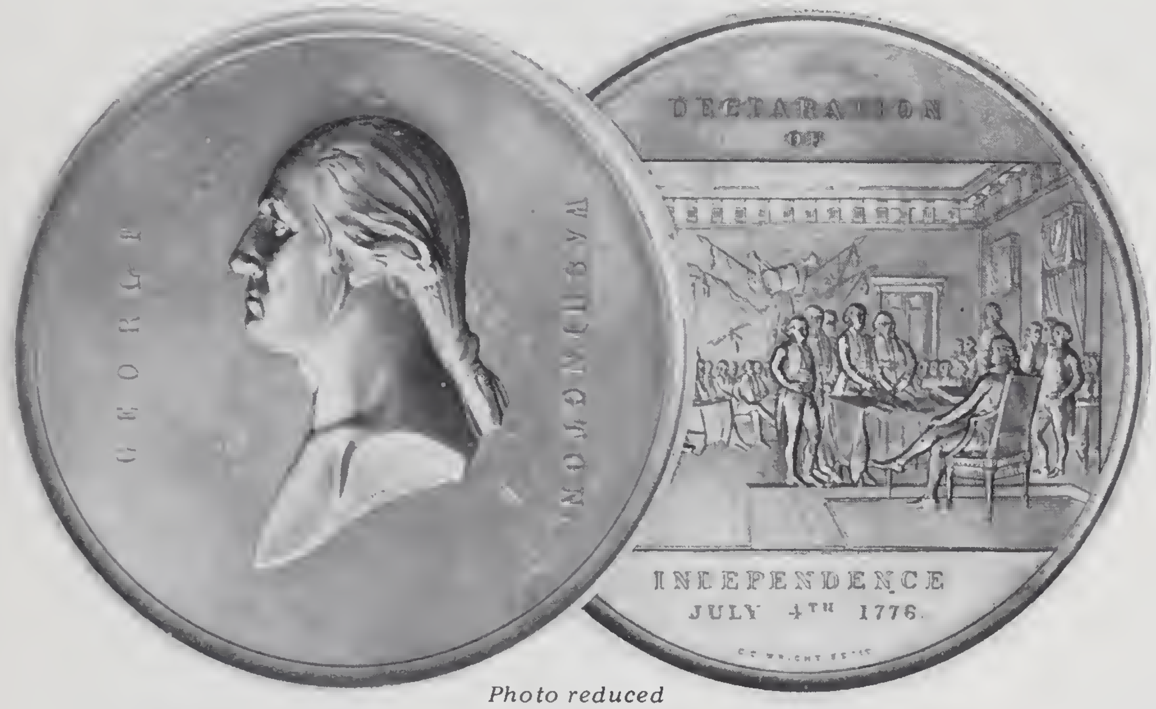

*Photo reduced*

1692 **The C.C. Wright Independence medal.** Baker-53. The present specimen, a **superb bronzed Proof** example, is immaculate in condition and preservation. It is housed in its original velvet-lined presentation case.

This is only the second specimen we've ever auctioned of this famous issue, the other being sold twice by us, once as Lot 442 of the Stanley Scott Collection and, later, as Lot 1911 of the Getty Collection.

The obverse features the undraped bust of Washington facing to the left; on edge of bust, C.C. WRIGHT, D&F [Charles Cushing Wright designed and engraved the dies]. GEORGE WASHINGTON in two parallel vertical lines, divided by the bust. The reverse is a representation of Trumbull's painting of the Congress of 1776, showing the committee making its report on the Declaration of Independence. This same motif has become familiar in recent times–since 1976–following the introduction of the new series of $2 bills.

The medal is massive in size, measures 91 mm. diameter, and is struck in bronze.

Of this issue, Washingtoniana researcher W.S. Baker wrote: "The Declaration of Independence will never lack in interest nor lose in importance, by being constantly referred to or delineated, and of the many attempts which have been made to perpetuate this event and fix it in the memories of our people, the well known painting by Trumbull takes a positive position.

"But paintings are impaired by time and are subject to accidents, while prints and ordinary reproductions are easily destroyed. Metal alone approaches the indestructible, and when Charles C. Wright carried out his idea of reproducing this picture in connection with Washington, as a National Medal, he not only left a testimonial of his patriotism and artistic ability, but also bequeathed to posterity a legacy which will survive and always be respected.

"This medal, **the largest of the Washington series,** and second only in importance to the 'Washington Before Boston Medal,' was executed by the engraver a few years previous to his decease, which occurred June 7, 1854, at the age of fifty-eight. Mr. Wright, an American by birth and the best die engraver this country has produced, was the author of numerous works, many of them quite equal to this in merit, but his name will perhaps be better preserved by means of the 'Independence Medal' than by any other of his efforts.

"The head after Houdon is the best medallic portrait of Washington known to us, conveying all the truth and character of the original, and is remarkable for its excellence of execution, simplicity of treatment, and dignity of expression. The reverse is admirably engraved, and is a faithful copy of the picture by Trumbull, representing the Congress of 1776 and the committee making its report of the famous Declaration."

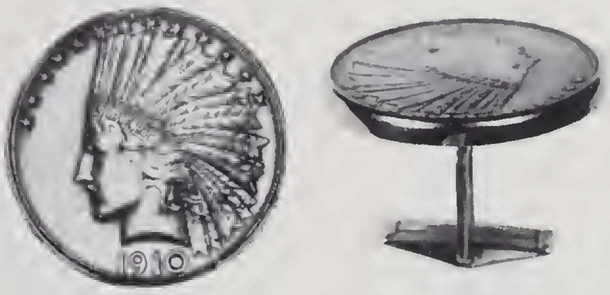
In his 1965 annotation of the Baker work, Dr. George Fuld noted that *just three original specimens are known;* those being the American Numismatic Society, Hon. and Mrs. R. Henry Norweb (ex Parke-Bernet), and Fuld (ex Garvin) examples. The American Numismatic Society specimen is, of course, forever off the market. The Scott-Getty specimen may be the Fuld example, or it may be another. Likewise, the presently-offered specimen may be the Fuld piece or another not recorded by Dr. Fuld. It would appear that at the most, five original specimens are now known, or if this or the Scott-Getty piece and the Fuld piece are the same, then four originals. Deducting the American Numismatic Society piece, this leaves three or four in collectors' hands.

In 1965 Dr. Fuld valued this piece at $500, noting at the time that "pricing is conservative but realistic," and that "pieces sell at or above these prices."

1965 is ancient history so far as the coin market is concerned. In the intervening years there has been a tremendous growth in interest in all numismatic areas, with the field of Washington pieces sharing in this heightened appreciation. The Independence Medal by C.C. Wright represents the largest and most important Washington medal that is possible to buy and is one of the most desirable pieces in American numismatics. That is a classic.

The Scott-Getty coin, a piece which is not quite the equal to this one condition-wise and which was not in its case of issue, sold for $1375 in 1977. We anticipate that the present specimen, a *superb* piece in every respect should sell in the same range if not even more. It's an *exciting* piece, and we'll be envious of its next owner!

1693 **Victor D. Brenner plaque.** Bronze plaque, 88 by 65 mm., by noted sculptor Victor D. Brenner, progenitor of the Lincoln cent. The plaque features the celebrated artist James McNeill Whistler in a casual standing pose. The inscription JAMES McNEILL WHISTLER / PAINTER ETCHER / AVTHOR is in the left field. The sculptor's signature appears as V.D. BRENNER at the upper right. Bronzed Proof as made.



1694 Pair of gold cufflinks made with 1910 $10 gold pieces. The cufflink frames are 14 karat gold. The two coins grade Extremely Fine and do not appear to be soldered in. (Total: 2 pieces)

1695 Pair of American Numismatic Association medals. (1) Silver medal by Medallic Art Co. 1967. Dedication of the home headquarters of the A.N.A. in Colorado Springs, Colorado. 38mm. Mint State. (2) 1966 Diamond Jubilee (75 years) of the A.N.A. Designed by Frank Gasparro, who also designed the Kennedy half dollar. Massive bronze. 76.5mm. Mint State. (Total: 2 medals)

# Coins of Hawaii

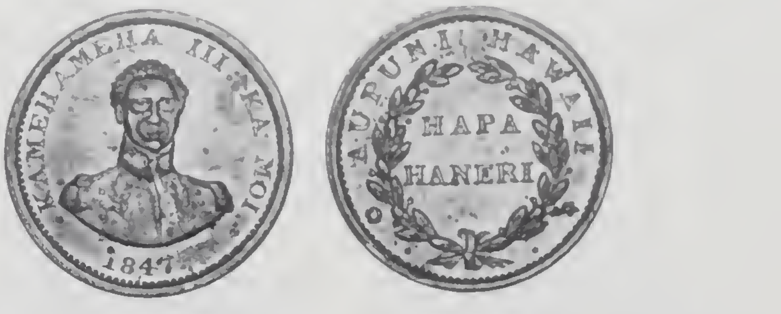
*We are pleased to offer for your bidding a select group of Hawaiian coins, tokens and medals. Included are some of the rarest coins from this small kingdom. A few moderately priced items are also available.*

*Rarities include seldom-seen Proof strikings of the 1883 Kalakaua silver coins ($1, 50c, 25c and 10c). For the variety collector there is a complete run of 1847 one-cent pieces issued under Kamehameha III (the 18-berry cent is the key here). Rounding off the Hawaiian section is a lovely Liliuokalani "pattern" dollar by the famous medallist, Huth (England).*

1696 1847 One cent. Bust of King Kamehameha III (reigned 1824-1854). Small bust variety and plain 4 in date. Reverse with 17 berries, arranged 8 left and 9 right. Very Fine, a few light marks.

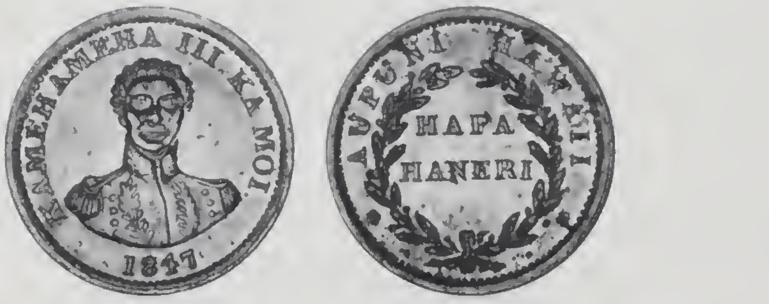
*Note: The 1847 Hawaiian cent is a one-year type coin. In fact, it is the only 1c coin ever struck for Hawaii. Originally 100,000 were struck (by a Boston firm). Most went into circulation and by 1862, Hawaiian government records show only 11,000 still outstanding. Even as late as the 1880s cents were found in circulation. Today's demand for Hawaiian cents leads all other Hawaiian coinage. Five varieties are known — two obverses combined with five reverses.*

1697 1847 One cent. Small bust. 15 berries in wreath (8x7). Very Fine, attractive medium brown color. A few light rim nicks.



1698 1847 One cent. Small bust. 13 berries reverse. **Red and brown Uncirculated.** 30% original mint color. Uncirculated Hawaiian cents are few and far between. A lovely coin.

1699 1847 One cent. Large bust. Crosslet 4 in date. **The rare 18-berry reverse.** Berries 9x9. By far this is the most difficult variety to locate. We offer for your bidding a Very Fine example. A few light marks.

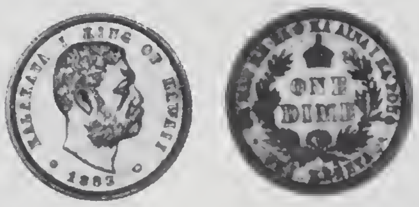


1700 1847 One cent. Large bust. Crosslet 4. 15 berries reverse (7x8 berries). This reverse is a different 15-berry than Lot 1695. Collectors have been wondering for years if other 15-berry combinations exist. **Choice brown Uncirculated.** Tinges of mint red in the protected areas. An exceptional coin. Well struck.

1701 1847 One cent. Large bust. Crosslet 4. 15 berries, as last. **Glossy brown Uncirculated.** Weakly struck on the reverse (top of the wreath), but overall a nice coin.

1702 Pair of Hawaiian silver coins. (1) 1883 Kalakaua 10c. Fine; (2) 1883 Kalakaua 25c. Fine. (Total: 2 pieces)

### Very Rare Proof 1883 Hawaiian Dime

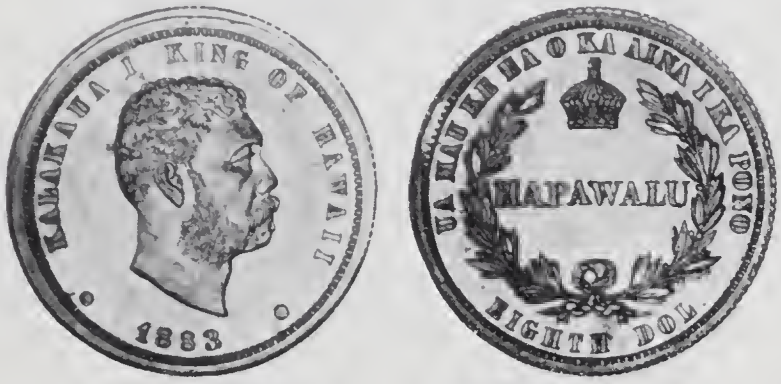


1703 **1883 10c Proof.** Beautiful blue toning. All Proof Kalakaua coinage of 1883 was struck at the Philadelphia Mint. *Just 26 sets were struck in 1883 & 1884* and sent to Hawaii for inspection and approval. Nearly all of the sets were subsequently broken up and sold to collectors. The present dime is just a couple hairlines away from Choice. Of the few Proof Hawaiian coins that do come on the market, most have been mishandled or impaired in some way. This one is not impaired. A rare opportunity!

*Note: Twenty Proof sets were struck in September 1883 and an additional 6 in 1884. The dime, quarter, half and dollar are also known in copper (Proof patterns), though these are more common than the silver Proofs! Proofs in metals other than silver or copper were fantasy pieces struck years after Hawaii became a territory of the U.S.*

1704 1883 10c. Brilliant Uncirculated, a few scattered hairlines on the obverse. Otherwise Choice.

## Remarkable 1883 12½c Struck in Gold



See Color Photo

1705 **1883 "Hapawalu" (12½c) struck in Gold.** Choice Uncirculated condition, surfaces lustrous and with characteristic fine raised striation lines in fields. Evidently the dies that struck this piece were not properly lapped down to remove the light lines.

It is believed that the Hawaiian gold (as well as platinum) "patterns" were struck in the early 20th century. The 8s in the date are the so-called "lazy-8" variety — unlike the original 8s as used in the striking of coins in 1883.

*Note: The 12½c denomination ("Hapawalu" in Hawaiian — meaning eighth part) is an enigma. At the time the coins were being designed, the Hawaiian islands still used a modified Spanish system of prices and wages. Half bits (6¼c), bits (12½c), two bits (25c) and 37½c prices for goods were not uncommon in Honolulu stores. When King Kalakaua ordered coinage, he originally asked for a 12½c piece instead of a 10c piece. However, the coinage contract stated that all the coinage was to be made to the same standards as the then-current U.S. coinage. Confusion arose over the 12½c denomination, of course. To facilitate matters, the dime was chosen instead. Only 20 silver "hapawalus" were struck at the time. Today the coin is a major rarity. The interesting gold "hapawalu" carries this rarity and controversial story even further!*

## Lovely 1883 Hawaiian Quarter Proof

1706 **1883 25c. Brilliant Proof.** Beautiful frosted devices offsetting reflecting mirror fields. As with the other silver Hawaiian Proofs, this quarter was struck to the tune of 26 pieces! Many of these are seen impaired, so again, we offer you a great opportunity to acquire a Hawaiian rarity.

1707 1883 25c. Choice Brilliant Uncirculated. A bright, lustrous coin. Exceptional in every respect.

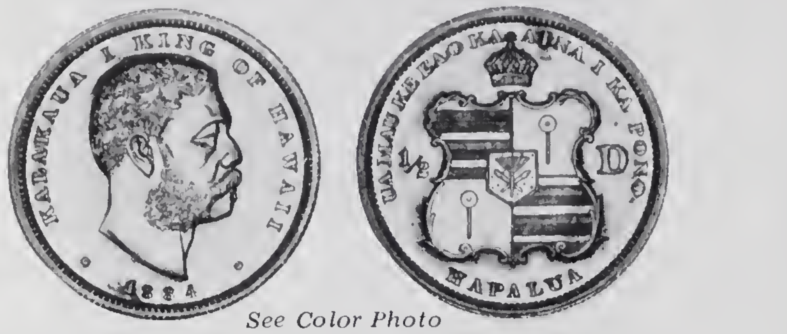
## 1884 Hawaiian Half Dollar in Gold



See Color Photo

1708 **1884 50c Struck in Gold!** Choice Uncirculated with fields similar to the previously listed dime. Undoubtedly struck at the same time. *Only two halves in gold are known.* (The other is struck over a 1901 U.S. $10 gold piece). This coin, too, is struck over a U.S. $10 gold (258 grains weight). On the reverse, faintly visible, is UNITED STATES OF AMERICA.

These Hawaiian gold pieces have always attracted great interest from Hawaiiana collectors. We had two platinum strikings a few years ago, but never any of the gold pieces. The consignor of these two Hawaiian gold pieces purchased both from our friends at Quality Sales Corporation. Once they're sold here, you'll probably not have a chance on them again for many years.

## Blue Toned Proof 1883 Hawaiian Half Dollar

1709 **1883 50c Attractive blue toned Proof.** Minimal hairlines. Only 26 Proofs struck of this one-year type coin. A "must" for any advanced collection.

1710 1883 50c. Brilliant Uncirculated. In fact, quite close to Choice. Bright cartwheel lustre, like it came from the mint. Mint state Hawaiian halves are much more elusive than their mintage would suggest. Mintage was 700,000. However, records in the Archives of Hawaii at Honolulu show over 600,000 of these were melted!

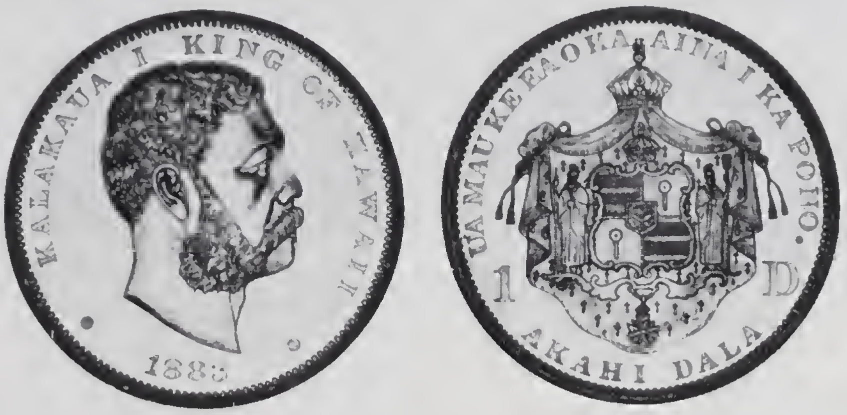
1711 1883 50c. AU, lightly toned. Nearly full mint lustre.

## Lovely Brilliant Proof 1883 Hawaiian Dollar



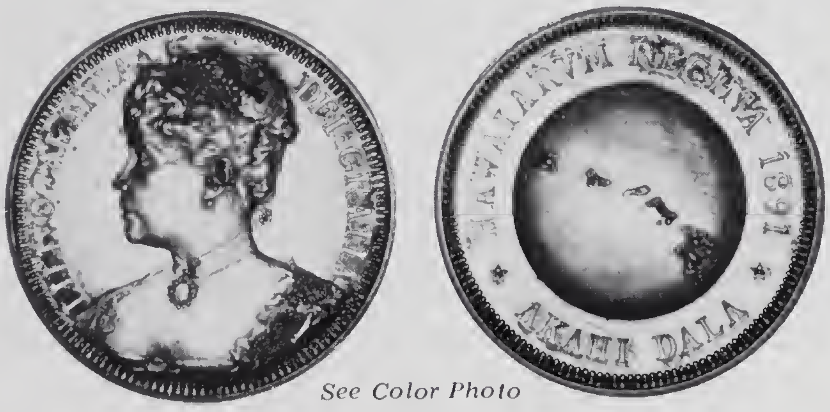
1712 1883 $1 **Brilliant Proof** with light peripheral toning. 26 Proofs struck. We've seen several impaired ones. Being the only Proof "crown" from the Kingdom of Hawaii, this dollar has much going for it. Not only do collectors of U.S. and Hawaiian coins desire Hawaiian dollars, so, too, do crowns-of-the-world collectors. The only silver dollar from Hawaii.

KALAKAUA I KING OF HAWAII
1883
1 D
AKAHI DALA

1713 1883 $1 **Borderline Uncirculated.** A touch of friction on Kalakaua's beard and some fine field hairlines keep this from fully Uncirculated condition. Most collectors and many dealers would be fooled into believing this to be BU. A lovely coin. Worth about $1000. (A Choice BU $1 brought in excess of $3000 in a private sale at the 1977 A.N.A.).

1714 1883 $1 Extremely Fine, average handling marks.

## Beautiful 1893 Liliuokalani Pattern Dollar

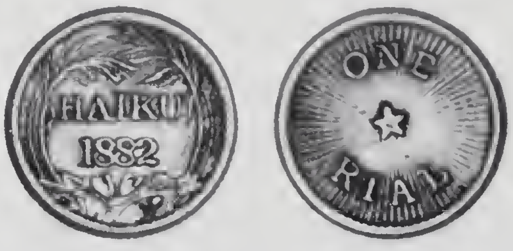


*See Color Photo*

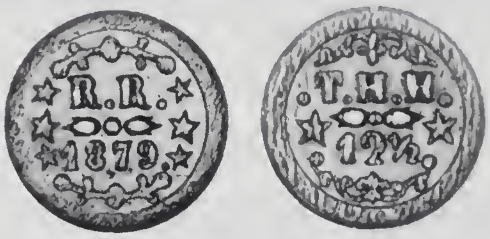
1715 1893 **Liliuokalani "pattern dollar"** by Reginald Huth of England. Lightly toned Proof, minor hairlines. *Struck in silver and only 50 made!* A beautiful design having the island chain atop a globe-shaped field.

*Note: Queen Liliuokalani was deposed January 11, 1893 in a bloodless revolution. American businessmen and their political cohorts took control of the government, established a Provisional Government (1894) then the Republic of Hawaii (1895-1898). These were troubled times for the tiny Kingdom. The twentieth century was fast approaching and pushing aside the backward islands.*

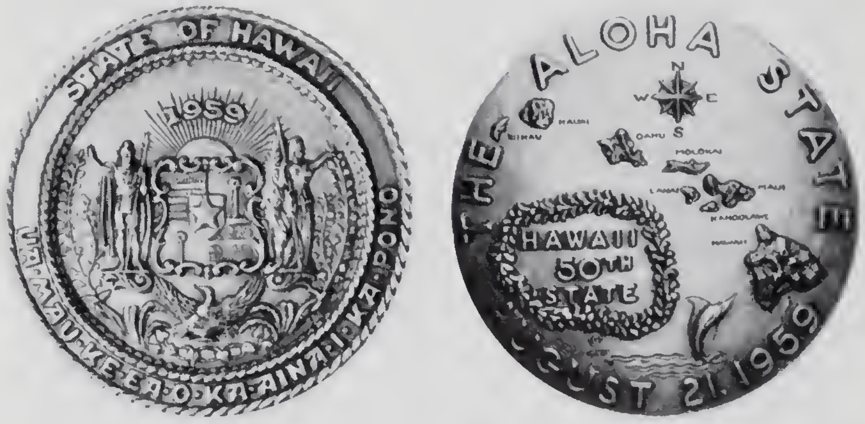
*Reginald Huth, famous British medallist struck the Liliuokalani pieces to commemorate the Queen. As an interesting sidelight, it was not until 1901 that Liliuokalani even heard about the "dollar"!*



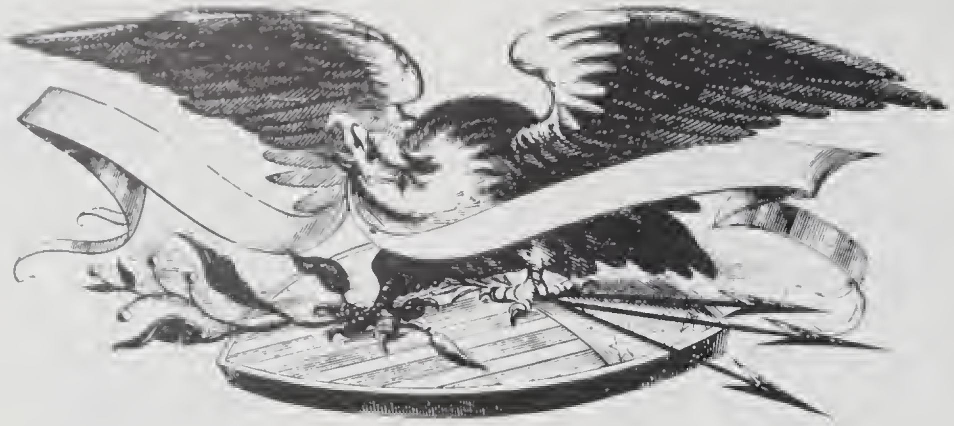
1716 1882 Hawaiian token. Haiku Plantation 1 Rial (real). Haiku was a sugar plantation on the island of Maui. Due to a lack of small change, the management had tokens struck up. These were then used as local money in the plantation stores. Not many Haiku Plantation tokens were stuck and few are around today to meet the collectors' demands. **Extremely Fine.** (See page 250 of the *Guide Book*). Worth about $125.



1717 1879 Hawaiian token. Thomas H. Hobron token of the Maui railroad named after him. This small railroad ran about 3 miles between the towns of Wailuku (sugar mill town) and Kahului (the port). Very Fine, as nice as the *Guide Book* coin.



1718 Pair of 1959 Official Statehood medals for the state of Hawaii. Struck by Medallic Art Company. One is bronze and one is sterling silver. These massive medals (63.5mm. each) are always great attention-getters. Both are Mint State. Estimated worth between $100 and $120. (Total: 2 pieces)



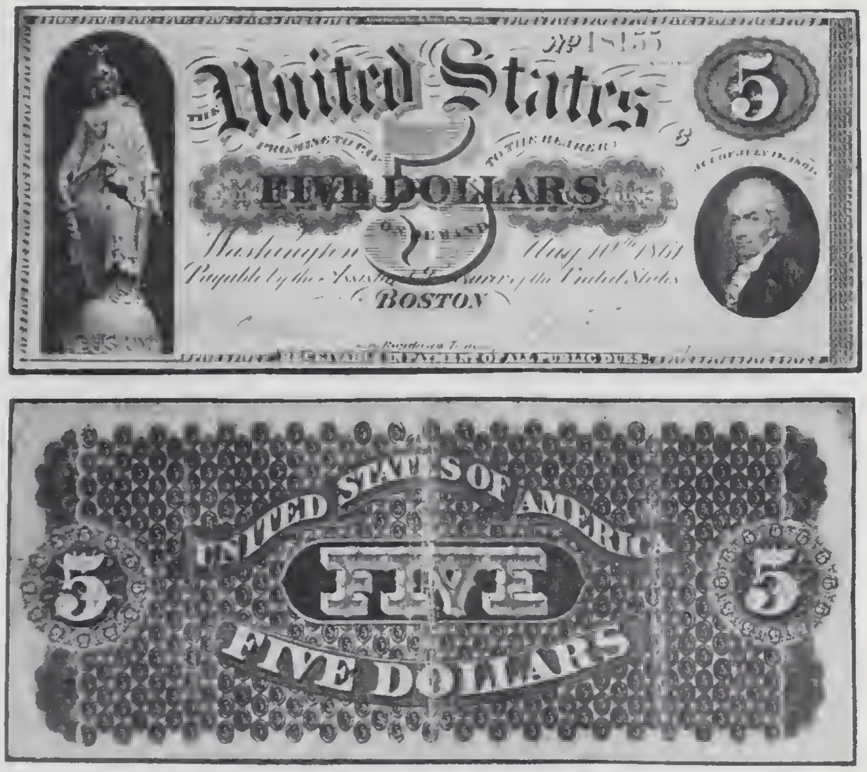
# U.S. Currency

*United States paper money is enjoying great interest today. As collectors become aware of the many types of notes, as well as relatively low prices, interest should increase. Most attention is now focused on large size notes, but with the extensive group of colonial notes in this sale, the colonials will get recognition.*

*We've tried to photograph as many notes as possible to give you an idea of the scope of the paper money field in U.S. numismatics. If you have any questions, we'd be happy to advise you. Wherever possible we have given our estimates of what we feel the lots will bring.*

# U.S. Large-Size Paper Money

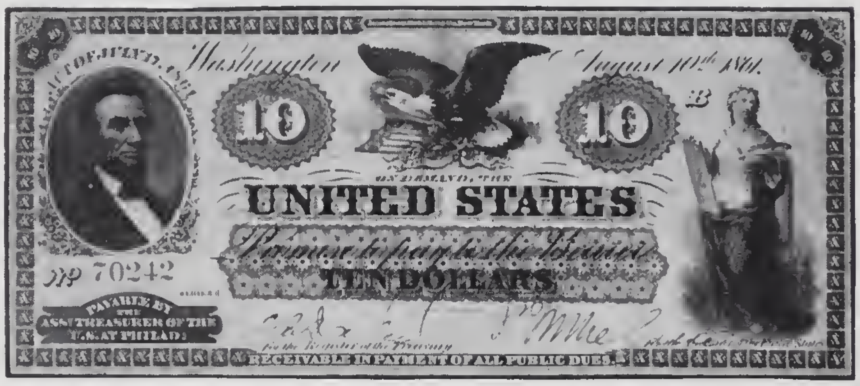
### Legal Tender or U.S. Notes



1719 **F-3 $5 Demand Note of 1861.** The first "greenback" issued to help finance the Civil War. Payable at Boston. The variety with "for the" printed. Very Good, a nice, unimpaired note. ($900-$1100)

*Note: Of the few Demand Notes in existence, most suffer from some damage. Problems like pinholes, tears, stains and similar mishaps abound. To find a clean, circulated note such as this $5 is a pleasant surprise.*

### Exceptional F-7 Demand Note



1720 **F-7 $10 Demand Note of 1861.** Designs as the preceding. Payable at Philadelphia. "For the" printed. **Fine, full margins.** An exceptional state of preservation for a Demand Note. Most saw extensive circulation and few today come this nice. ($1300-$1600)

1721 F-16 $1 1862. Portrait of Chase. Crisp New. A couple corners rounded (not unusual on early notes) but otherwise Choice. One tiny pinhole. ($200-$250)

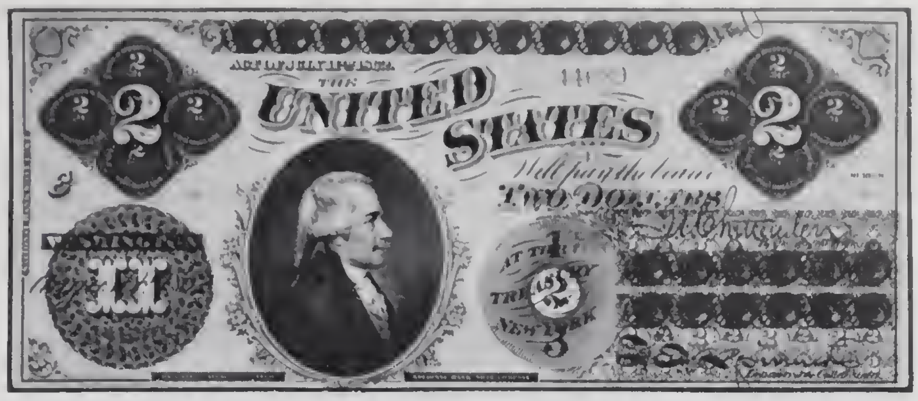
1722 F-18 $1 1869. The colorful rainbow series note. Attractive blending of blue, green, red and black colors. Crisp New, well centered. Faint wrinkle in paper (as made). Scarce, short-lived type that was replaced in 1874. ($240-$300)

1723 F-19 $1 1874. Small red seal with rays. While not quite as colorful as the 1869 rainbow note, the 1874 series was printed with an ornate red scrollwork at right. Crisp New and bright. Full margins. ($200-$240)

1724 F-30 $1 1880. Large brown seal. Nice type note. Choice Crisp New, full margins. ($90-$120)

1725 Pair of $1 Legal Tender issues: (1) F-37 1917. Extremely Fine; (2) F-40 1923. AU. ($70-$90) (Total: 2 pieces)

1726 F-40 $1 1923. Attractive design with red seal and red serial numbers. Crisp New. Tiny age spot — otherwise Choice. Pleasing wide margins. Bright color. ($90-$120)



1727 F-41 $2 1862. An important design. Nearly all $2 large size notes are difficult to locate. This early deuce is quite scarce. Crisp New, one tiny pinhole. Bright. ($350-$450)

1728 F-42 $2 1869. Rainbow series incorporating a colorful obverse. Very Fine. ($200-$250)

1729 F-50 $2 1880. Large brown seal. Crisp New. ($110-$130)

1730 F-58 $2 1917. A good type note. Choice Crisp New. ($70-$100)

1731 (1) F-60 $2 1917. AU; (2) F-91 $5 1907. Extremely Fine. ($60-$80) (Total: 2 pieces)

1732 F-63 $5 1863. Early greenback. Designs similar to the very rare Demand Notes of 1861. Statue of Columbia (who stands atop the Capitol building in Washington, D.C.) at left. AU. Very attractive. ($140-$175)

1733 F-64 $5 1869. Rainbow series. Popular farm family vignette in center. Crisp New. Rare. ($250-$300)

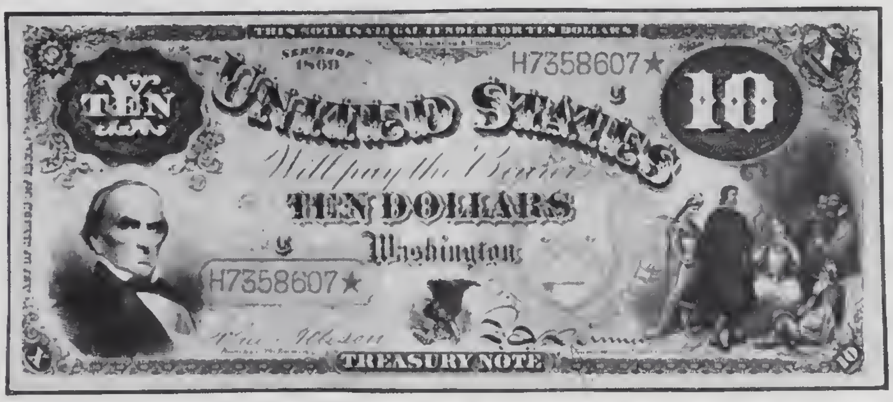
1734 F-68 $5 1875. Ornate obverse designs. Crisp New, tiny corner crease (not affecting the design, however). ($125-$150)

1735 F-72 $5 1880. Large brown seal. Crisp New. Rounded corners and light counting smudge. Still very desirable. ($100-$130)

1736 F-81 $5 1880. Blue serial numbers. Small red seal. Short-lived type note. **Choice Crisp New.** Lovely. ($130-$160)

1737 F-93 $10 1862. Rare, early Civil War issue. Extremely Fine and nice. Light counting smudge is mentioned, but otherwise the note is excellent. ($280-$320)

1738 F-95 $10 1863. Designs as last. Another of this scarce, higher-denomination note. Very Fine. ($220-$260)



1739 F-96 $10 1869. Rainbow series. Interesting "jackass" eagle design, also. **Choice Crisp New.** We expect some spirited bidding on this note. So few F-96s come on the market this nice that collectors almost have to stand in line to get one! ($600-$700)

1740 F-113 $10 1880. Jackass eagle. Blue serial numbers. Small red seal. Choice Crisp New. Very nice. ($200-$250)

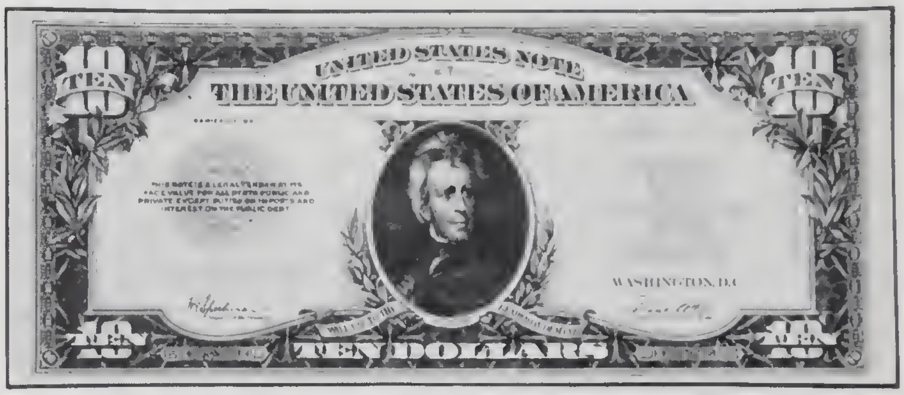
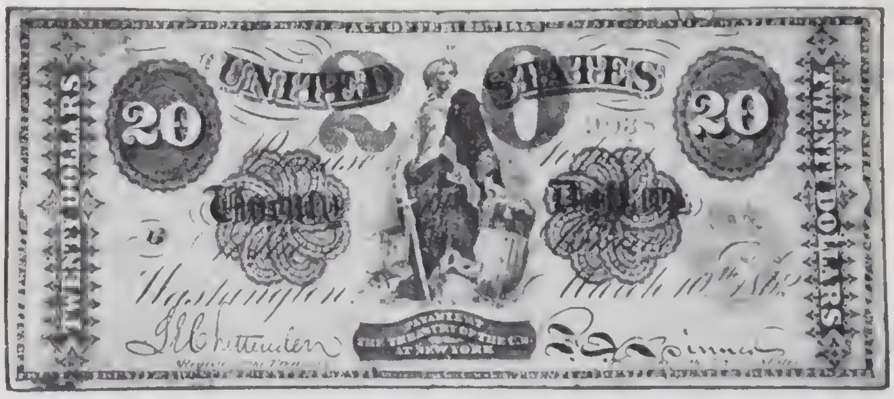
1741 F-119 $10 1901. The Bison note. One of the most attractive designs. In great demand in all grades. Crisp New. Tiny paper wrinkle and slight waviness. Fully Choice, otherwise. Bright. Full margins. ($325-$375)

1742 F-121 $10 1901. Bison. Extremely Fine. A second example. ($150-$200)



1743 **F-123 $10 1923.** Short-lived type. Beautifully proportioned designs having red seal and serial numbers. AU, full crispness and color. ($550-$650)

1744 F-124 $20 1862. Very rare in all grades. High denomination, early Legal Tender notes are the "classics" in American paper money. While the present note grades VG-Fine, it is nonetheless highly desirable. ($300-$400)



1745 F-124 $20 1862. Duplicate. Another example of the rare 1862 series. Very Good, small tear at right margin and some pinholes. ($250-$300)

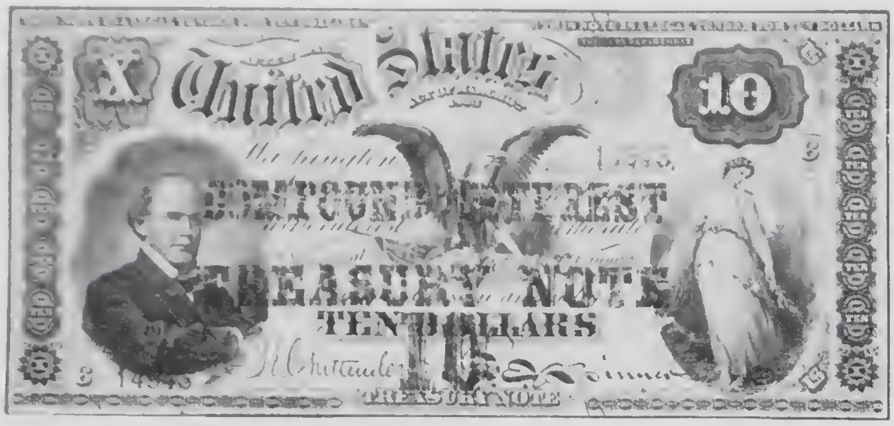
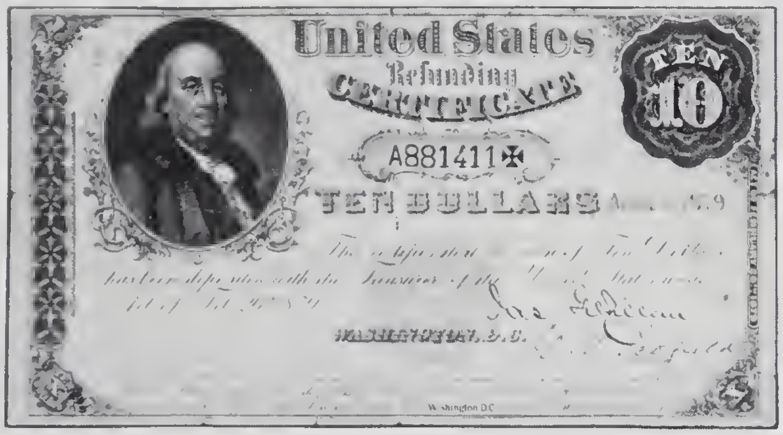
### Very Rare $10 Compound Interest Note



1749 **F-190 $10 Compound Interest Note** of 1864. Portrait of Chase. Interest notes are an abortive attempt of the North to help fund the Civil War. Once the Union government decided on an unbacked currency issue (Legal Tender notes) the Compound Interest notes were no longer issued. The present rare note grades Very Fine. The obverse bronze overprinting is somewhat oxidized, as often seen, but fully readable. A desirable rarity. ($1800-$2200)

### Important $10 Refunding Certificate



1750 **F-213 $10 Refunding Certificate** of 1879. Another of the short-lived currency types. Very Good. A few thin areas and three tiny repairs. Inexpensive for its great rarity at ($700-$850)

The $2 denomination was not printed in large quantities as most commerce could be handled nicely using $1 and $5 bills. # Gold Certificates

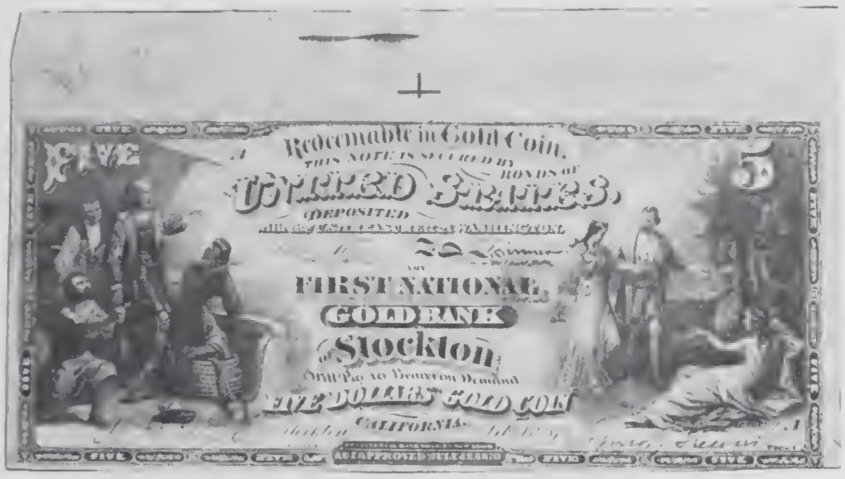
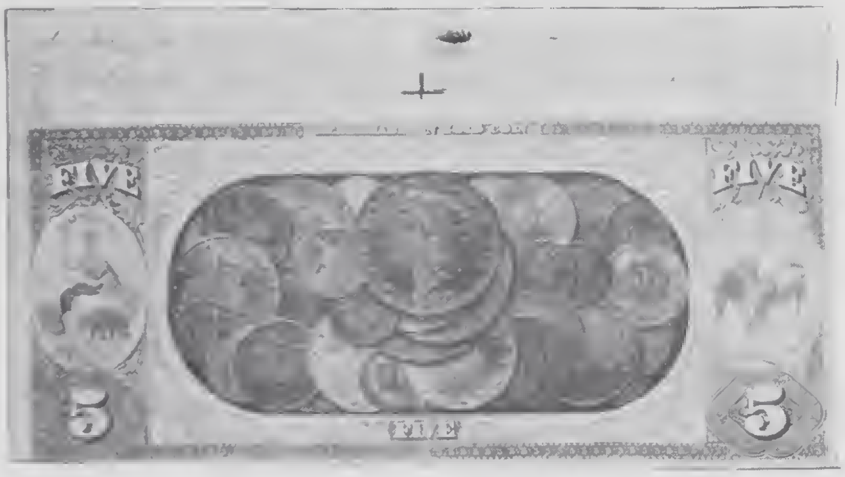
### Serial Number 1 National Gold Bank Note
### $5 National Gold Bank of Stockton, California





1817 **F-1140 $5 National Gold Bank Note. 1873. The First National Gold Bank of Stockton, California.** Charter 2077. All National Gold Bank notes are rare. The present note is the highlight of this sale! *This note is serial number 1 - the first note ever issued by the Stockton bank!* It is the top note from the sheet, with attached wide top margin! Penciled in this margin is the following: "H. Floyd Hewlett's, given him by his father as a keepsake being the first five dollar note issued of the National Bank of Stockton."

The note itself is signed by H.H. Hewlett as Cashier and Frank Stewart as President. This H. (Henry) H. Hewlett founded the bank and was well known in the northern part of California as an astute businessman.

The note grades a full Very Fine which is quite high for a National Gold Bank Note. As it is the top note from the sheet, the top margin is quite large. This note is undoubtedly one of the most important Gold Bank notes in existence. We expect some lucky collector of California nationals to come away from the auction the proud owner of this exciting rarity!

*Note: The H. Floyd Hewlett mentioned in the penciled notation was a nephew of Henry H. Hewlett. The Hewlett family retained this note for many years, finally selling it to the well known dealer Leo Young. Mr. Charles Johnson purchased the note from Leo Young.*

*National Gold Bank notes usually come in well worn grade - evidence of their extensive circulation in the West. To acquire one in such high grade as this, in addition to its illustrious pedigree, is remarkable. Certainly many years will go by before the note is re-offered for sale.*

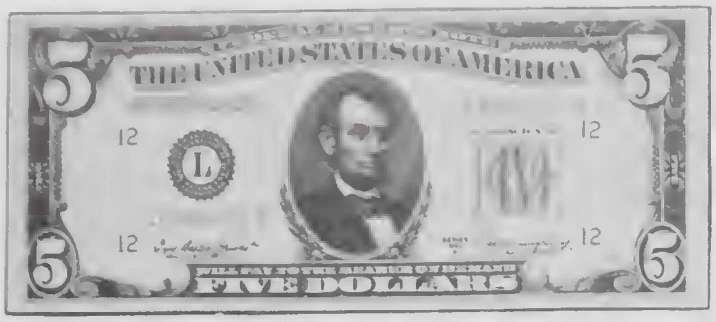
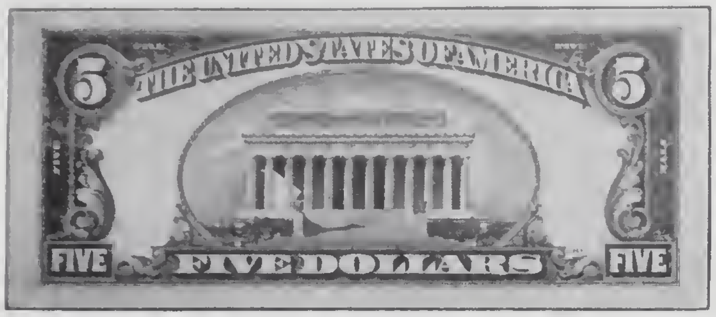
*30% MORE THAN HE EXPECTED!*

*One of our consignors recently wrote to us to say that his coins sold for 30% more than he expected to receive after his study of the coin market! Armand Champa, one of America's most prominent numismatists, wrote to us to say that his coins sold for DOUBLE the highest cash offer he was able to get for his coins by having dealers come to make bids on his collection. And, our files are full of many other such experiences. Recently, a piece which the consignor expected to get about $15,000 for fetched $50,000! We could think of even more spectacular instances, but you get the idea!*

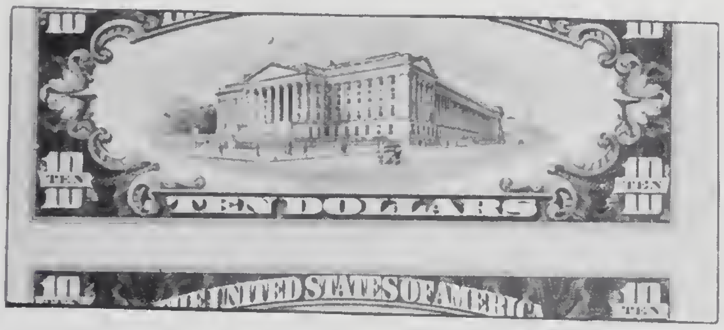
*Thinking of selling? There is one right answer: An auction sale by Bowers and Ruddy Galleries, Inc.*



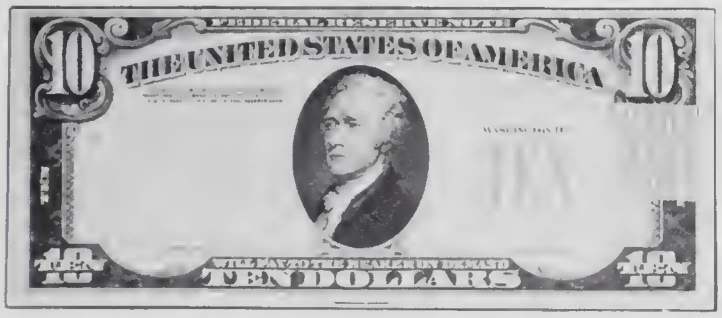


1842 F-1962L $5 Federal Reserve Note. 1950A. Mismatched serial numbers. *A very unusual mismatch in that the last number in the serial number is off by THREE digits!!* (Usually the numbers are off by just one number). Crisp New, glue remnant on right margin. ($100+)

1843 F-1962L $5 Federal Reserve Note. 1950A. Reverse printing error — half of the reverse (diagonally) is blank due to a piece of paper covering the spot at the time of printing. A dramatic error! Crisp New and nice. ($50+)



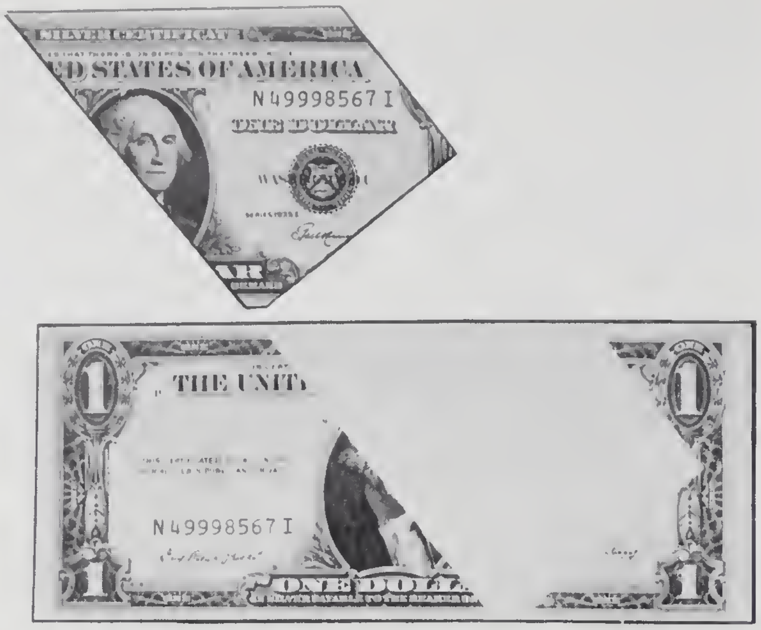
1844 F-2011L $10 Federal Reserve Note. 1950A. Cutting error — portions of 2 notes show on the reverse due to a misalignment of the paper in printing. Extremely Fine. ($25-$50)



1845 F-2011L $10 Federal Reserve Note. 1950A. Double error! Obverse: Serial number, seals and signatures missing, plus a red inspector's tag! Reverse: Partial serial number and "Series 1950A" plus partial signature diagonally across the paper! AU, two pinholes. A dramatic double error, indeed! ($100+)

*BID BY MAIL!*

*If you cannot attend the sale in person, we invite you to bid by mail. Check through this catalogue carefully and determine which lots are of the greatest interest to you. If you strongly want a particular Lot, then a strong bid is indicated. However, we also recommend that you bid on many Lots which you might like "if the price is right." By bidding on 50 additional Lots this way, chances are good that you might buy 5 or 10 exceptional values. Every time a sale is ended, we receive calls and letters saying, in effect "I wish I had bid $— on that Lot, but now it is too late." Well, right NOW it isn't too late! Send us your bid sheet today!*



1846 F-1614 $1 Silver Certificate. Error. Very Rare two piece white error (Donlon error type 2-9 — see page 155). Choice Crisp New. (???)

*Note: This is one of the most important types of error paper money. In nearly all instances, when such an error occurs, the separate piece of paper gets lost and only a white space remains on the note. This is one of the very few intact two piece white error notes. According to Mr. Charles Johnson, it was found during a Hollywood, California television program by a contestant in a package of 100 new bills used as prize money on the program!*

## GOLD COINS OF CANADA
### —A Complete Selection—

3352 **Canada.** 1908-C Sovereign. F-1. Edward VII. Standard British type but with "C" mintmark above the date. The rare specimen issue of which only 636 were struck. The first sovereign of Canada and the first year of the three year type of Edward VII. This is a Choice "specimen strike" with velvety smooth surfaces. Current catalog value is $2750 and this premium coin, along with the two following coins, could easily surpass catalog valuation.

*Note: This and the following two lots have been examined by J.A. Haxby, curator of the Bank of Canada National Currency Collection and have been deemed to be ". . . all specimen strikes not intended for circulation . . ."*

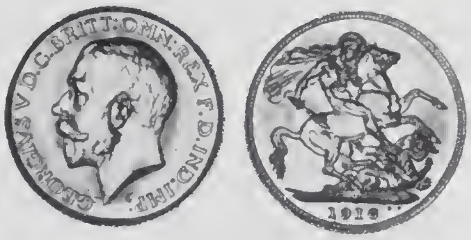
## A Canadian Super Rarity



*See Color Photo*

3364 **1916-C Sovereign.** F-2. George V. Standard British type with "C" mintmark above date.

Though the recorded mintage is 6,111 pieces, fewer than 10 specimens are known, making this the rarest gold coin of Canada and one of the rarest of all the world's gold coins.

Choice Brilliant Uncirculated with smooth, clean fields. Well struck, very few bagmarks on the bust and horse, and a tiny scrape on the rim to the left of the date are mentioned only for accuracy and do not detract in any way. This coin is superior to the Bank of Canada National Currency Collection and is very possibly the finest known.

The 1977 *Standard Catalogue of Canadian Coins, Tokens and Paper Money* by J.E. Charlton, quotes this coin at $16,000, a realistic valuation considering its great rarity. A premium coin worth a premium bid.

3365 1917-C Sovereign. F-2. Type as above. AU with bagging. ($80-$100)

3366 1917-C Sovereign. F-2. As above. Lustrous EF with considerable bagging and several edge nicks. ($65-$85)

3370 Pair of Sovereigns: (1) 1910-C F-1. Edward VII. VF, bagging and a few edge nicks. (2) 1911-C F-2. George V. Lustrous AU with bagmarks. (Total: 2 pieces) ($175-$225)

*Note: Regarding the above lot, though there is no sign of mounting, it is possible that these coins were in jewelry, which would explain their unusual appearance. If not, they are ideally suited for that purpose (cuff links for the Canadian specialist?).*

3384 1914 5 Dollars. F-4. Scarcest decimal gold issue and key to the 5 dollar series. Lustrous AU, a tiny rim bump at 9 o'clock on reverse. ($550-$700)

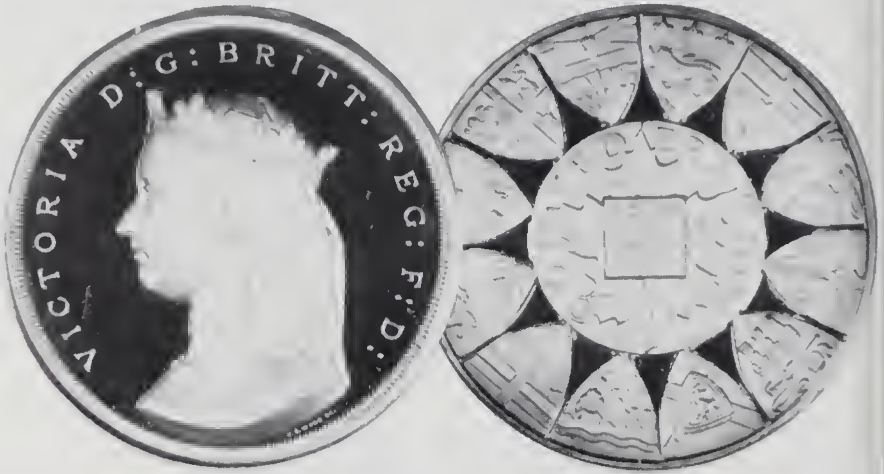
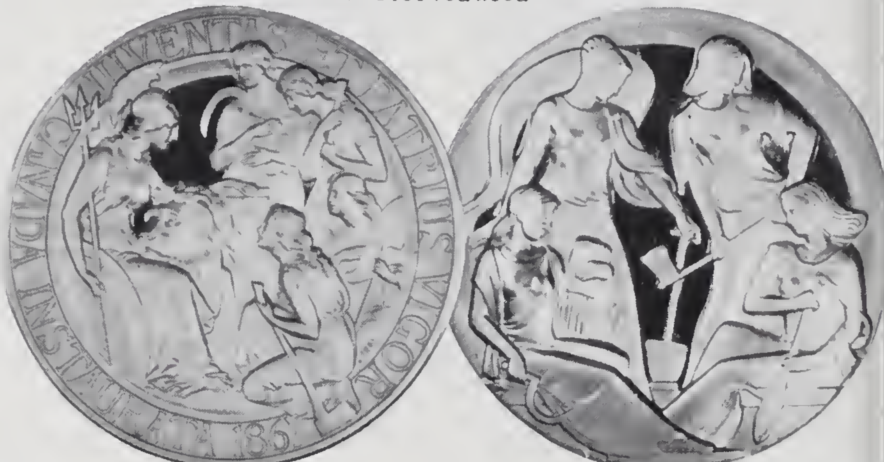
## A Magnificent Set of Gold Medals



*Photos reduced*



3421 1967 Pair of Gold Medals issued to commemorate the centenary of the Confederation of Canada, 1867-1967. The medals measure 76.3 mm and 76.5 mm respectively in diameter and together have a gross weight of 28.5 ounces. The fineness of 22 ct. is stamped on the edge.

Only 25 sets of two different medals (this is no. 1) were struck by John Pinches Medallists Ltd. of London to commemorate this most important event in Canada's history.

The Queen Victoria medal is from dies by J. S. Wyon for the obverse and J. S. and A. B. Wyon for the reverse. The second medal is unsigned.

The exquisite beauty and extreme rarity of these medals combine to make them among the most desirable of all gold medals of the world and as such are worthy of the finest general or specialized Canadian collection.

Housed in a very plush, and deservedly so, case of leather, satin and velvet with certificate from the minter. Both are Choice Brilliant and frosted Proofs with some faint hairlines. ## A Pride of Lions

*Our pride consists of three 1839 Una and the Lion Pattern 5 Pound gold pieces. Certainly among the most beautiful and famous of all the world's gold coins, they are considered by some to be the most beautiful gold coins, and they are without a doubt among the most popular.*

*On the obverse is the lovely young head effigy of Queen Victoria while on the reverse is portrayed the allegorical Una (from Edmund Spencer's "Faerie Queen") leading the British lion, with a Latin legend above which translates to "God Directs My Steps."*

*Like the other British rarities in this sale, the three 1839 5 Pound patterns have been examined by the International Bureau for the Suppression of Counterfeit Coins, the authenticating service of the International Association of Professional Numismatists. They have been compared to the specimens and dies in the Royal Mint Museum and have been deemed genuine.*

# The Roy Harte Collection of Philippine Currency

*It is with great pleasure that we present the Roy Harte collection of Philippine guerilla and emergency notes and bank notes of the Philippine Islands. The collection of guerilla currency is the most extensive we have ever catalogued and it should be noted that many of the pieces contained in the collection were relatively available 10 or more years ago but today are virtually never offered for sale. Many notes in the collection are, in fact, plate notes used in Neil Shafer's remarkable compendium, "Philippine Emergency and Guerilla Currency of World War II." Because of the conditions under which these notes were printed, issued and used it is amazing that so many varieties survived in collectible condition to be enjoyed by the numismatic fraternity today. The overall condition of the notes contained in this collection is, relatively speaking, excellent.*

*To truly appreciate the fascinating history of these unusual notes, we would refer the reader to Neil Shafer's book, mentioned above. In all cases we have used his work to catalogue and identify the notes contained in this collection. Bank notes are catalogued by Shafer numbers found in "A Guide Book of Philippine Paper Money," and, again, we would refer the interested buyer to that reference.*

# Helpful Mail Bidding Suggestions

by Bob Korver, Auction Department Manager

For the new as well as the seasoned mail bidder, here are some helpful suggestions and hints which will help to increase your bidding success. I've numbered the following paragraphs for your reference ease in the event you wish to ask further questions about any aspect. Have a question? Write or call and I or a member of the Auction Department staff will gladly answer it!

1. Read the Terms of Sale in the front of the catalogue. These terms define your obligation when you submit a bid sheet.

2. Mail your bid sheet in as early as possible. This is particularly important if you're a new bidder, for it takes us time to check your references.

3. I've found it best to use a work sheet to compile bids. In this way you can check back and forth throughout the catalogue, make changes and revisions, and so on. Then when you've decided on your final bids enter them on the bid sheet. Try your best to keep the bid sheet neat and clearly understandable, listing the lots in order.

4. If you are a new bidder, send along references and a 25% deposit.

5. Be prepared to pay in full for all lots for which your bids are successful. Don't bid more than you want to pay! Review your financial circumstances carefully before bidding. If you are awarded lots, you are legally bound to pay for them.

6. Please keep in mind current price levels when bidding. While high and low prices sometimes occur, most items sell within market ranges. If a popular coin sells for $500 on the retail market, chances are not good that a bid of, say, less than $400 will win it. On the other hand, chances are excellent that a bid in the $500 to $600 range will be a winner. There's no harm in bargain-hunting, but as your time is valuable (and so is ours) it is most productive if you keep current values in mind while bidding!

7. Auction invoices are due upon receipt.

8. You may pay for your auction lots with Visa or Master Charge, but a small percentage increase must be added to your invoice to cover our charges in this regard.

9. Be sure to sign your bid sheet.

10. Ink is best for writing bids. Pencil tends to blur.

11. If bid changes are necessary, do not over-write any figures. Instead, cross them out completely and re-enter the bids.

12. Put your telephone number on the bid sheet. In this way we can call you if there is any question about a bid.

13. Submit your bids in even dollar amounts. Cents and fractional dollar amounts will be ignored.

14. Check your bid sheet carefully. You will be responsible for any bids on wrong lots or for the wrong amounts. Please be careful!

15. Don't forget to take advantage, if you wish, of the optional 10% or 20% increase to really help your chances of being a successful bidder.

16. If you wish to limit your total expenditure, please write MAXIMUM EXPENDITURE $--- and the amount at the top of your bid sheet. You can then submit bids for amounts up to four times the amount of the maximum expenditure. A B&R customer representative will bid for you from the auction floor, buying lots for your account until your authorized expenditure is reached. Due to the bookkeeping involved, this service is offered only to bidders with maximum expenditures of $1000 or more. This is a popular service, and I invite you to take advantage of it!

17. Up to several lots may be grouped with brackets for a "ONE LOT ONLY" purchase, if you wish to purchase only one example of a type of coin or a date of coin of which several examples appear in the sale. Such lots should be bracketed with the notation "ONE LOT ONLY" appearing.

18. Lots may be inspected by mail prior to the auction. Please write or call for further information.

19. An expanded article, "How You Can Bid SUCCESSFULLY by Mail," appeared in our Fairfield Collection catalogue (October 1977) and also in our Roy Harte Collection catalogue (November 1977). A Xerox copy of this article is yours free for the asking.

20. Thank you for your participation. We really appreciate your interest and business and will do anything we can to make auction bidding by mail more enjoyable for you. We look forward to receiving your bids.
